WESTSIDE
REGIONAL CENTER

Spring 2014

Performance Report for Westside Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Westside Regional Center (WRC) we served about 7,600 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At WRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in moving people from the developmental centers back into the community; supporting families so that their children are able to live at home; supporting adults to live in their own homes and WRC's performance was higher than the state average in most areas. But, we still need to improve our intake and IPP timelines.

We hope this report helps you learn more about WRC. If you have any questions or comments, please contact us!
