EXECUTIVE SUMMARY

Senate Bill 1038 (Thompson, Chapter 1043, Statutes 1998) expressed legislative intent that regional centers and their families have access to mental health services that are appropriate to meet their needs. Among other provisions, this bill required in Welfare and Institutions Code, Section 4696.1, (f) (1)(2)(3) that, by May 15 of each year, the Department of Developmental Services (Department) provide all of the following information to the Legislature:

1. The status of the memorandums of understanding developed jointly by each regional center and the county mental health agency and identify any barriers to meeting the outcomes specified in this section.
2. The availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.
3. A description of each regional center's funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and whether it is physically accessible.

This report provides the information specified above. All regional centers and local mental health agencies have entered into memorandums of understanding. The report notes where progress has been made in the development of innovative resources, and how the collaborative effort between the Departments of Mental Health and Developmental Services has been strengthened as evidenced by co-sponsoring the Mental Health Task Force for Persons with Developmental Disabilities (MHTF), and current barriers which include:

- Lack of psychiatric in-patient beds in some counties due to hospital closures.
- Lack of developmental disabilities knowledge by Mental Health staff.

Summary of Memorandum of Understanding (MOU) Status Between County Mental Health Agencies and Regional Centers in California

Senate Bill 1038 (Thompson), Chapter 1043, Statutes 1998, requires that each regional center and county mental health agency develop an MOU to improve cooperative efforts regarding regional center consumers requiring mental health services. Currently, all 58 counties and 21 regional centers have at least one MOU. Each regional center and county mental health agency is responsible for maintaining and/or revising their MOU. Revisions occur on an ongoing basis.

The Department of Developmental Services (DDS) and the Department of Mental Health (DMH) continue to provide facilitation between regional centers and county mental health agencies. Ongoing facilitation efforts include the following:

- Convene quarterly meetings of the Mental Health / Developmental Disabilities Collaborative (Collaborative) to develop strategies for successful community services for persons with a dual diagnosis (developmental disability and mental health diagnosis). The Collaborative's mission is to reduce barriers and build resources for persons who are dually diagnosed.
- Provide technical assistance as requested by the regional centers and/or county mental health agencies.
- Disseminate information regarding training for professionals in the fields of mental health and developmental disabilities.

As a result of these efforts, new innovative services and supports have been developed. Notably, information regarding successful blended funding for developmentally disabled and mental health programs has been shared statewide, resulting in the development of additional services and supports for this population.

Although these developments are promising, barriers continue to exist in providing services and supports in the community. Current barriers include:

- Lack of psychiatric in-patient beds in some counties due to hospital closures.
- Lack of developmental disabilities knowledge by mental health staff.

DDS continues to take action to address these barriers and improve services for individuals with developmental disabilities and mental illness. These accomplishments include activities using moneys received from the Mental Health Services Act (MHSA), such as the following:

- In 2010, DDS sponsored various innovative training projects for consumers, families, direct service providers, clinicians, and other professionals. These training projects were convened by six regional centers - Golden Gate, San Andreas, Harbor, San Diego, Westside, and San Gabriel/Pomona. Topics included early intervention and treatment, Regional Planning Summits, best practices, cross cultural mental health treatment, and family issues across the life span for individuals with developmental disabilities and mental illness.
- DDS disseminated the MHSA Request for Application to regional centers and their community partners for Fiscal Years 2011-12 through 2013-14. Projects will address critical areas, including consumers at risk for multiple in-patient hospitalization,

DDS will announce project awards in May 2011.

- In fall 2010, DDS launched the Mental Health webpage, featuring activities of the regional center MHSAs projects. Training and support materials are available at http://www.dds.ca.gov/HealthDevelopment/MHSA_TrngRegProject.cfm.

Mobile Crisis Intervention Services and Emergency Housing Options of the Regional Centers

Welfare and Institutions Code Section 4648(a) (10) states “In order to achieve the stated objectives of a consumer’s individual program plan, the regional center shall conduct activities including, but not limited to, all of the following”:

“Emergency and crisis intervention services, including, but not limited to, mental health services and behavior modification services, may be provided, as needed, to maintain persons with developmental disabilities in the living arrangement of their own choice. Crisis services shall first be provided without disrupting a person’s living arrangement. If crisis intervention services are unsuccessful, emergency housing shall be available in the person’s home community. If dislocation cannot be avoided, every effort shall be made to return the person to his or her living arrangement of choice, with all necessary supports, as soon as possible”.

Mobile Crisis Intervention Services Section provides information on the availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.

Funded Emergency Housing Options Section provides a description of each regional center’s funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and is physically accessible. All regional center’s have staff on call 24 hours per day to provide guidance in crisis situations.

Mobile Crisis Intervention Services

Vendor Name	Generic Service	Rate Paid
Alta California Regional Center		
Turning Point	No	\$2,346.85/mo. For wrap \$164.10 for med management
Nevada Co. Mental Health	Yes	MediCal/MediCare

Sutter/Yuba County Mental Health	Yes	MediCal/MediCare
CBEM, Inc.*	No	\$77,785.27/mo./ 800 hours
<p>ACRC has staff on call for 24 hours per day to provide assistance with crisis situations. In addition to line staff, ACRC also maintains 24 hour coverage by supervisors for crisis situations. This contact may result in referral to one of the services listed above or the other services within this report. The staff are able to authorize utilization of outreach, assessment, additional support, or placement /housing services as needed to prevent a more restricted environment. Referrals may also be made in order to attempt and intervention that protects the consumer or others from the consumer as appropriate.</p> <p>*By way of background, CBEM, LLC – Specialized Critical Intervention Services is a resource that was developed in response to an unmet service need in both the ACRC and Golden Gate Regional Center (GGRC) catchment areas. These centers report having been plagued by a lack of qualified personnel and services to meet the needs of their consumers in crisis situations. Their respective local community resources (hospitals, mental health facilities, emergency response teams, etc.) have experienced substantial cutbacks recently but even in better times the centers found them unable to adequately meet the needs of regional center consumers. The goal of each center’s respective contract with CBEM is to provide needed services/supports to consumers in crisis and accordingly decrease/eliminate disruption to a consumer’s living situation. The centers report that repeated crisis situations previously resulted in many regional center consumers relocating to more expensive living arrangements.</p> <p>Each regional center informed the Department that their contract with this provider includes a detailed set of deliverables and a negotiated rate based on the vendor’s cost statement. The level of education and training and experience of the CBEM staff is reportedly a factor in their rate. This resource is available 24/7. CBEM has staff that sign and speak a variety of languages in order to serve the respective communities/consumer populations of these centers. The contracts for this service specify a minimum number of monthly hours (800(ACRC)/700(GGRC)) of services to be provided and each center reports that delivered hours of service are carefully monitored and the center is able to adjust the rate, if necessary. Both GGRC and ACRC report that the hours of delivered service exceed the base amount specified in contract.</p>

Pacifica Hospital of the Valley	Yes	MediCal/MediCare or private insurance

NLACRC has staff on call 24 hours per day to provide guidance in crisis situations. During a mental health emergency, NLACRC staff may advise a consumer, family member, or service provider to contact one of the crisis teams listed above. 24-hour emergency on-call assistance and support services are provided for consumers who receive supported living, family home agency and foster family home services. Many independent living service providers have a 24-hour on-call system, by choice, although it is not a requirement. In addition, 1:1 behavioral support services may be authorized in an emergency situation when a consumer requires additional support in order to prevent a move to a more restrictive environment or to protect the consumer or others.

* In 2004 Access Telecommunication Center (L.A. County Department of Mental Health) assumed full responsibility for providing referral and linkage resources for the L.A. County Area for persons with a Mental Health diagnosis and who reside in an Adult Residential Facility. The Access Center is responsible for screening and dispatching all Crisis Response Team in the L.A. area for assessment and transport to area Mental Health hospitals when needed. All Adult Residential Facility (ARF) providers serving consumers receiving MediCal benefits and who have a Mental Health diagnosis must use the Access Center system when they are in need of a crisis response team.

NLACRC frequently utilizes residential vendors that have vacancies when there is a crisis situation and emergency housing is necessary. Additional staffing is provided through Program Support Services, if necessary, to meet the individual needs of the consumers. Independent Living providers have also been utilized to secure a motel room for a consumer, and then ILS services are funded to provide additional support.
