Spring 2015

Performance Report for Golden Gate Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about Golden Gate Regional Center (GGRC).

Last year at GGRC we served about 8,300 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our Performance Contract with DDS.

At GGRC, we work to improve our performance every year. As you can see in this report, GGRC did well in meeting its goals: 1) A smaller percentage of individuals in developmental centers; 2) A consistently high percentage of children living with their families; 3) A greater percentage of adults in home settings; and 4) A diminishing percentage of adults living in large facilities. We also did well in all compliance standards.

We hope this report helps you learn more about GGRC. If you have any questions or comments, please contact us!

This report is a summary. To see the complete report, go to www.ggrc.org or contact James L. Shorter at (415) 832-5520.

How well is GGRC performing?

This chart tells you about 5 areas where DDS wants each regional center to keep improving.

To see how GGRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).
