Spring 2011

Performance Report for Kern Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Kern Regional Center (KRC) we served about 6,700 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At KRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, 86% of KRC's consumers live in their family's home or on their own. Of consumers living in out of home placement 98.4% live in small home-like settings serving no more than 6 residents. Additionally we continue to maintain our commitment to developing high quality community based settings to consumers who are exiting the State Developmental Centers. But we still need to improve in developing timely Individual Family Service plans. We have developed new protocols with our public school partners to assure that we are meeting this standard.

We hope this report helps you learn more about KRC. If you have any questions or comments, please contact us!

How well is KRC performing?

This chart tells you about 5 areas where DDS wants each regional center to keep improving.

The first column tells you how KRC was doing at the beginning of 2010. And, the second column shows how KRC was doing at the end of 2010.

To see how KRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	December 2009		December 2010	
	State Average	KRC	State Average	KRC
Less consumers live in developmental centers	0.91%	1.68%	0.83%	1.35%
More children live with families	98.48%	98.27%	98.60%	98.5%
More adults live in home settings*	73.20%	81.32%	73.99%	81.29%
Less children live in large facilities (more than 6 people)	0.13%	0.10%	0.13%	0.07%
Less adults live in large facilities (more than 6 people)	4.10%	1.49%	3.80%	1.29%

* Home settings include: independent living, supported living, Adult Family Home Agency homes, and consumers' family homes.

What about other performance areas?

In the future, we will measure how well we are doing in other areas, including:

- Increasing the number of consumers who work,
- Getting better pay for consumers who work,
- Making sure consumers get medical and dental services, and
- Meeting Intake/Assessment and IFSP timelines for children 0–3.
