Senate Bill 1038 (Thompson), Chapter 1043, Statutes 1998 Section 17e. requires:

By May 15 of each year, the department shall provide all of the following information to the Legislature:

1. The status of the memorandums of understanding developed jointly by each regional center and the county mental health agency and identify any barriers to meeting the outcomes specified in this section.
2. The availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.
3. A description of each regional center's funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and whether it is physically accessible."

Summary of Memorandum of Understanding (MOU) Status Between County Mental Health Agencies and Regional Centers in California

Senate Bill 1038 (Thompson), Chapter 1043, Statutes 1998 Section 17 (e) required each regional center and county mental health agency to develop an MOU for achieving mandated outcomes regarding regional center clients requiring mental health services. As of May 2000, thirty-six counties have completed MOUs. Table 1, Pending Agreements, depicts the counties in which MOUs are pending completion. Two areas of concern have been identified as causing delays in completion: (1) the payment for administrative days for dually-diagnosed consumers, and (2) the frequency of visits by regional center staff to persons with developmental disabilities hospitalized in acute, inpatient mental health hospitals.

In order to facilitate finalization of the MOUs, the Department of Developmental Services has initiated the following activities:

- Assess, on an ongoing basis, the status of the MOUs to enable identification and resolution of barriers.
- Convene and staff a quarterly interagency task force to develop strategies for successful implementation of SB 1038.
- Sponsor training, in conjunction with the Department of Mental Health and the Mental Health Task Force, which fosters collaboration between the regional centers and the county mental health systems. Three recent training sessions provided a forum for directors, supervisors, and clinical staff to not only receive training on providing mental health services to persons with developmental disabilities, but to also establish the relationships necessary for successful implementation of MOUs.
- Provide technical assistance to regional centers and county mental health systems in resolving issues which impede the MOU process. On-site technical assistance is being scheduled throughout the current year, to assist those agencies involved in pending MOU discussions.

Mobile Crisis Intervention Services and Emergency Housing Options of the Regional Centers

Welfare and Institutions Code section 4648(a)(10) states “In order to achieve the stated objectives of a consumer’s individual program plan, the regional center shall conduct activities including, but not limited to, all of the following:

Emergency and crisis intervention services including, but not limited to, mental health services and behavior modification services, may be provided, as needed, to maintain persons with developmental disabilities in the living arrangement of their own choice. Crisis services shall first be provided without disrupting a person’s living arrangement. If crisis intervention services are unsuccessful, emergency housing shall be available in the person’s home community. If dislocation cannot be avoided, every effort shall be made to return the person to his or her living arrangement of choice, with all necessary supports, as soon as possible”.

Mobile Crisis Intervention Services Section provides information on the availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.

Funded Emergency Housing Options Section provides a description of each regional center’s funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and whether it is physically accessible.
