Spring 2019

Performance Report for San Diego Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve persons with developmental disabilities and their families. The contracts contain annual goals for the regional centers. This report will give you information about the 2018 goals and how well the San Diego Regional Center (SDRC) is doing in meeting our goals and in fulfilling our contract with DDS.

Last year, at the SDRC we served about 29,150 persons with developmental disabilities. The charts on page two tell you about the people we serve.

This report provides information about how the SDRC did relative to the state average and provides a comparison of our 2017 and 2018 data.

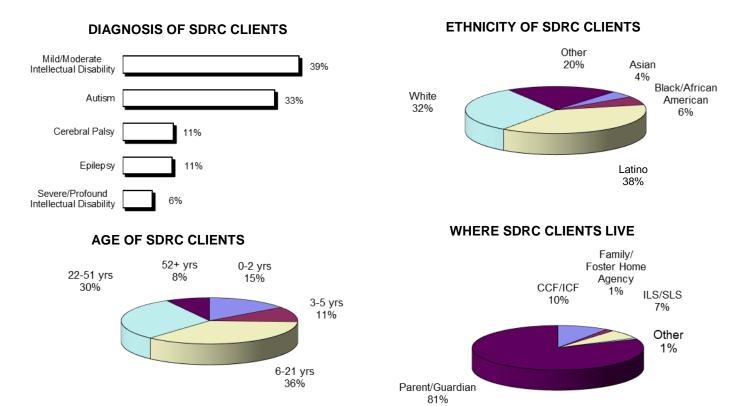

We hope this report helps you learn more about SDRC. If you have any questions or comments, please contact us!

This report is a summary. To see the complete report, go to: www.sdrc.org

Who uses SDRC?

These charts tell you about who SDRC clients are and where they live.

How well is SDRC performing?

This chart tells you about five areas where DDS wants each regional center to keep improving.

The first column tells you how SDRC was doing at the end of 2017, and the second column shows how SDRC was doing at the end of 2018.

To see how SDRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals	Decemi	per 2017	December 2018		
(based on Lanterman Act)	State Average	SDRC	State Average	SDRC	
Fewer clients live in developmental centers	0.21%	0.17%	0.12%	0.15%	
More children live with families	99.32%	99.44%	99.38%	99.55%	
More adults live in home settings*	79.61%	77.25%	80.20%	78.16%	
Fewer children live in large facilities (more than 6 people)	0.04%	0.06%	0.04%	0.07%	
Fewer adults live in large facilities (more than 6 people)	2.47%	2.51%	2.31%	2.40%	

Notes: 1) Clients can be included in more than one diagnosis category. 2) Residence Types: CCF/ICF is Community Care Facility/Intermediate Care Facility; ILS/SLS is Independent Living Services/Supported Living Services. 3) Home settings include independent living, supported living, Adult Family Home Agency homes, and client's family homes. 4) Green text indicates the RC remained the same or improved from the previous year, red indicates the RC did not improve.

Summary Performance Report for San Diego Regional Center, Spring 2019

Did SDRC meet DDS standards?

Read below to see how well SDRC did in meeting DDS compliance standards:

Areas Measured	Last Period	Current Period
Passes independent audit	Yes	Yes
Passes DDS audit	Yes	Yes
Audits vendors as required	Met	Met
Didn't overspend operations budget	Yes	Yes
Participates in the federal waiver	Yes	Yes
CDERs and ESRs are updated as required (CDER is the Client Development Evaluation Report and ESR is the Early Start Report. Both contain information about clients, including diagnosis.)*	94.34%	94.33%
Intake/Assessment timelines for clients age 3 or older met	100%	100%
IPP (Individual Program Plan) requirements met	98.36%	N/A
IFSP (Individualized Family Service Plan) requirements met	88.1%	92.5%

Notes: 1) The federal waiver refers to the Medicaid Home and Community-Based Services Waiver program that allows California to offer services not otherwise available through the Medi-Cal program to serve people (including individuals with developmental disabilities) in their own homes and communities. 2) The CDER and ESR currency percentages were weighted based on the RC's Status 1 and Status 2 caseloads to arrive at a composite score. 3) The IFSP calculation methodology was changed from composite to average in order to more accurately reflect the RC's performance by only including children reviewed during monitoring and not all Early Start clients. 4) N/A indicates that the regional center was not reviewed for the measure during the current period.

The 2019 employment data was compiled differently from previous years. To obtain these statistics, DDS provided the EDD with the names and social security numbers of individuals ages 16 and older that are Status 2. The EDD matched that information to their database and returned individual-specific wage data including employment locations, business name and type. DDS then analyzed the data for accuracy and only reported to regional centers the information deemed most accurate. Approximately 87% of the EDD data were deemed accurate enough to report with confidence.

How well is SDRC doing at reducing disparities and improving equity?

These tables show you how well the regional center is doing at providing services equally for all clients.

^{*}The reader is advised that the percentages represent the total amount of purchase of service spending for the specific ethnic group, not the average amount for each client in that ethnic category. Therefore, the percentages depicted in the table are heavily weighted by the significant differences on the number of clients in each ethnic category. A concrete example may be illustrative of this point. The Latino group's percentages are three to ten times more than Black/African American clients. We caution the reader not to interpret the differences that the Latino group receives more per capita, rather the Latino group represents a significantly greater percentage of SDRC's client population (Latino clients represent 38% of our clients and Black/African American clients 6%).
