Spring 2012

Performance Report for Frank D. Lanterman Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Frank D. Lanterman Regional Center (FDLRC) we served about 7,800 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At FDLRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in the five areas as indicated by improvement in the performance score in each area. We still need to improve in moving adult clients out of the developmental center and other large facilities into more homelike residential settings. We have had a strong emphasis on moving people out of Lanterman Developmental Center since it is scheduled for closure relatively soon. Our efforts to move adults out of other large facilities have been slowed by the relatively high price of real estate in the areas we serve.

We hope this report helps you learn more about FDLRC. If you have any questions or comments, please contact us!
