Spring 2011

Performance Report for Central Valley Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Central Valley Regional Center (CVRC) we served about 14,700 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At CVRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well having fewer individuals living in the developmental center and having fewer children and adults living in large facilities. We also did well having more children living with families and having more adults living in home settings including independent living, supported living, Adult Family Home Agency homes, and their own family homes.

We hope this report helps you learn more about CVRC. If you have any questions or comments, please contact us!

This report is a summary. For more information contact Linda Weiner, Central Valley Regional Center at (559) 276-4363 or lweiner@cvrc.org.
