Spring 2013

Performance Report for Golden Gate Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Golden Gate Regional Center (GGRC) we served about 8,100 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At GGRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in meeting our goals: 1) A smaller percentage of individuals in developmental centers; 2) A consistently high percentage of children living with their families; 3) A greater percentage of adults in home settings; and 4) A diminishing percentage of children and adults living in large facilities. We also did well in all compliance standards.

We hope this report helps you learn more about GGRC. If you have any questions or comments, please contact us!

This report is a summary. To see the complete report, please contact Gabriel Rogin at (415) 832-5676 or grogin@ggrc.org.
