Spring 2016

Performance Report for Valley Mountain Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Valley Mountain Regional Center (VMRC) we served about 12,000 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At VMRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in most areas. VMRC reduced the number of consumers living in developmental centers, made improvements in reducing the number of adults that live in large facilities, increased the number of children living with families, and maintained the low number of children living in large facilities. Additionally, we did well with our DDS and independent audits and did not overspend our operations budget. We had a compliance rate of 100% in Intake/Assessment timelines for consumers age 3 or older and nearly 100% in IPP and IFSP requirements. But, VMRC still needs to improve compliance with CDER and ESR requirements and decrease the number of adults living in large facilities.

We hope this report helps you learn more about VMRC. If you have any questions or comments, please contact us!

These charts tell you about who VMRC consumers are and where they live.

How well is VMRC performing?

This chart tells you about 5 areas where DDS wants each regional center to keep improving.

The first column tells you how VMRC was doing at the beginning of 2015. And, the second column shows how VMRC was doing at the end of 2015.

To see how VMRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	December 2014		December 2015	
	State Average	VMRC	State Average	VMRC
Less consumers live in developmental centers	0.42%	0.24%	0.36%	0.21%
More children live with families	99.04%	99.02%	99.15%	99.21%
More adults live in home settings*	77.30%	75.40%	78.04%	76.04%
Less children live in large facilities (more than 6 people)	0.07%	0.02%	0.06%	0.02%
Less adults live in large facilities (more than 6 people)	2.96%	4.78%	2.78%	4.59%

* Home settings include: independent living, supported living, Adult Family Home Agency homes, and consumers' family homes.
