Spring 2020

Performance Report for Redwood Coast Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Redwood Coast Regional Center (RCRC) we served about 4,000 consumers. The charts on page two tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At RCRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did very well in the area of client living arrangements with fewer clients living in developmental centers, more children living with their families, more adults living in home settings, fewer children living in large facilities (0.0%), and fewer adults living in large facilities. National Core Indicator adult family survey data suggests that overall family members are satisfied with the services and supports their family member receives (85.5%) and among Native American and Hispanic/Latinos measures of satisfaction were higher (100%).

There are important areas where we need to improve our performance. In the area of employment, we were below state averages in most areas. We attribute this to the geography and economic characteristics of the large rural area we serve. We believe our employment initiatives will demonstrate progress in future years. Although we have made progress, we need to need to strengthen our performance in reducing disparities and improving equity across race and ethnicity of the clients we serve.

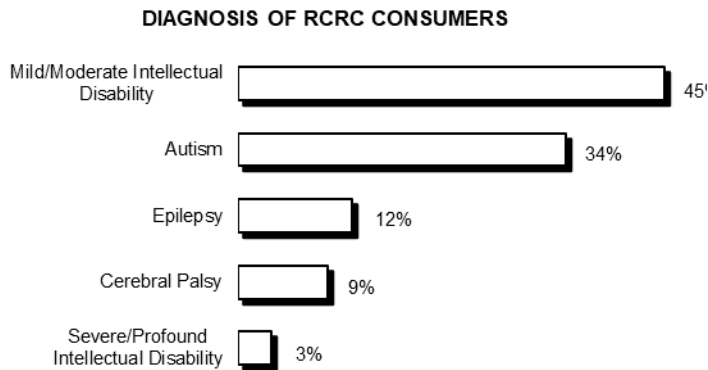

We hope this report helps you learn more about RCRC. If you have any questions or comments, please contact us!

Summary Performance Report for Redwood Coast Regional Center, Spring 2020

Who uses RCRC?

These charts tell you who RCRC consumers are and where they live.

How well is RCRC performing?

This chart tells you about five areas where DDS wants each regional center to keep improving every year.

The first column tells you how RCRC was doing at the end of 2018. And, the second column shows how RCRC was doing at the end of 2019.

To see how RCRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	December 2018		December 2019	
	State Average	RCRC	State Average	RCRC
Fewer consumers live in developmental centers	0.12%	0.05%	0.08%	0.07%
More children live with families	99.38%	99.46%	99.44%	99.55%
More adults live in home settings*	80.20%	92.31%	80.84%	92.33%
Fewer children live in large facilities (more than 6 people)	0.04%	0.00%	0.04%	0.00%
Fewer adults live in large facilities (more than 6 people)	2.31%	1.30%	2.15%	1.32%

Notes: 1) Consumers can be included in more than one diagnosis category. 2) Residence Types: CCF/ICF is Community Care Facility/Intermediate Care Facility; ILS/SLS is Independent Living Services/Supported Living Services. 3) Home settings include independent living, supported living, Adult Family Home Agency homes, and consumers' family homes. 4) Green text indicates the RC remained the same or improved from the previous year, red indicates the RC did not improve.

Did RCRC meet DDS standards?

Read below to see how well RCRC did in meeting DDS compliance standards:

Area Measured	Last Period	Current Period
Passes independent audit	Yes	Yes
Passes DDS audit	Yes	Yes
Audits vendors as required	Met	Met
Didn't overspend operations budget	Yes	Yes
Participates in the federal waiver	Yes	Yes
CDERs and ESRs are updated as required (CDER is the Client Development Evaluation Report and ESR is the Early Start Report. Both contain information about consumers, including diagnosis.)	91.66%	92.83%
Intake/Assessment timelines for consumers age 3 or older met	95.33%	98.95%
IPP (<i>Individual Program Plan</i>) requirements met	97.68%	N/A
IFSP (<i>Individualized Family Service Plan</i>) requirements met	85.9%	85.1%

Notes: 1) The federal waiver refers to the Medicaid Home and Community-Based Services Waiver program that allows California to offer services not otherwise available through the Medi-Cal program to serve people (including individuals with developmental disabilities) in their own homes and communities. 2) The CDER and ESR currency percentages were weighted based on the RC's Status 1 and Status 2 caseloads to arrive at a composite score. 3) The IFSP calculation methodology was changed from composite to average in order to more accurately reflect the RC's performance by only including children reviewed during monitoring and not all Early Start consumers. 4) N/A indicates that the regional center was not reviewed for the measure during the current period.

In most areas we met DDS standards. We passed our DDS and Independent audits, audited our vendors as required, participated in the Medicaid waiver, and improved our updating of CDERS and ESR reports. We made significant improvement in the areas of meeting DDS Compliance Standards in meeting Intake/Assessment timelines for clients age 3 or older. However, we did not meet compliance standards for Individual Family Service Plans. We intend to improve our performance in these areas by hiring more service coordinators and through improvements to staff training and monitoring.

How well is RCRC doing at getting consumers working?

The chart below shows how well RCRC is performing on increasing consumer employment performance compared to their prior performance and statewide average:

Areas Measured		Time Period

	\$1,250	21	11	39	18
	\$1,000	29	13	43	29

To obtain these statistics, DDS provided the EDD with client data, and the EDD matched that information to their database and returned individual-specific wage data including employment locations, business name and type. DDS then analyzed the data for accuracy and only reported to regional centers the information deemed most accurate.
