**WESTSIDE
REGIONAL CENTER**

Spring 2012

Performance Report for Westside Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Westside Regional Center (WRC) we served about 7,200 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At WRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in supporting children and adults to continue to live in a family home or setting; completing our intakes in a timely manner and assisting people to live in home like setting instead of institutions. But, we find that we still need to improve in areas such as Intake/Assessment timelines and IPP (*Individual Program Plan*) requirements within required timelines.

We hope this report helps you learn more about WRC. If you have any questions or comments, please contact us!
