EXECUTIVE SUMMARY

Senate Bill 1038 (Thompson, Chapter 1043, Statutes 1998) expressed legislative intent that regional centers and their families have access to mental health services that are appropriate to meet their needs. Among other provisions, this bill required in Welfare and Institutions Code 4696.1, (f) (1)(2)(3) that, by May 15 of each year, the Department of Developmental Services (Department) provide all of the following information to the Legislature:

1. The status of the memorandums of understanding developed jointly by each regional center and the county mental health agency and identify any barriers to meeting the outcomes specified in this section.
2. The availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.
3. A description of each regional center's funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and whether it is physically accessible.

This report provides the information specified above. All regional centers and local mental health agencies have entered into memorandums of understanding. The report notes where progress has been made in the development of innovative resources, and how the collaborative effort between the Departments of Mental Health and Developmental Services has been strengthened as evidenced by jointly funding a position that will help reduce barriers and build resources for persons who are dually diagnosed with developmental disabilities and mental illness.

Summary of Memorandum of Understanding (MOU) Status Between County Mental Health Agencies and Regional Centers in California

Senate Bill 1038 (Thompson), Chapter 1043, Statutes 1998) requires that each regional center and county mental health agency develop an MOU to improve cooperative efforts regarding regional center consumers requiring mental health services. As of March 2006, all 58 counties and 21 regional centers have completed at least one MOU. Each regional center and county mental health agency is responsible for maintaining and/or revising their MOU. Revisions occur on an ongoing basis.

The Department of Developmental Services (DDS) and the Department of Mental Health (DMH) continue to provide facilitation between regional centers and county mental health agencies.

Ongoing facilitation efforts include:

- Convening and staffing a quarterly interagency task force to develop strategies for successful community services for the dually diagnosed (developmental disability and mental illness);
- Providing technical assistance as requested by the regional centers and/or county mental health agencies;
- Conducting psychiatrist training for professionals in the fields of mental health and developmental disabilities; and
- Providing joint DMH and DDS funding to develop a special, three-year contract position to provide local assistance to regional centers and county mental health agencies on collaborative project development and to convene a statewide training summit.

As a result of these efforts, new, innovative services and supports have been developed. These include:

- A specialized in-hospital treatment program that can provide treatment for individuals with severe and profound levels of mental retardation who also have mental illness; and
- Small family teaching homes that can accommodate one or two individuals who require specialized supports.

Although these developments are promising, barriers continue to exist in providing services and supports in the community. Barriers currently include:

- Difficulties in accessing and blending funds from multiple agencies;
- Shortages of psychiatrists willing to provide treatment to this population and who are also willing to accept the Medi-Cal reimbursement rate; and
- In some geographical areas, a lack of specialized providers to develop the needed resources.

Actions that DDS has taken to address these barriers and continue to enhance services for its dually diagnosed consumers include:

- Planning for a joint DMH and DDS funded position to assist local regional centers and county mental health agencies in developing additional new services including blended services with blended funding streams;
- Collaborating with universities with medical schools to provide training on developmental disabilities to clinicians and professionals in the community; and
- Offering regional centers Wellness Initiative grants and Community Placement Project funds to develop innovative projects and services.

Mobile Crisis Intervention Services and Emergency Housing Options of the Regional Centers

Welfare and Institutions Code section 4648(a) (10) states “In order to achieve the stated objectives of a consumer’s individual program plan, the regional center shall conduct activities including, but not limited to, all of the following”:

“Emergency and crisis intervention services, including, but not limited to, mental health services and behavior modification services, may be provided, as needed, to maintain persons with developmental disabilities in the living arrangement of their own choice. Crisis services shall first be provided without disrupting a person’s living arrangement. If crisis intervention services are unsuccessful, emergency housing shall be available in the person’s home community. If dislocation cannot be avoided, every effort shall be made to return the person to his or her living arrangement of choice, with all necessary supports, as soon as possible”.

Mobile Crisis Intervention Services Section provides information on the availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.

Funded Emergency Housing Options Section provides a description of each regional center’s funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and is physically accessible. All regional center’s have staff on call 24 hours per day to provide guidance in crisis situations.

Mobile Crisis Intervention Services

Pacifica Hospital of the Valley	Yes	MediCal/MediCare or private insurance
Kaiser Hospitals	Kaiser Members	MediCal/MediCare or private insurance
<p>NLACRC has staff on call 24 hours per day to provide guidance in crisis situations. During a mental health emergency, NLACRC staff may advise a consumer, family member, or service provider to contact one of the crisis teams listed above. 24-hour emergency on-call assistance and support services are provided for consumers who receive supported living, family home agency and foster family home services. Many independent living service providers have a 24-hour on-call system, by choice, although it is not a requirement. In addition, 1:1 behavioral support services may be authorized in an emergency situation when a consumer requires additional support in order to prevent a move to a more restrictive environment or to protect the consumer or others.</p> <p>* In 2004 Access Telecommunication Center (L.A. County Department of Mental Health) assumed full responsibility for providing referral and linkage resources for the L.A. County Area for persons with a Mental Health diagnosis and who reside in an Adult Residential Facility. The Access Center is responsible for screening and dispatching all Crisis Response Team in the L.A. area for assessment and transport to area Mental Health hospitals when needed. All Adult Residential Facility (ARF) providers serving consumers receiving MediCal benefits and who have a Mental Health diagnosis must use the Access Center system when they are in need of a crisis response team.</p>

NLACRC frequently utilizes residential vendors that have vacancies when there is a crisis situation and emergency housing is necessary. Additional staffing is provided through Program Support Services, if necessary, to meet the individual needs of the consumers. Independent Living providers have also been utilized to secure a motel room for a consumer, and then ILS services are funded to provide additional support.
