Spring 2013

Performance Report for Tri-Counties Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Tri-Counties Regional Center (TCRC) we served about 11,600 persons. The charts on page 2 tell you about the people we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At TCRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in

- Supporting children and families in the home,
- Ensuring that adults live in home like settings, and
- Moving individuals to the community from the Developmental Center.

But, we still need to improve in

- Ensuring that when adults must live in a facility, there are six beds or less, and
- Ensuring that when children must live in a facility, there are six beds or less.

We hope this report helps you learn more about TCRC. If you have any questions or comments, please contact us!
