Spring 2011

Performance Report for San Andreas Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at San Andreas Regional Center (SARC) we served about 13,000 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At SARC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in the following areas -

- A. San Andreas has less adult living in large facilities or institutions.
- B. San Andreas has less children living in large facilities or institutions.

But, we still need to improve in meeting timelines for both Individual Family Service Plans (IFSP's) and intakes under the Lanterman Act.

We hope this report helps you learn more about SARC. If you have any questions or comments, please contact us!
