Note: This table presents data for consumers receiving SLS through the entire fiscal year (FY) 2014/15 which were billed to service codes 894 and 896. Only consumers for whom such costs were reported in the first and last months of FY 2014/15 were included in our analysis, under the presumption that these consumers received SLS for the full year. Since costs are reported in arrears, some data variance may occur due to when the data is collected. Data collection occurs within the first quarter of the calendar year, allowing costs reported 6 months after the end of the fiscal year to be represented. This table also included consumers who received services in addition to SLS (i.e., transportation, day program, etc., represented in the "Other Service Codes" column). The combination of SLS and Other Service codes represents a consumer's Supported Living Arrangement (SLA). Statewide numbers reflect SLS and SLA POS expenditures and consumer numbers regardless of consumer catchment area movement. Regional center numbers reflect only SLS and SLA POS expenditures and consumer numbers that are regional center specific and do not capture total SLS and SLA POS expenditures for consumers who received services in more than one catchment area. The total number of consumers reported by regional center may slightly exceed the total number of consumers reported on the statewide line due to this variance in data collection. For FY 2014/15, the calculation for the SLS mean is an arithmetic mean.

\*Note: The Statewide minimum of \$292 is correct. This is based upon consumer and not regional center. The consumer that received the \$129 Minimum SLS at North Bay also received services at another regional center. As such, the Statewide Minimum SLS per consumer is correct at \$292.

**INDIVIDUALS RECEIVING SUPPORTED LIVING SERVICES (SLS) PURCHASE OF SERVICE (POS) COSTS STATEWIDE AND BY REGIONAL CENTER

Note: This table compares the number of SLS consumers and the costs of their services during FY 2013/14 with that of FY 2014/15 which were billed to service codes 894 and 896. This table also includes consumers who received services in addition to SLS (i.e., transportation, day program, etc., represented in the "Other Service Codes" column). The combination of SLS Service and Other Service codes represents a consumer's SLA. Only consumers for whom such costs were reported in the first and last months of either, or both, fiscal years were included in our analysis, under the presumption that these consumers received SLS services for the full year. Statewide numbers reflect SLS and SLA POS expenditures and consumer numbers regardless of consumer catchment area movement. Regional center numbers reflect only SLS and SLA POS expenditures and consumer numbers that are regional center specific and do not capture total SLS and SLA POS expenditures for consumers who received services in more than one catchment area. The total number of consumers reported by regional center may slightly exceed the total number of consumers reported on the statewide line due to this variance in data collection. Since costs are reported in arrears, some data variance may occur due to when the data is collected. Data collection occurs within the first quarter of the calendar year; allowing costs reported 6 months after the end of the fiscal year to be represented. For FY 2014/15 the calculation for the SLS mean is an arithmetic mean.

Note: This table compares the number of SLS consumers and service costs for FY 2004/05 through FY 2014/15. Only consumers for whom such costs were reported in the first and last months of the fiscal year were included in our analysis, under the presumption that these consumers received SLS for the full year. The count excludes consumers who received SLS from an agency that was paid through a contract including more than 1 individual. This report will now address 10 years of historical data plus the most recent fiscal year. The report is now fully automated this fiscal year. All previous reports can be found at <http://www.dds.ca.gov/SLS/SLSReports.cfm>. Regional center numbers reflect only SLA POS expenditures and consumer numbers that are regional center specific and do not capture total SLS and SLA POS expenditures for consumers who received services in more than one catchment area. The total number of consumers reported by regional center may slightly exceed the total number of consumers reported on the statewide line due to this variance in data collection. Since costs are reported in arrears, some data variance may occur due to when the data is collected. Data collection occurs within the first quarter of the calendar year, allowing costs reported 6 months after the end of the fiscal year to be represented. For FY 2014/15 the calculation for the SLA mean is an arithmetic mean.

	SLS Svc. Codes	Other Svc. Codes	Total SLS Service	Other Service Codes	Total SLA Cost	Maximum SLS	Mean SLS	Median SLS	Minimum SLS
<b>Statewide</b>	<b>8,980</b>	<b>8,386</b>	<b>\$423,598,609</b>	<b>\$94,765,951</b>	<b>\$518,364,560</b>	<b>\$535,363</b>	<b>\$47,171</b>	<b>\$24,300</b>	<b>\$292</b>
18-21 Yrs	78	63	\$4,296,023	\$832,544	\$5,128,567	\$283,355	\$55,077	\$44,381	\$770
22-40 Yrs	3,533	3,335	\$174,207,345	\$41,127,918	\$215,335,263	\$535,363	\$49,309	\$26,536	\$405
41-64 Yrs	4,552	4,266	\$204,082,155	\$45,936,219	\$250,018,374	\$302,720	\$44,834	\$23,385	\$292
65 Yrs & Up	817	722	\$41,013,086	\$6,869,270	\$47,882,356	\$257,124	\$50,200	\$34,372	\$801

Note: This table compares the number of SLS consumers by age and the costs of their services during FY 2014/15 which were billed to service codes 894 and 896. This table also includes consumers who received services in addition to SLS (i.e., transportation, day program, etc., represented in the "Other Service Codes" column.) The combination of SLS Service and Other Service codes represents a consumer's SLA. Only consumers for whom such costs were reported in the first and last months of either, or both, fiscal years were included in our analysis, under the presumption that these consumers received SLS services for the full year. Statewide numbers reflect SLS and SLA Purchase of Service (POS) expenditures and consumer numbers regardless of consumer catchment area movement. Regional center numbers reflect only SLS and SLA POS expenditures and consumer numbers that are regional center specific and do not capture total SLS and SLA POS expenditures for consumers who received services in more than one catchment area. The total number of consumers reported by regional center may slightly exceed the total number of consumers reported on the statewide line due to this variance in data collection. Since costs are reported in arrears, some data variance may occur due to when the data is collected. Data collection occurs within the first quarter of the calendar year; allowing costs reported 6 months after the end of the fiscal year to be represented. For FY 2014/15 the calculation for SLA mean is an arithmetic mean.
