Spring 2018

Performance Report for Alta California Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Alta California Regional Center (ACRC) we served about 23,290 consumers. The charts on page two tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At ACRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in most areas. We strive to continue to provide quality services to our clients and their families.

We hope this report helps you learn more about ACRC. If you have any questions or comments, please contact us!

This report is a summary. To see the complete report, go to: www.altaregional.org or contact Peter Tiedemann at 916-978-6201.

Who uses ACRC?

These charts tell you about who ACRC consumers are and where they live.

How well is ACRC performing?

This chart tells you five areas where DDS wants each regional center to keep improving.

The first column tells you how ACRC was doing at the end of 2016, and the second column shows how ACRC was doing at the end of 2017.

To see how ACRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	December 2016		December 2017	
	State Average	ACRC	State Average	ACRC
Fewer consumers live in developmental centers	0.30%	0.40%	0.21%	0.26%
More children live with families	99.24%	99.43%	99.32%	99.38%
More adults live in home settings	78.89%	81.19%	79.61%	82.00%
Fewer children live in large facilities (more than 6 people)	0.05%	0.01%	0.04%	0.00%
Fewer adults live in large facilities (more than 6 people)	2.60%	3.00%	2.47%	2.69%

Notes: 1) Consumers can be included in more than one diagnosis category. 2) Residence Types: CCF/ICF is Community Care Facility/Intermediate Care Facility; ILS/SLS is Independent Living Services/Supported Living Services. 3) Home settings include independent living, supported living, Adult Family Home Agency homes, and consumers' family homes. 4) Green text indicates the RC remained the same or improved from the previous year, red indicates the RC did not improve.

Did ACRC meet DDS standards?

Read below to see how well ACRC did in meeting DDS compliance standards:

Areas Measured	Last Period	Current Period
Passes independent audit	Yes	Yes
Passes DDS audit	Yes	Yes
Audits vendors as required	Met	Met
Didn't overspend operations budget	Yes	Yes
Participates in the federal waiver	Yes	Yes
CDERs and ESRs are updated as required (CDER is the Client Development Evaluation Report and ESR is the Early Start Report. Both contain information about consumers, including diagnosis.)	96.54%	96.78%
Intake/Assessment timelines for consumers age 3 or older met	100%	100%
IPP (<i>Individual Program Plan</i>) requirements met	99.21%	98.63%
IFSP (<i>Individualized Family Service Plan</i>) requirements met	74.1%	75.2%

Notes: 1) The federal waiver refers to the Medicaid Home and Community-Based Services Waiver program that allows California to offer services not otherwise available through the Medi-Cal program to serve people (including individuals with developmental disabilities) in their own homes and communities. 2) The CDER and ESR currency percentages were weighted based on the RC's Status 1 and Status 2 caseloads to arrive at a composite score. 3) The IFSP calculation methodology was changed from composite to average in order to more accurately reflect the RC's performance by only including children reviewed during monitoring and not all Early Start consumers. 4) N/A indicates that the regional center was not reviewed for the measure during the current period.

How well is ACRC doing at getting consumers working?

ACRC has chosen to include consumer employment as a local measure in their performance contract. The chart below shows how well ACRC is performing on increasing consumer employment performance compared to their prior performance and statewide averages:
