IRC = Inland Regional Center	TCRC = Tri-Counties Regional Center
KRC = Kern Regional Center	VMRC= Valley Mountain Regional Center
NBRC = North Bay Regional Center	WRC = Westside Regional Center
NLARC = North Los Angeles Regional Center	

## EXECUTIVE SUMMARY

Senate Bill 1038 (Thompson, Chapter 1043, Statutes 1998) expressed legislative intent that regional centers and their families have access to mental health services that are appropriate to meet their needs. Among other provisions, this bill required in Welfare and Institutions Code, Section 4696.1, (f) (1)(2)(3) that, by May 15 of each year, the Department of Developmental Services (Department) provide all of the following information to the Legislature:

1. The status of the memorandums of understanding developed jointly by each regional center and the county mental health agency and identify any barriers to meeting the outcomes specified in this section.
2. The availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.
3. A description of each regional center's funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and whether it is physically accessible.

The process of obtaining, reviewing, and consolidating information from all 21 regional centers caused a delay in submitting the report in a timely manner. Based on this experience, we will begin the process of obtaining the information earlier while trying to ensure that the information is updated to reflect the most current information related to crisis intervention services.

This report provides the information specified above. All regional centers and local mental health agencies have entered into memorandums of understanding. The report notes where progress has been made in the development of innovative resources, and how the collaborative effort between the Departments of Mental Health and Developmental Services has been strengthened as evidenced by co-sponsoring the Mental Health Task Force for Persons with Developmental Disabilities (MHTF).

## **Summary of Memorandum of Understanding (MOU) Status Between County Mental Health Agencies and Regional Centers in California**

Senate Bill 1038 (Thompson), Chapter 1043, Statutes 1998, requires that each regional center and county mental health agency develop an MOU to improve cooperative efforts regarding regional center consumers requiring mental health services. As of April 2009, all 58 counties and 21 regional centers have completed at least one MOU. Each regional center and county mental health agency is responsible for maintaining and/or revising their MOU. Revisions occur on an ongoing basis.

The Department of Developmental Services (DDS) and the Department of Mental Health (DMH) continue to provide facilitation between regional centers and county mental health agencies. Ongoing facilitation efforts include:

- Convening quarterly meetings of the Mental Health / Developmental Disabilities Collaborative (Collaborative) to develop strategies for successful community services for persons with a dual diagnosis (developmental disability and mental health diagnosis). The Collaborative's mission is to reduce barriers and build resources for persons who are dually diagnosed.
- Providing technical assistance as requested by the regional centers and/or county mental health agencies.
- Conducting psychiatrist training for professionals in the fields of mental health and developmental disabilities.

As a result of these efforts, new innovative services and supports have been developed. Notably, information regarding successful blended funded developmentally disability and mental health programs has been shared statewide, resulting in the development of additional services and supports for this population.

Although these developments are promising, barriers continue to exist in providing services and supports in the community. Current barriers include:

- Lack of psychiatric in-patient beds in some counties due to hospital closures.
- Lack of developmental disabilities knowledge by mental health staff.

DDS continues to take action to address these barriers and improve services for persons with dual diagnoses. These accomplishments include activities using moneys received from the Mental Health Services Act (MHSA), such as the following:

- In March 2009, DDS hosted "Developmental Disabilities: Update for Health Professionals" in San Francisco. Topics included early child mental health, cross cultural mental health treatment, and family issues across the life span for individuals with dual diagnoses.
- A Request for Application (RFA) was developed for regional centers (RCs) to carry out mental health services on a local level. Projects aim to address critical areas, including improving and enhancing services for persons with dual diagnoses, identifying consumers at risk for multiple inpatient hospitalization, and assessing the need for inpatient diversion programs, crisis intervention services, and aftercare treatment options.

## **Mobile Crisis Intervention Services and Emergency Housing Options of the Regional Centers**

Welfare and Institutions Code Section 4648(a) (10) states “In order to achieve the stated objectives of a consumer’s individual program plan, the regional center shall conduct activities including, but not limited to, all of the following”:

“Emergency and crisis intervention services, including, but not limited to, mental health services and behavior modification services, may be provided, as needed, to maintain persons with developmental disabilities in the living arrangement of their own choice. Crisis services shall first be provided without disrupting a person’s living arrangement. If crisis intervention services are unsuccessful, emergency housing shall be available in the person’s home community. If dislocation cannot be avoided, every effort shall be made to return the person to his or her living arrangement of choice, with all necessary supports, as soon as possible”.

**Mobile Crisis Intervention Services Section** provides information on the availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.

**Funded Emergency Housing Options Section** provides a description of each regional center’s funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and is physically accessible. All regional center’s have staff on call 24 hours per day to provide guidance in crisis situations.

<p>NLACRC has staff on call 24 hours per day to provide guidance in crisis situations. During a mental health emergency, NLACRC staff may advise a consumer, family member, or service provider to contact one of the crisis teams listed above. 24-hour emergency on-call assistance and support services are provided for consumers who receive supported living, family home agency and foster family home services. Many independent living service providers have a 24-hour on-call system, by choice, although it is not a requirement. In addition, 1:1 behavioral support services may be authorized in an emergency situation when a consumer requires additional support in order to prevent a move to a more restrictive environment or to protect the consumer or others.</p> <p>* In 2004 Access Telecommunication Center (L.A. County Department of Mental Health) assumed full responsibility for providing referral and linkage resources for the L.A. County Area for persons with a Mental Health diagnosis and who reside in an Adult Residential Facility. The Access Center is responsible for screening and dispatching all Crisis Response Team in the L.A. area for assessment and transport to area Mental Health hospitals when needed. All Adult Residential Facility (ARF) providers serving consumers receiving MediCal benefits and who have a Mental Health diagnosis must use the Access Center system when they are in need of a crisis response team.</p>
