Executive Summary

The Department of Developmental Services (DDS), in collaboration with the Bay Area regional centers (Regional Center of the East Bay (RCEB), Golden Gate Regional Center (GGRC), San Andreas Regional Center (SARC)), consumers, families and other stakeholders, is nearing completion of a significant initiative grounded not only on the closing of Agnews Developmental Center (Agnews), but on the underlying principle that Agnews residents should be provided the opportunity to live in the community, with staff available to support the transition and stabilization of the residents. The closure process is unlike any prior endeavor and the innovative housing, staffing and service delivery models are providing phenomenal opportunities for consumers and families alike. This process has relied on establishment of a stable source of housing with new residential service options, a community health care system that assures access to needed services, and state staff who can support the transition of these residents to the community.

Together with other state, local and community partners, the DDS is in the final stages of safely transitioning Agnews residents to the community. The closure process is not being driven by a specific date for closure but rather a *rolling* closure process whereby individuals are transitioned to the community when the housing and support services are available. The health and safety of each consumer is the DDS' highest priority. Transition to the community occurs only when all necessary services and supports are in place.

As of April 30, 2008, 157 residents remained at Agnews. Between July 1, 2004 and April 30, 2008 a total of 198 Agnews residents transitioned to other living arrangements.

Housing: Bay Area Housing Plan (BAHP) funds have been used to purchase a broad array of housing options, including Senate Bill (SB) 962 homes, which are designed for consumers with specialized health care needs; family teaching homes (FTHs), which incorporate a consumer into a provider's family; and specialized residential homes (SRHs), which provide augmented staffing and professional services to consumers with behavioral challenges or other specialized needs. In conjunction with these efforts, regional centers have contracted for the provision of residential and support services in accordance with the Agnews Closure Plan. The providers have developed service strategies that address the unique needs of each consumer who transitions from Agnews to the community.

As of April 30, 2008, all 61 properties have been purchased and financed; 37 have been remodeled and either occupied or ready for occupancy; 6 are under construction; 13 are at the bank awaiting financing approval to move into construction; and 5 remain in the permitting phase. It is anticipated that the remaining homes will be completed shortly after June, 2008, and that the remaining consumers will be transitioned when supports and services are available.

Transition Planning: As of April 30, 2008, all Agnews residents had either selected homes or were in the process of finalizing home selection.

Health Care Services: The DDS continues to develop innovative and comprehensive health, behavioral and dental care services for residents transitioning out of Agnews. The foundation of the community medical services strategy is a partnership between the DDS, the Department of Health Care Services (DHCS), the Bay Area regional centers and the Santa Clara Family Health Plan (SCFHP), Alameda Alliance for Health (AAH), and the Health Plan of San Mateo (HPSM) (designated health plans). In February of 2008, the DDS and the DHCS completed a Memorandum of Understanding (MOU) to ensure appropriate and enduring health care services for former Agnews residents living in the community. In addition, the DDS distributed a document to former and current Agnews residents and their families, outlining the provision of health care services in the community. At the local level, the Bay Area regional centers and designated health plans continue to secure health care services for residents transitioning out of Agnews into the community through signed MOUs to assure access to comprehensive services for those consumers who elect to enroll. In December of 2007, the DHCS received approval from the federal Centers for Medicare and Medicaid Services (CMS) for its State Plan Amendment (SPA), effective July 1, 2007. The SPA describes how services are to be provided to specified former Agnews residents in Alameda and Santa Clara Counties. In January of 2008, the DHCS received approval for its waiver for the HPSM, which also describes how services are to be provided to specified former Agnews residents in the community.

Outpatient Clinic: The DDS is working with the DHCS to establish Agnews outpatient clinic as a community clinic (Agnews Community Clinic) after Agnews closes. The clinic will continue to provide a safety net to ensure that health, dental, and behavioral services are seamless during the transition process. Upon the closure of Agnews, the Agnews Community Clinic will continue to provide primary care and other specialty services, as necessary, until the DDS is no longer responsible for the property.

Behavioral Services: To address the behavioral support of residents transitioning to the community, Agnews staff support and train service providers on how to prevent and respond to challenging behaviors. Each of the regional centers and the designated health plans are identifying psychiatric resources to accommodate Agnews residents in the community. The Agnews Community Clinic will continue to provide mental health services to current and former Agnews residents, as necessary, and until the clinic no longer is in operation. In addition, the RCEB and Alameda County Mental Health Department are developing a secured-treatment facility in San Leandro that can serve individuals in crisis. The facility, which is expected to open in late 2008, will provide short-term treatment and stabilization available for up to 15 Bay Area residents at a time.

Dental Services: Dental services continue to be a critical component of community resource development efforts. The Bay Area regional centers contract with Pacific Center for Special Care at the University of the Pacific (UOP) School of Dentistry for dental screenings and teeth cleaning services. In partnership with UOP, the Bay Area regional centers will provide services through registered dental hygienists in homes where Agnews clients reside. Additionally, regional centers are supporting the training of dentists to provide prevention and care consistent with each consumer's needs. The Bay Area regional centers and the designated health plans are in the process of identifying and contracting with dental surgery suites to ensure timely and appropriate access to sedation dentistry services, as necessary.

Agnews Employees: Agnews continues to maintain sufficient staff to protect the health and safety of remaining residents and to ensure the ongoing certification of the facility. As of April 30, 2008, there were 822 employees at Agnews. On December 28, 2007, the Department of Personnel Administration notified all impacted Bargaining Units of intent to close Agnews on or about June 30, 2008, and on March 5, 2008, State Restriction of Appointment notices were sent to all employees except those employees assigned to warm shut down (facility closure process) and the Agnews Outpatient Clinic. Impact negotiations began in late January 2008, and focus on non-economic and economic proposals with unions that have identified an impact associated with the closure.

As of April 30, 2008, a total of 77 employees are participating in the community state staff program, with 41 employees currently working in assignments, and the remaining 36 waiting for report dates. In addition, 21 positions are currently being advertised for 5 providers, with 66 applications received.

Next Steps for Closure: The DDS will continue working closely with its state and local partners – both to ensure the health and safety of each resident in the transition process, and to provide access to the necessary services and supports, in accordance with the consumer's needs and preferences

Introduction

The population of California's developmental centers has decreased over time, mirroring national trends. In the case of California, this decrease in the use of institutions began when the community-based system was initiated in 1969 under the newly established Lanterman Mental Retardation Services Act, now called the Lanterman Developmental Disabilities Services Act (Lanterman Act). The Lanterman Act promotes the provision of services in the least restrictive environment and emphasizes community settings as the preferred living option for most consumers. The total developmental center population declined dramatically as the community system expanded, falling from a high of 13,355 individuals in 1968 to the census of approximately 2,589 individuals by April 30, 2008. The DDS currently operates five developmental centers and two smaller state-operated community facilities and is in the process of closing Agnews Developmental Center (Agnews). As of April 30, 2008, the Agnews Developmental Center population census was at 157 individuals.

In January of 1994, the Department of Developmental Services (DDS) entered into an agreement to settle the Coffelt lawsuit, which alleged that the DDS and several regional centers had not taken sufficient action to develop community-based services thereby denying developmental center residents the opportunity to live in the community. The implementation of this agreement resulted in a reduction of the developmental centers' population by more than 2,320 consumers between 1993 and 1998. This was accomplished by creating new community living arrangements, developing new assessment and individual service planning procedures and quality assurance systems, and obtaining increased federal funding through the Medicaid Home and Community-Based Services Waiver.

In 1999, the United States Supreme Court issued its ruling in *Olmstead, Commissioner, Georgia Department of Human Resources, et al. vs. L. C., by Zimring, Guardian ad Litem and next friend, et al.* (1999), 527 U.S. 581. This decision stated that services should be provided in community settings when treatment professionals have determined that community placement is appropriate; when the consumer does not object to community placement; and when the placement can reasonably be accommodated considering the resources available to the state and the needs of others with disabilities. Since that decision, the federal Department of Health and Human Services, Center for Medicare and Medicaid Services (CMS), has issued recommendations to the states requiring them to prepare comprehensive Olmstead plans to decrease dependency on institutional services.

The Agnews Closure Plan is the first significant deinstitutionalization initiative in California since the Coffelt settlement agreement that was reached in January 1994. The plan is grounded in the development of sufficient community capacity to support the transition of Agnews residents into the community. New service and support options have been designed to provide meaningful choices and reliable services to residents transitioning to the community. The Administration extended the Agnews closure date

from June 30, 2007, to June 30, 2008, to ensure that these necessary resources are in place at the time of closure.

Purpose of the Report

This report is submitted in accordance with the Budget Act of 2007 (SB 77, Chapter 171, Statutes of 2007), as follows:

“The State Department of Developmental Services shall provide the fiscal and policy committees of both houses of the Legislature with a comprehensive status update on the Agnews Plan, on January 10, 2008, and May 15, 2008, which will include at a minimum all of the following:

A description and progress report on all pertinent aspects of the community-based resources development, including the status of the Agnews transition placement plan;

An aggregate update on the consumers living at Agnews and consumers who have been transitioned to other living arrangements, including a description of the living arrangements (model being used) and the range of services the consumers receive;

An update to the Major Implementation Steps and Timelines; a comprehensive update to the fiscal analyses as provided in the original plan;

An update to the plan regarding Agnews’ employees, including employees who are providing medical services to consumers on an outpatient basis, as well as employees who are providing services to consumers in residential settings; and

Specific measures the state, including the State Department of Developmental Services and the State Department of Health Care Services, is taking in meeting the health, mental health, medical, dental, and overall well-being of consumers living in the community and those residing at Agnews until appropriately transitioned in accordance with the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code).”

The purpose of this report is to provide an update on the status of the Plan for the Closure of Agnews Developmental Center. This is the sixth statutorily required update and covers progress from November 30, 2007, through April 30, 2008. The prior reports provided updates on progress from July 1, 2004, through November 30, 2007, and are available at www.dds.ca.gov/AgnewsClosure.

Background

The planning process for the closure of Agnews began in Fiscal Year 2003 – 2004. The DDS solicited broad participation from internal and external stakeholders including consumers, family members, Area Boards, advocates, and community providers to develop a plan that would result in an orderly transition of consumers into alternative services and supports. In October of 2003, the teams completed their recommendations and reports that served as the basis for the plan.

The Bay Area regional centers (San Andreas Regional Center (SARC), RCEB, Golden Gate Regional Center (GGRC)), and Agnews staff played a significant role in developing the plan. After several public meetings in Fiscal Year 2003 – 2004, the plan was submitted to the Legislature in January 2005 and approved with the enactment of the Budget Act of 2005.

The following legislation supports the implementation of the critical elements of the plan:

- ❖ Assembly Bill (AB) 2100 (Chapter 831, Statutes 2004), and SB 643 (Chapter 551, Statutes of 2005), supported the development of permanent housing through the BAHP, and added family teaching homes (FTHs) as a new service delivery option.
- ❖ In January 2006, SB 962 (Chapter 558, Statutes of 2005) established a pilot project for the creation of homes licensed by the Community Care Licensing (CCL) division of the Department of Social Services (DSS) to serve adults with special health care needs in the Bay Area.
- ❖ AB 1378 (Chapter 538, Statutes of 2005) authorized Agnews' employees to work in the community to support the transition of Agnews' residents into community living options.

Resource Development: Housing

Bay Area Housing Plan

AB 2100 (Chapter 831, Statutes of 2004) authorized the DDS to approve a proposal, or proposals, from the Bay Area regional centers to provide for, secure, and assure the payment of leases for housing for people with developmental disabilities. SB 643 (Chapter 551, Statutes of 2005) further amended this section to clarify the regional centers' ability to assure full payment of a housing lease based upon availability of the house for occupancy.

In conformance with the statutory requirements, the BAHP details the proposed plan for development and ownership of the properties, management entities, and developer. As required by statute, the BAHP must meet several conditions. The acquired or developed real property must be occupied by consumers eligible for regional center

services. The property must be integrated with housing for people without disabilities. The regional center must approve the proposed ownership, management, and developer entities, and the costs associated with the proposal must be reasonable. The proposal must include a plan for transfer at a time certain of the property ownership to an approved non-profit entity for use by consumers eligible for regional center services.

The BAHP is a joint venture between the Bay Area regional centers and Hallmark Community Services (Hallmark), the housing developer. Under a proposal approved by the DDS and submitted to the Joint Legislative Budget Committee, the Bay Area regional centers and Hallmark have entered into loan agreements with Bank of America and California Housing Finance Agency (CalHFA). The DDS is not party to these loan agreements and, therefore, does not have direct control over acquisition or construction of the homes.

Under the BAHP, the Bay Area regional centers contract with a developer to acquire, design, and develop housing for persons leaving Agnews. The property is owned by a non-profit entity, selected by the regional center, for dedicated use by regional center consumers. In this arrangement, once the housing mortgage is paid in full, the provider's lease payment ceases. An inventory of stable community housing designed to meet the unique needs of individuals with developmental disabilities is thereby created, and the rate paid to the provider is reduced accordingly. Through this arrangement, the property is bought once, the residential service rate decreases, and long-term cost savings are realized by the state.

BAHP funds have been used to purchase a broad array of housing options, including 962 homes, which are designed for consumers with specialized health care needs, FTHs which incorporate a consumer into a family, and specialized residential homes (SRHs) which provide 24-hour, on-site staffing in order to meet consumers' unique needs.

In addition, Bay Area regional centers have contracted for the provision of residential and support services in accordance with the Agnews Closure Plan. The providers have developed service strategies that address the unique needs of the consumers who are transitioning from Agnews to the community.

As of April 30, 2008, all 61 properties have been purchased and financed; 37 have been remodeled and either occupied or ready for occupancy; 6 are under construction; 13 are at the bank awaiting financing approval to move into construction; and 5 remain in the permitting phase. It is anticipated that the remaining homes will be completed shortly after June, 2008, and that the remaining consumers will be transitioned when supports and services are available.

Family Teaching Homes

AB 2100 added FTHs to the existing Adult Family Home Agency (AFHA) model. The AFHA was first established in 1994 to provide a cost-effective option for adults moving from developmental centers into the community enabling adults to enter into partnerships with families as fully participating family members. Under this arrangement, the teaching family manages the consumers' home, provides direct support, and directly supervises relief staff. The FTH model serves up to three adults in the consumers' home, with the teaching family living in an adjoining home. In the Bay Area, this has been accomplished by housing consumers and teaching families in adjoining duplexes and adding a door to connect the homes. The FTH model is certified, monitored, and evaluated by the regional center and the DDS through the same process as an AFHA. The FTH regulations were promulgated on November 7, 2006. As of April 30, 2008, 25 former Agnews consumers reside in 9 BAHP FTHs located in the SARC catchment area.

Extended Family Teaching Homes

Agnews consumers and Agnews staff have expressed an interest in continuing to provide support services to Agnews consumers upon transition to the community. In an extended family teaching home (EFTH), a consumer relocates to a former Agnews staff family home and participates in daily family activities as an extended member of the family. Each consumer receives specialized, highly-supported and well-monitored services. EFTHs are also governed by the AFHA regulations, certification, and review process. As of April 30, 2008, five former residents of Agnews reside in EFTHs in the SARC catchment area.

Specialized Residential Homes

As DSS-licensed adult residential facilities, SRHs provide augmented staffing and professional services to three or four residents. Each SRH provides 24-hour, on-site staff with specialized expertise to meet the consumers various needs. In addition, the homes have the capability for on-site response to meet scheduled or unpredictable needs in a way that promotes maximum dignity and independence. As of April 30, 2008, 17 consumers resided in BAHP SRHs. When the majority of consumers turn age 60, the SRH will be re-licensed as a residential care facility for the elderly (RCFE). All SRHs in the BAHP have been constructed or renovated to meet the physical plant requirements for both the SRH and the RCFE licenses.

962 Homes

SB 962 authorized the DDS and the DSS to jointly establish and administer a pilot project for certifying and licensing a new residential model, the adult residential facilities for consumers with special health care needs, referred to as "962 homes". This type of residence fills a critical gap in licensure categories for people with developmental

disabilities who have a combination of specialized health care and intensive support needs.

Examples of the health services that can be provided in a 962 home include, but are not limited to, nutritional support including total parenteral nutrition, gastrostomy feeding and hydration, renal dialysis, special medication regimes including injections, intravenous medications, management of insulin dependent diabetes, catheterization, indwelling urinary catheter management, pain management, and palliative care. The 962 homes are required to provide licensed staff 24 hours per day, develop an individual health care plan for each consumer that is updated at least every six months, and conduct monthly face-to-face visits with the consumer by a regional center nurse. As of April 30, 2008, four 962 BAHF homes provide services to 18 former Agnews residents.

Additionally, an interagency agreement has been completed with the University of California (UC) Davis, and an independent evaluation of the 962 home pilot project is underway, pursuant to statute.

Residential Service Providers

New Service Providers: Fiscal year 2007-08 brought a new service provider to the mix of providers involved in community services for people moving from Agnews. Vast Horizons was established by Agnews families as a provider organization serving Agnews residents transitioning in the community. Elwyn is an organization that provides services and supports to people with developmental disabilities in home and community settings in California, New Jersey, Delaware and Pennsylvania. Elwyn came to the attention of those involved in the Agnews closure when a number of Agnews parents traveled to Pennsylvania and were pleased with the quality of services provided by Elwyn of Pennsylvania. Vast Horizons teamed up with Elwyn as a consultant in the organization's residential and vendor applications. The consultation provided was important to Vast Horizons but it also opened the door for Elwyn to express an interest in being an active partner in the direct provision of services. As a result, Elwyn of Northern California (Elwyn NC) will be operating seven homes in the SARC and RCEB catchment areas. Vast Horizons will be operating four homes in the SARC area. Agnews Families have met with Elwyn NC and have expressed satisfaction with the experience and knowledge Elwyn NC brings as the provider.

Recruitment Challenges: It has taken longer than anticipated to recruit nurse administrators and direct care staff for the BAHF homes, which has contributed to a delay in consumer placement. The DDS continues to work with the regional centers and housing providers to recruit and train providers for BAHF homes.

Addressing the Housing Challenges

While the BAHF has succeeded in acquiring all of the 61 homes that will provide for the housing needs for residents transitioning out of Agnews, the BAHF team has encountered hurdles throughout the housing development process. The DDS continues

to work closely with Hallmark and the Bay Area regional centers to address issues impacting the timely completion of the project.

The housing acquisition process has gone slower than anticipated. Initially, the development of the unique financing arrangement delayed purchases. Under the BAHP, Hallmark secures loans from the Bank of America to acquire and remodel the homes. When the properties are ready for occupancy, the deed transfers to the nonprofit housing corporation associated with the respective regional center and CalHFA provides permanent financing through state bonds. Obtaining permits in 19 separate jurisdictions has been the single greatest hurdle to finishing construction.

The DDS and the Bay Area regional centers have dedicated resources to address lender and local government concerns, ensure work is properly completed prior to transfer of the home from Hallmark to the nonprofit, and to facilitate state licensure. At the direction of the Bay Area regional centers, Hallmark has added contractors, pre-ordered building materials, and augmented on-site supervision of construction. The DDS conducts weekly meetings with the Bay Area regional centers and the developer to identify and address any permit or inspection delays involving county, city, fire or utility jurisdiction.

While it is critical that construction of the remaining homes be completed in a timely manner, no person will move from Agnews until the housing, services, and supports are available in the community. The DDS will remain closely involved with the Bay Area regional centers and Hallmark through the successful completion of the project.

Resource Development: Transition Planning Process

Transition Planning: Values and Purpose

The transition process from a developmental center to a community living arrangement is developed through an individual placement plan (IPP) process. The IPP meeting offers a consumer-centered approach to identifying the services and supports necessary for a successful transition, taking into account the consumer's needs and preferences. The choices of consumers are given the full attention and respect of all team members, in consultation with the families, where appropriate, and/or authorized representatives, with sensitivity to lifestyle and cultural background.

In the fall of 2007, transition guidelines were formalized and shared with all stakeholders including family members, staff members, regional centers and interested parties. These guidelines establish the framework for the residents' transition to the community. Agnews and regional center staff have held joint trainings in implementing these guidelines.

Consumer Empowerment

To assist Agnews residents in the transition process, the DDS created the Choices Project in August 2006. The Choices Project focuses on empowering consumers to engage in the decision-making process of transition planning. The Choices team meets with consumers prior to the consumer's annual IPP meeting. The meetings offer an opportunity to review the current IPP with the consumer and to explore potential living options and community activities, as featured in a 10-minute DVD. Agnews residents are provided materials adapted to support their active participation in the IPP and transition discussions.

Since August 2006, 196 consumers participated in Choices meetings, often with the involvement of family members, advocates and Agnews staff. The meetings were completed in January 2008.

Exploring Community Living Options

Together with the regional center service coordinator, the Agnews staff engages a consumer, his or her family and an authorized representative, when appropriate, in an educational discussion regarding various housing and service and support models. This discussion centers on the consumer's needs and preferences identified through comprehensive interdisciplinary team assessments. Agnews staff identify interests of the participants in exploring certain models. In addition, staff of each regional center meet with the families throughout the transition process and have arranged various functions including monthly family teas, home tours and provider/family meetings. All of these events provide families the opportunity to raise issues and discuss the transition process.

Community Living Options

The community living options (CLO) process focuses on identifying a range of services and supports necessary for successful transition. Through this process, potential living options are explored, and a transition plan is developed.

Selection of the Home and Exploratory Visits: The Agnews resident, legal/authorized representatives and regional center work together on the selection of the home. Once a potential home option has been identified, exploratory visits between the resident and the provider begin. As of April 30, 2008, all Agnews residents had either selected homes and were in the process of exploratory visits or were in the process of finalizing home selection.

Finalizing the Transition to the Community

Prior to transition, a meeting is held to prepare for the transition. As authorized by statute, the Regional Resource Development Project (RRDP) assists in activities related to admissions, transition planning, deflection and resource development. Parties at the

meeting include the consumer, family member/advocate, a representative from the RRDP, a regional center service coordinator, the service provider, and a representative from the planning team at the developmental center and future placement to assure that all issues have been addressed; and, the consumer is prepared to move.

Post Placement Follow-up

Once the consumer has moved into his or her new home, post-placement visits occur on a regular and as-needed basis by the regional center representative and the RRDP. These visits help to ensure a smooth and successful transition into the community. Within 30 days of transfer, a follow-up meeting is held to review the new assessment information, identify any additional services needed, and to develop the IPP for the coming year. In all community placements, the regional center conducts a face-to-face visit every 30 days for the first 90 days after the move, quarterly thereafter, and an annual facility monitoring visit. For consumers in community residential homes, at least two of the regional center visits per year must be unannounced. The RRDP makes contact with the consumer five days after placement and again at 30-60-90 day intervals, 6 and 12 months, and more often as needed. For consumers placed in 962 homes, a regional center nurse will visit the consumer at least monthly, and a physician will see the consumer every 60 days.

Resource Development: Health Services

The DDS continues to develop innovative and comprehensive health care, behavioral and dental care services for residents transitioning out of Agnews. Together, the DDS and the Department of Health Care Services (DHCS) have created a framework for the development and delivery of health services.

The Transition of Health Care Services

To ensure that each consumer who transitions from Agnews receives appropriate health care and related services, a comprehensive health transition plan is developed for each consumer before they leave Agnews. In February 2008, the DDS distributed a document entitled, "*Health Services for Agnews Consumers in the Community: An Overview*" to former and current Agnews residents and their families, outlining the provision of health care services in the community. The document is available on the DDS website.

Health Care Service Delivery Systems

Depending on the county of residence and eligibility for Medi-Cal and Medicare, there are various service delivery systems that provide health care services to consumers transitioning from Agnews into the community. The regional center assists the consumer and their representative in evaluating the options, coordinating and facilitating eligibility, and, when indicated, enrolling in a managed care health plan.

Options for consumers who are not eligible for Medi-Cal or Medicare: There are a few consumers who are not eligible for either Medi-Cal or Medicare. The regional center works with these consumers in developing the individual health transition plan (IHTP), in order to assure that the consumer can access to the necessary health services and supports in the community.

Options for consumers enrolled in Medi-Cal: Depending on the county of residence, consumers who are Medi-Cal eligible have specific health care service options. In San Mateo County, Agnews consumers transition into the HPSM, a county organized health system (COHS). As a COHS, San Mateo operates the only Medi-Cal health plan in the county. The COHS are different from the other models of Medi-Cal managed care because the DHCS requires nearly all Medi-Cal beneficiaries residing in the county to enroll in this health plan to receive care.

In Santa Clara and Alameda Counties, Agnews consumers have the option to enroll in either the locally-administered Medi-Cal managed care plan (SCFHP) or (AAH), a commercial Medi-Cal health care plan (Blue Cross), or receive services through the fee-for service system often referred to as “regular Medi-Cal”. Therefore, the RCEB and SARC consumers have the option of staying in the Medi-Cal fee-for-service system or enrolling in one of the Medi-Cal managed health care plans, which are discussed below. For the consumers who opt to receive services through the fee-for-service system, the regional center service coordinator will assist in coordinating access to health care services in the community, as outlined in the IHTP.

Options for Consumers Enrolled in Medi-Cal and Medicare: Consumers who are eligible for both Medi-Cal and Medicare are offered the same Medi-Cal health care options outlined previously, and also have the option of enrolling into a “Medicare Advantage/Special Needs Plan (MA/SNP).” The MA/SNP is a federal Medicare option that allows Health Plans to target a specific segment of the Medicare population, including those who are eligible for both Medicare and Medicaid. The Medi-Cal managed care plans that are also SNPs are able to provide a comprehensive service strategy that integrates Medicare and Medi-Cal benefits, thereby providing a seamless service delivery system. The health plan reviews this option with eligible consumers and their representatives and assists them in making decisions regarding enrollment.

Health Plan Medical Services

The designated managed care health plans, SCFHP for SARC consumers, AAH for RCEB consumers and HPSM for GGRC consumers, have established a partnership with the Bay Area regional centers, the DDS, and the DHCS to arrange for medical and specialized health care services for Agnews consumers who elect to enroll in these plans. When a person elects to enroll in a designated managed care health plan (Health Plan), available services include but are not limited to:

- Access to qualified providers. The Health Plan will arrange for an array of medical service providers that include primary care and specialty physicians,

optometry and ophthalmology services, medications, support services such as occupational and physical therapies, and medical equipment and supplies including adaptive equipment.

- Comprehensive Medical Care Management. A registered nurse will be assigned to each consumer to coordinate individualized health services and assure that the consumer receives specialty services identified as medically necessary by the primary care physician.
- Coordination with the regional center and other health service providers.

In December of 2007, the DHCS received approval from the CMS for its State Plan Amendment (SPA), effective July 1, 2007. The SPA describes how services are to be provided to specified former Agnews residents in Alameda and Santa Clara Counties. In January of 2008, the DHCS received approval for its waiver for the HPSM, which also describes how services are to be provided to specified former Agnews residents in the community.

Health Plan Enrollment: Each of the Bay Area regional centers has a health transition specialist who is responsible for assisting consumers and families with understanding health care service delivery options as well as expediting the eligibility and enrollment process. The regional center provides information regarding health plan options, and, when appropriate, the designated health plan assists the consumer with enrollment in additional programs such as an MA/SNP. In January and February 2008, the DDS representatives met with families, regional center representatives, health plan representatives and physicians to provide an overview to the health plan enrollment process.

The DHCS/Health Plan/Regional Center Coordination: The foundation of the community medical services strategy is a partnership between the DDS, the DHCS, the Bay Area regional centers, and the designated health plans. In February 2008, the DDS and the DHCS finalized a Memorandum of Understanding (MOU) which establishes protocols to share information for rate development, strategic planning, and the health plan enrollment process. At the local level, regional centers and designated health plans continue to secure health care services for residents transitioning out of Agnews into the community. The designated health plans and the Bay Area regional centers developed and signed MOUs to assure access to comprehensive services for those consumers who elect to enroll. Each of the regional center/health plan MOUs outlines the roles and responsibilities of the health plans, the regional centers and the residential service providers. The designated health plans continue to partner with the Bay Area regional centers, the DHCS, and the DDS to recruit and train qualified medical providers so consumers can access the full array of necessary medical services. Health plans also are conducting informational outreach to area providers on serving these individuals.

The Bay Area regional centers, the designated health plans, and Agnews staff continue to work with the DDS and the DHCS to expedite eligibility for membership in health plans, when indicated. The DHCS is working with counties and the Social Security

Administration to expedite the processing of eligibility information. The DHCS has established a process with Maximus, the contractor that assists in the election process, to assure that health plan election decisions are processed in a timely manner.

Provider rates: The DHCS has amended its contracts with the designated health plans to provide for cost reimbursement to the plans for services and administrative costs. This enables the health plans to establish enhanced provider rates. The DHCS has established interim payments to assure cash flow to the health plans until there is a semi-annual reconciliation to actual costs. This financial arrangement between the DHCS and its contracted health plans will continue until there is sufficient data available to permit development of a capitation rate and elimination of the interim payments and semi-annual reconciliation.

Outpatient Clinic

Agnews established an outpatient clinic as part of its acute care hospital license on May 1, 2006. The outpatient clinic was added as an additional service under Agnews' General Acute Care Hospital (GACH) license to provide outpatient medical and dental services. The GACH license is administered by the Department of Public Health.

The outpatient clinic assists in the transition of Agnews residents, provides a safety net to ensure access to health, dental and behavioral services, and is a resource to persons with developmental disabilities who reside in the community. The regional center may refer former Agnews residents to the clinic as well as other consumers who live in the community and who qualify for outpatient services. At the clinic, consumers can access specialists experienced in providing services to individuals with developmental disabilities.

The DDS, working with the DHCS, is finalizing efforts to establish the Agnews outpatient clinic as a community clinic (Agnews Community Clinic) after Agnews closes. The clinic will continue to provide a safety net to ensure that health, dental, and behavioral services are seamless during the transition process. Upon the closure of Agnews, the Agnews Community Clinic will continue to provide primary care and other specialty services, as necessary, until the DDS is no longer responsible for the property.

Outpatient Clinic Use

MONTHS 2008	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	TOTAL

Total # of Clients Seen	92	86	97	101								

Mobile Services: Crisis Intervention and Behavioral Support

During the spring of 2007, the DDS began researching the viability of mobile health care services to help meet the needs of consumers transitioning from Agnews. Meetings were arranged with established mobile clinic providers of health care and oral health services and with the Mobile Health Clinics Network to better understand the service model. Further research was conducted into the cost estimates, vehicle specifications, and custom design needs to meet accessibility standards for mobile services. This research served as the foundation for discussions with the designated health plans and Bay Area regional centers to further explore mobile service viability and needs.

The DDS has met with the Bay Area regional centers, consumer and family stakeholders, as well as representatives from the local health plans to identify any potential gaps in health related services for individuals transitioning from Agnews. The DDS will soon finalize plans for mobile services based on existing needs and an optimal service delivery model. It is anticipated that the mobile services will include crisis intervention and behavioral support.

Dental Services

Dental services continue to be a critical component of community resource development efforts. Prevention is the emphasis of the dental service strategy. Before residents transition into the community, regional center dental coordinators complete a comprehensive individualized assessment of the dental status and needs of each consumer. The regional centers recruit dental hygienists to provide ongoing dental screenings and cleanings for consumers in their own homes. Additionally, regional centers recruit and support the training of dentists to provide prevention and care consistent with each consumer's needs.

Prevention Services: The Bay Area regional centers contract with Pacific Center for Special Care at the University of the Pacific (UOP) School of Dentistry for dental screenings and teeth cleaning services. In partnership with UOP, the Bay Area regional centers will provide services through registered dental hygienists in homes where Agnews clients reside.

Sedation Dentistry: Many consumers transitioning from Agnews require sedation dentistry. The Bay Area regional centers and the designated health plans are coordinating services to assure timely and appropriate access to these services, as necessary. The designated health plans are identifying community resources that will provide sedation dentistry through outpatient surgeries, and the Bay Area regional centers are identifying the qualified dentists.

Behavioral Services

Many current and former Agnews residents have behavioral challenges. To assist Agnews residents in the transition process, Agnews staff support and train service

providers on how to prevent and how to respond to challenging behaviors and are available to assist in the community when a consumer's health, safety, and/or placement may be at risk.

Psychiatric services and reviews of medications are available through the Agnews outpatient clinic. Further, each of the Bay Area regional centers has developed a working relationship with psychiatric resources in the community to accommodate Agnews residents. SARC, for example, utilizes psychiatric services at Loma Linda University and the UC Irvine, through a telemedicine system. In addition, the Hope Counseling Center provides psychiatric services to Santa Clara County consumers through a contract with the County Mental Health Department. The DDS will continue to support regional center efforts to expand partnerships with county mental health departments in order to improve access to behavioral services for consumers with mental health needs.

In addition, the Bay Area regional centers and Alameda County Mental Health Department are in the process of developing a secured-treatment facility in San Leandro that can serve former Agnews residents. The facility will provide short-term treatment and stabilization available for up to 15 Bay Area residents at a time. The facility is expected to open in late 2008. Additionally, Redwood Place, a 34-bed intensive treatment program, provides residential options for eligible Agnews consumers as well as consumers from RCEB, GGRC and North Bay Regional Center (NBRC) who require crisis stabilization at a setting away from the home. The facility has a delayed egress arrangement but is not locked.

Quality Management

Overview of the Quality Management System

Ensuring the safety and well-being of consumers who move from Agnews into the community is an essential component to the Agnews Closure Plan. The Bay Area Quality Management System (QMS) broad-based research design was refined from the DDS QMS system and approved by numerous stakeholders, including the CMS Grants Advisory Stakeholder Committee.

The Bay Area QMS is based on values set forth in the Agnews Closure Plan and described in the DDS Strategic Plan. A three-year federal System Change Quality Assurance/Quality Improvement Grant was completed in September of 2006, and served as the basis for developing the QMS model. Data has been collected since April 2007. Specifically, the Bay Area QMS seeks to:

- ❖ Keep consumers safe and ensure their well being;
- ❖ Support value-based outcomes for providers and consumers;
- ❖ Identify and fill gaps in the community system;
- ❖ Develop and pilot a QMS with potential for statewide implementation; and,
- ❖ Meet CMS expectations.

An 11-member QMS Commission including advocates, family members and consumers is responsible for reviewing trend data. The commission makes recommendations to the DDS concerning quality of care and systems improvement. The commission has held six meetings since September 2005. During the April 2008 meeting, Commissioners received an update on the Unified Plan activities, discussed improvement activities in Unified Plan homes, reviewed trends in the QMS tool data over the past year, received updates from QMS specialists regarding efforts with providers in the homes, and provided recommendations regarding ongoing QMS activities.

National Core Indicator Studies

The National Core Indicator (NCI) Surveys are a national initiative currently utilized by 26 states and four regional centers in California. The goal of the NCI is to develop a systematic approach to performance and outcome measurement. Through the NCI, participating states create performance monitoring systems, identify common performance indicators, develop comparable data collection strategies, and share results. Many of the state agencies use NCI as a key component within their quality management systems.

Former Agnews residents who have transitioned into the community between from July 2003 through March 2005, and their families were surveyed separately using the NCI Surveys. A copy of this report is available on the DDS website at www.dds.ca.gov/AgnewsClosure/docs/BayAreaQMS_SurveyResults.pdf.

Quality Service Review

The QMS includes a provider performance expectation and quality improvement tool, referred to as the Quality Services Review (QSR). The QSR focuses on individual outcomes which are measured using monitoring tools.

Over 1,200 QMS/QSR Unified Plan home visits have been conducted since April 2007. These visits have been recorded on QSR tools by regional center professionals including service coordinators, registered nurses and behavior plan analysts and also by visitors – family members and friends of the individuals who live in the homes. By using the QSR tools on these visits, over 32,000 questions and observations about service quality and the home environment have been recorded in the database. This data is used at the consumer, provider and regional center levels to inform quality improvement efforts.

Quality Snapshot

The Quality Snapshot survey is designed to obtain feedback from families and other visitors to residential homes. The snapshots provide information about a visitor's perspective on the home environment and staff, as well as the consumer's well being,

and are mailed directly to the QMS Specialists at each regional center. Quality Snapshot surveys have been distributed to all homes that are part of the full QMS/QSR certification process. Data from returned surveys is being reviewed, utilized, and entered into the Quality Management Information System. In addition to addressing any requests or follow up activities generated by the Snapshots, QMS Specialists use Snapshot data as part of their intensive work on the Provider Expectations in the Unified Plan homes.

Agnews Residents

Current Agnews Residents

As of April 30, 2008, 157 residents remained at Agnews.

Levels of Care

Agnews provides three levels of care to people who reside at the facility. The first level of care is provided in the Nursing Facility (NF) residences in which approximately 52 percent of Agnews residents live. The second level of care is provided in the Intermediate Care Facility (ICF) residences, which are home to the remaining 48 percent of residents. Both the NF residences and the ICF residences provide 24-hour residential services. The third level of care is General Acute Care where short-term medical and nursing care is provided to residents to address an acute illness or injury requiring that level of care.

Regional Center Affiliation

Approximately 52 percent of current Agnews residents are affiliated with the SARC, 24 percent are affiliated with the RCEB, 22 percent are affiliated with the GGRC, and 2 percent are affiliated with Alta California Regional Center (ACRC).

Age of Agnews Residents

As of April 30, 2008, 72 percent of the residents are over age 40. People who are 65 years or older comprise 12 percent of the population. In contrast, 3 percent of the residents are 21 years or younger.

Years of Residency at Agnews

75 percent of the current residents have lived at Agnews over 20 years. 17 percent have resided at Agnews for 11 to 20 years. 8 percent have resided at Agnews for 10 years or less.

Gender of Agnews Residents

61 percent of the residents are male, and 39 percent are female.

Level of Mental Retardation

56 percent of the current Agnews' residents have profound mental retardation, 19 percent have severe mental retardation, 21 percent have moderate mental retardation, and 4 percent have mild mental retardation.

Service Needs of Residents:

Agnews residents have the following four primary service needs:

- **Significant health and extensive personal care needs:** This category includes people who require assisted breathing technology, inhalation assistive devices, or tracheotomy care; have recurrent pneumonias or apnea; and are non-ambulatory, requiring total assistance and care, and/or receive enteral (tube) feeding. Significant nursing intervention and monitoring are required to effectively support these consumers. 46 percent of the residents have significant health and extensive personal care needs.
- **Significant behavioral support:** This category describes consumers who have significant aggression issues that may require intervention for the safety of themselves or others. Approximately 32 percent of the residents are consumers needing significant behavioral support.
- **Protection and safety needs:** This category includes consumers who need a highly structured setting because of a lack of safety awareness, a pattern of self-abusive behaviors and/or inappropriate expression of social behavior. These consumers require constant supervision and ongoing intervention to prevent self-injury and/or stigmatization. 22 percent of Agnews residents require this type of structure and service need.
- **Low structured setting needs:** This service need includes residents who require minimal supervision and support, comprising one percent of the Agnews residents.

Agnews Consumers Who Have Transitioned Into the Community

Between July 1, 2004 and April 30, 2008 a total of 198 Agnews residents transitioned to other living arrangements.

Level of Care of Consumers Who Have Transitioned Into the Community

Of the consumers who transitioned to community living arrangements between July 1, 2004 and April 30, 2008, 75 percent had been served in the ICF residences and 25 percent had been served in NF residences while at Agnews.

Regional Center Affiliation of Consumers Transitioned to Community

Approximately 61 percent of the consumers transitioning to the community between July 1, 2004, and April 30, 2008, were affiliated with SARC, 13 percent were affiliated with GGRC, 16 percent were affiliated with RCEB, 10 percent were affiliated with Far Northern Regional Center (FNRC), Valley Mountain Regional Center (VMRC), Frank D. Lanterman Regional Center (FDLRC), or ACRC.

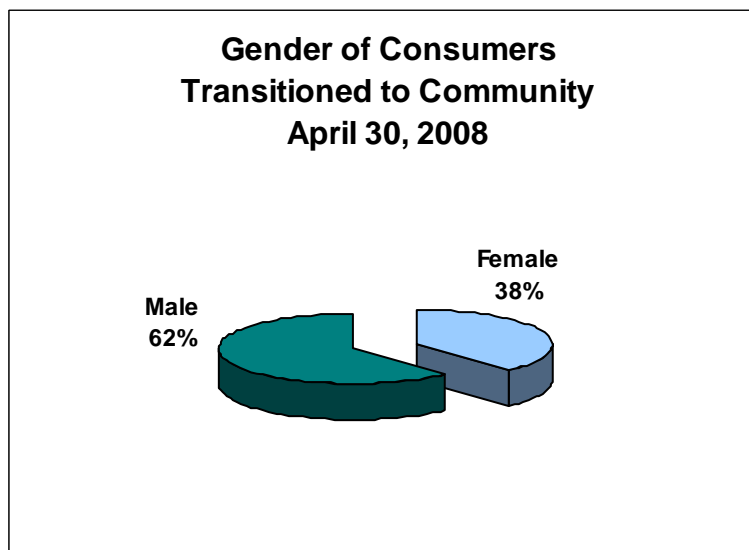

Age of Consumers Who Have Transitioned into the Community

Of the consumers transitioned to the community between July 1, 2004, and April 30, 2008, 47 percent were 51 to 70 years of age at the time of transition from Agnews, 44 percent were 31 to 50 years old, 7 percent were 21 to 30 years old, and 2 percent were 20 years of age or younger.

Gender of Consumers Who Have Transitioned to Community

62 percent of the consumers transitioned to the community between July 1, 2004, and April 30, 2008, were male, and 38 percent were female.

Years of Residency of Consumers Who Have Transitioned to Community

Of the consumers transitioned to the community between July 1, 2004, and April 30, 2008, 26 percent lived at Agnews for 31 to 40 years 29.8 percent for 21 to 30 years, 29.2 percent for 11 to 20 years, 15 percent for 10 years or less.

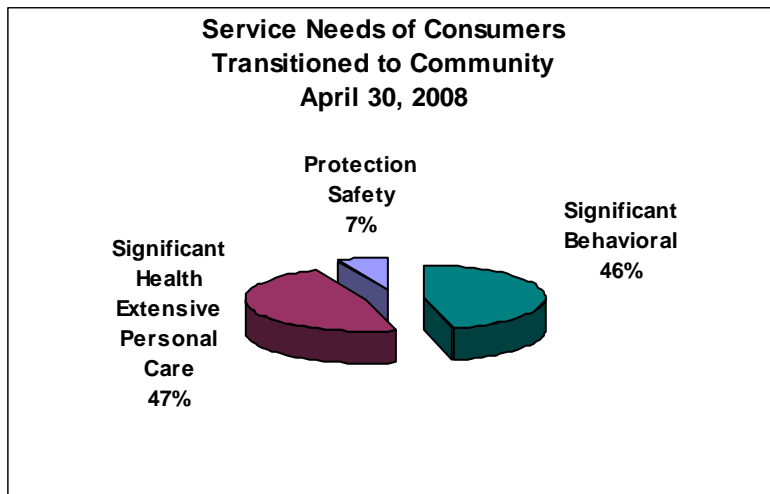

Level of Mental Retardation of Consumers Transitioned to Community

Between July 1, 2004, and April 30, 2008, 30 percent of transitioning consumers had profound mental retardation, 30 percent had severe mental retardation, 27 percent had moderate mental retardation, and 13 percent had mild mental retardation.

Service Needs of Consumers Transitioned to Community

46 percent of the consumers who transitioned to the community between July 1, 2004, and April 30, 2008, needed significant behavioral support, 47percent had significant health and extensive personal care needs, and 7 percent had protection and safety needs.

Type of Placement of Consumers Transitioned to Community

18 percent of the consumers who transitioned to the community between July 1, 2004, and April 30, 2008, moved to ICF Developmentally Disabled-Nursing (DD-N), 15 percent moved to Community Care Facility Level 4i (CCF L4i), 22 percent moved to CCF Negotiate, 16 percent moved to FTH or EFTH, 7 percent moved to ICF Developmentally Disabled-Habilitative (DD-H), 10 percent moved to 962 homes, 5 percent moved to RCFE, 6 percent moved to their Parents' Home or Supported Living, and 2 individuals equaling 1 percent of the consumers required long-term care in a Sub Acute Hospital or CCF Special Health Facility.

Agnews Employees

As of April 30, 2008, there were 822 employees at Agnews. Agnews employees have been provided information regarding the closure and the options that are, or will become, available for employment. On December 28, 2007, the Department of Personnel Administration notified all impacted Bargaining Units of intent to close Agnews on or about June 30, 2008, and on March 5, 2008 State Restriction of Appointment notices were sent to all employees except those employees assigned to Warm Shut Down (facility physical plant closure process) and the Agnews Outpatient Clinic. Impact negotiations began in late January 2008, and focus on non-economic and economic proposals with unions that have identified an impact associated with the closure.

The Marchesi Career Center

The Marchesi Career Center (Career Center) opened at Agnews in July 2006. Counselors assist employees with career counseling, training, and support on an individual or group basis. Assistance with résumé writing, application processing, assessing qualifications based on job specifications and interview tips and techniques are offered. The Center is equipped with computers with Internet access for job searching for state, county, city, and local job opportunities. Since July 2006 through March 31, 2008 CalPers has provided 18 seminars to assist employees to plan for retirement. Two Job Fairs and one scheduled for May, 2008 have occurred on campus with participation of approximately forty (40) vendors.

ADC and The Employment Development Department (EDD) will be collaborating to provide enhanced specialized training beginning in May to further assist employees in securing continued employment. In June EDD will provide informational sessions on issues related to unemployment.

From the time of its opening through April 30, 2008, the Career Center recorded 1,353 employee visits where information and career counseling services were provided. Between April 2007 and April 30, 2008, 512 employees received career counseling. The Career Center has provided training courses to more than 600 staff from the time it opened through April 30, 2008.

State Staff in the Community

Many Agnews employees have expressed an interest in continuing to serve the consumers who reside at Agnews as they transition to the community, by applying for community-based assignments. These assignments may be providing direct-care, training or consultation, quality assurance, or other services.

Selection processes have been negotiated with each involved labor organization, taking into consideration current hiring practices for state employment. To promote continuous recruitment throughout the facility, the staff is updated weekly on opportunities. In

addition, Agnews has developed orientation and job training sessions to familiarize employees with community-based opportunities.

As of April 30, 2008, a total of 77 employees are participating in the community state staff program, with 41 employees currently working in assignments, and the remaining 36 waiting for report dates. In addition, 21 positions are currently being advertised for 5 providers, with 66 applications received.

Direct Service Professional Training

The Career Center is offering Direct Service Professional (DSP) training for employees who are interested in transitioning into the community-based service system. The training, which consists of two 35-hour classes, is required for all staff providing care to consumers in the community. The training benefits service providers, regional centers, and consumers by ensuring that there is a pool of experienced and qualified prospective employees.

The Career Center offered a challenge test and three separate full review sessions for the Year 1 DSP training and one for the Year 2 DSP training. Review sessions for DSP training Year 1 and Year 2 will continue to be offered.

Attrition

Agnews has maintained sufficient staff to protect the health and safety of remaining residents and to ensure the ongoing certification of the facility. As of April 30, 2008, there were 822 employees at Agnews.

The attrition rate for this fiscal year is consistent with last fiscal year at ten percent. Licensed personnel such as registered nurses and psychiatric technicians comprise a significant majority of the separations. There is an increase in the proportion of administrative and support staff who are separating. Currently, 79 percent of Agnews employees are full-time employees, 11 percent are temporary limited-term employees, 6 percent are intermittent employees, and the remaining 4 percent are part-time employees.

The facility continues to provide a stable work force by providing opportunities for staff to transition to the community-based system, providing opportunities for employees who may be subject to layoff with accurate and timely information on options, and offering training and development opportunities as well as out-of-class assignments when appropriate.

It is anticipated that the number of employees who accept community-based assignments will significantly increase with the increased availability of community resources for Agnews consumers. Residential providers have expressed a strong interest in providing employment opportunities to Agnews staff.

Current Employee Composition

As of April 30, 2008, there are 822 employees at Agnews. Of these employees, 79 percent are currently full-time employees, 11 percent are temporary limited term employees, 6 percent are intermittent employees, and the remaining 4 percent are part-time employees.

Staff Years of Service

54 percent of the employees have worked at Agnews for 10 years or less. 24 percent of the employees have been employed at Agnews between 11 and 20 years. The remaining 22 percent have worked at Agnews for more than 20 years.

Staff Age

65 percent are over 50 years of age. 18 percent are between 43 to 50 years. 17 percent of the workforce are between 21 and 42 years of age.

Employee Classification

There is a wide range of employees and classifications that provide services to people residing at Agnews. These classifications are categorized as follows:

- **Direct Care Nursing:** Comprising 53 percent of the employee population, these include registered nurses, licensed vocational nurses, psychiatric technicians, psychiatric technician assistants, trainees, and students.
- **Level of Care Professionals:** Comprising 9 percent of the employee population these include physicians, rehabilitation therapists, social workers, teachers, physical and occupational therapists, respiratory therapists and others who provide a direct and specialized service to the residents at Agnews.
- **Non-Level of Care and Administrative Support:** The remaining 38 percent of the employee population includes clerical employees, food service employees, personnel and fiscal services employees, plant operations employees, and all supervisors and managers.

Separated Employee Composition

Between the time period of July 1, 2004, and April 30, 2008, 648 employees separated from employment with Agnews. Of those separating, 39 percent transferred to other state employment, 32 percent separated from state service, 26 percent retired, and 3 percent left for other reasons.

Separated Employee Staff Work Status

Of the employees that separated from Agnews state service between July 1, 2004, and April 30, 2008, 78 percent had been full-time employees, 9 percent had been temporary limited-term employees, 8 percent had been permanent intermittent, and 5 percent had been permanent part-time.

Characteristics of Staff Who Transfer

For staff separating from Agnews to other state employment, 31 percent transferred to the California Department of Corrections and Rehabilitation, 27 percent transferred to other state or local government agencies, 9 percent transferred to the DHCS, 14 percent transferred to other employment within the DDS, and 19 percent transferred to the Department of Mental Health.

Separated Staff Years of Service

63 percent of the employees who separated from state service had worked at Agnews for ten years or less, 20 percent had worked at Agnews between 11 and 20 years, and 17 percent had worked at Agnews for more than 20 years.

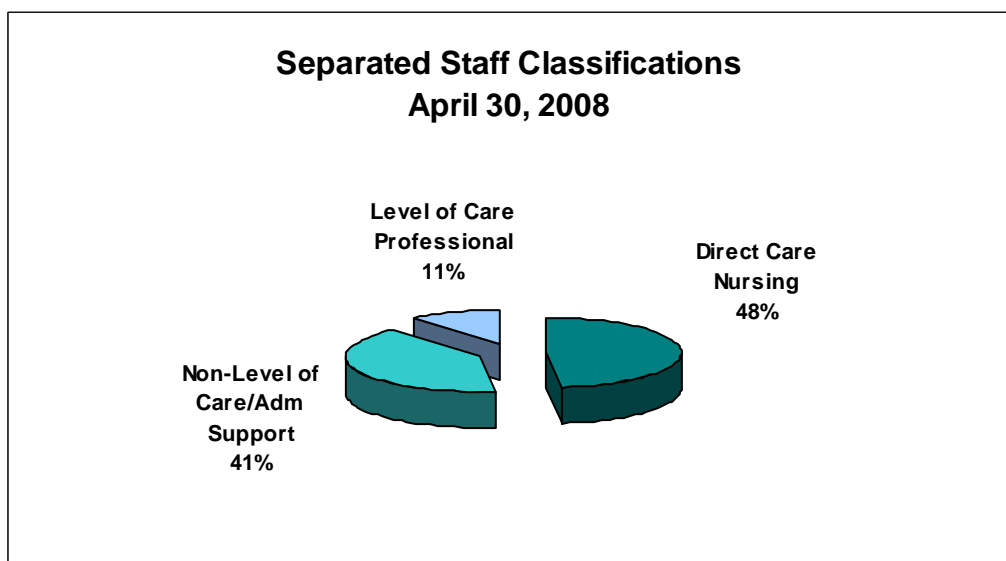

Separated Staff Age

51 percent were 50 years or older, 31 percent of those who separated were between 21 and 42 years of age, and 18 percent were between 43 to 49 years old.

Separated Staff Classifications

48 percent of the separated employees were providers of direct care, 41 percent in non-level of care positions and administrative support. 11 percent were level of care professional service providers to Agnews residents.

Physical Plant Consolidation

As is consistent practice at all DDS developmental center facilities, when population decreases, careful consolidation of residential areas and/or training sites must occur to ensure maximum utilization of staff and therefore greater assurance of quality services. The underpinning of Agnews consolidation planning was the development of guidelines illuminating the process for “Movement, Transfer, and Consolidation”. The guidelines were designed to assist the program managers in developing plans that assure a safe and smooth transfer of residents from one living and/or training environment to another. From 2004 through April 30, 2008, a total of nine residences have been consolidated (seven ICF and 2 NF), and 16 training sites have been consolidated (13 ICF, 3 NF). Current consolidation activities include three residences (two ICF and one NF), and one ICF training site.

Conclusion

The closure of Agnews has provided the state with a critical opportunity to build community-based alternatives for consumers with unique needs who otherwise may not have opportunities to live in home-like settings. This historic effort is consistent with state and national efforts to integrate services in the least-restrictive settings possible in accordance with individual choices.

The DDS looks forward to continuing its efforts at the state and local level to build community capacity for individuals with developmental disabilities, and to address the needs of Agnews residents transitioning into the community.

Major Implementation Steps and Timelines

Major Implementation Steps and Timelines

Report on the Plan for Closing Agnews Developmental Center

ID	Task Name	2008									
		1st Quarter				2nd Quarter			3rd Quarter

89	✓ Develop, pilot test, and finalize Service Coordinator Tool										
90	✓ Develop, pilot, and finalize Behavior Plan Review Tool										
91	✓ Develop, pilot test and draft a Quality Snapshot Tool										
92	✓ Develop, pilot, and finalize Nurse Health Review Tool										
93	✓ Develop, pilot, and finalize Bay Area Project Staff Tool										
94	✓ Xenologic contract										
95	✓ Completion of NCI Consumer Survey Year One										
96	✓ Completion of NCI Family Satisfaction Survey Year One										
97	✓ Final reports on both consumer and family surveys										
98	✓ Develop contract and scope of work for year two										
99	📅 May 2008 Final Report Year Two Surveys	[Solid line indicating post closure activity]									
100	✓ Community development team meetings										
101	✓ CMS final report due on grant										
102	Business Management Team										
103	📅 Identify and support employees' personal needs to plan for future employment or retirement	[Solid line indicating post closure activity]									
104	✓ Develop a plan to secure and protect Agnews' property throughout closure										
105	✓ Protocols in process to secure and protect Agnews' property throughout closure										
106	✓ Develop a process to ensure timely notification to stakeholders and appropriate entities regarding closure activities										
107	✓ Protocols in process to ensure timely notification regarding closure										
108	✓ Plan for inventory communications and information technology equipment, determine and develop a plan, and effectuate disposition										
109	✓ Create website for developmental centers (DC) containing policies and procedures for inventory of communications, and information technology equipment										

**A check indicates a completed task.
A solid line indicates post closure activity.**

Major Implementation Steps and Timelines

Report on the Plan for Closing Agnews Developmental Center

ID	 Task Name	2008									
		1st Quarter				2nd Quarter			3rd Quarter		
		Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep
110	 Manage Workers' Compensation cases, and preserve and transfer active and inactive cases including Stockton DC										
111	 Plan for purge and preserve Agnews' records as appropriate										
112	 Protocols in process for purge and preserve records										
113	 Develop process to move personal property with the consumer										
114	 Protocols in process to move personal property with consumer										
115	 Project, Plan, and Manage Fiscal Resources										
116	 Plan and facilitate consolidation of programs and services as population declines, including property leases										
117	 Inventory, store, distribute state surplus property - supplies										
118	 Create website for DCs containing policies and procedures for inventory, store-distribute state surplus property supplies										
119	 Develop a process to properly handle all trust account transactions during closure and forward balances at the time of discharge										
120	 Inventory/arrange for proper disposal of hazardous materials										
121	 Inventory and preserve historical items										
122	 Develop a plan to maintain Agnews' property during warm shutdown										
123	 Maintain physical plant during warm shutdown										

**A check indicates a completed task.
A solid line indicates post closure activity.**

Other		0	1,999,000	12,826,000	19,228,000	-50,000	0

1. Due to delayed placements in FY 2007-08, up to \$22 million will be transferred from the FY 2007-08 Unified CPP regional center budget and the FY 2007-08 Agnews Developmental Center budget to FY 2008-09. The FY 2009-10 Governor's Budget will update the FY 2008-09 costs based on the amount that is ultimately transferred.

2. Prior reports included some costs of state employees in the community in State Employees in the Community (line 4) that were also included in Community Placement Plan and Placement Continuation (lines 13 and 14). The costs of state employees providing direct care services and regional center clinical services is now shown for display purposes (i.e. non-add) in State Employees in the Community (line 4) to avoid duplicating costs.

3. The May Revision for CY 2007-08 reduces line 13, Community Placement Plan, by \$3.6 million due to delayed placements in FY 2007-08 and lower estimated cost of placements. Line 14, Placement Continuation, is reduced by \$13 million due to 26 fewer placements in the FY 2006-07. The Placement Continuation costs for these consumers will be updated in the FY 2009-10 Governor's Budget and subsequent budgets through 2010-11.

1. Due to delayed placements in FY 2007-08, up to \$22 million will be transferred from the FY 2007-08 Unified CPP regional center budget and the FY 2007-08 Agnews Developmental Center budget to FY 2008-09. The FY 2009-10 Governor's Budget will update the FY 2008-09 costs based on the amount that is ultimately transferred.

2. Prior reports included some costs of state employees in the community in State Employees in the Community (line 4) that were also included in Community Placement Plan and Placement Continuation (lines 13 and 14). The costs of state employees providing direct care services and regional center clinical services is now shown for display purposes (i.e. non-add) in State Employees in the Community (line 4) to avoid duplicating costs.

3. The May Revision for CY 2007-08 reduces line 13, Community Placement Plan, by \$3.6 million due to delayed placements in FY 2007-08 and lower estimated cost of placements. Line 14, Placement Continuation, is reduced by \$13 million due to 26 fewer placements in the FY 2006-07. The Placement Continuation costs for these consumers will be updated in the FY 2009-10 Governor's Budget and subsequent budgets through 2010-11.
