Spring 2016

Performance Report for Central Valley Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Central Valley Regional Center (CVRC) we served about 17,100 consumers. The charts on page 2 tell you about the individuals we serve. You will also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At CVRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in having fewer individuals living in the developmental centers and having fewer adults living in large facilities. We also did well having only one child living in a large facility. We improved over the previous year in having more children living with families and more adults living in home settings. Over the next reporting period, we will work towards monitoring more closely updating of the Client Development Evaluation Reports (CDERs) and Early Start Reports (ESRs) and meeting the requirements of Individual Family Service Plans (IFSPs).

We hope this report helps you learn more about CVRC. If you have any questions or comments, please contact us!

How well is CVRC performing?

This chart tells you about 5 areas where DDS wants each regional center to keep improving.

The first column tells you how CVRC was doing at the beginning of 2015. And, the second column shows how CVRC was doing at the end of 2015.

To see how CVRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	December 2014		December 2015	
	State Average	CVRC	State Average	CVRC
Less consumers live in developmental centers	0.42%	0.67%	0.36%	0.58%
More children live with families	99.04%	98.77%	99.15%	98.99%
More adults live in home settings*	77.30%	76.80%	78.04%	77.49%
Less children live in large facilities (more than 6 people)	0.07%	0.01%	0.06%	0.01%
Less adults live in large facilities (more than 6 people)	2.96%	0.96%	2.78%	0.92%

* Home settings include: independent living, supported living, Adult Family Home Agency homes, and consumers' family homes.

**CDER and ESR currency percentages were weighted based on the regional center's Status 1 and Status 2 caseloads, to arrive at a composite score.*

Want more information?

In the future, we will measure how well we are doing in other areas including:

- Increasing the number of consumers who work
- Getting better pay for consumers who work
- Making sure consumers get medical and dental services, and
- Increasing the number and percent of individuals by race/ethnicity who are satisfied with the services and supports received by the family and family member
- Increasing the number and percent of individuals by race/ethnicity whose IPP or IFSP includes all the services and supports needed
