Explain how the target population(s) are underserved using POS data or other data as supporting evidence. SG/PRC has experience providing face-to-face information sessions with families to help them

FY 2018/19 DISPARITY FUNDS PROGRAM PROJECT INFORMATION

families who have expressed an interest in learning this information, but they cannot come in person -- either because of transportation issues, work schedule, difficulty obtaining child supervision. Families that are in need of information may not be able to obtain that vital information and are disadvantaged by those factors. Families have specifically requested for SG/PRC to develop webinars or similar computer-based ways for families to access "Navigating the Regional Center System" workshops and information provided by our Critical Issues Forum. In particular, there were several requests for the "Accessing Medi-Cal benefits"

7. How will the project address the identified POS disparity?

This project will address the disparity caused by a lack of access to information because of a family's inability to attend trainings in person. In talking to families, we have been told that almost everyone has a smart phone, even if they have meager means and no other form of technology. If information can be formatted to be effectively communicated over a smart phone, then we will be able to reach a lot more people than if we only provided vital information face-to-face. Often, it is the family most in need of support is the family that is unable to obtain the information they need to get that support.

8. How is the proposed project unique or different from a current effort (e.g., strategies, activities, goal) in this catchment area? If the project is similar to a current effort, how will the proposed project expand on the current effort?

The purpose of this project is two-fold: (1) provide information from the in-person Critical Issues Forum for those who cannot come in person -- which is a new effort; and (2) provide the information from the Navigating the Regional Center System (NRCS) workshops to those who could not come in person or missed one or two workshops and wants to complete the workshop series. This part is an expansion of an existing project. Families, including SG/PRC Board Members, have requested that the information made available in person at these two types of trainings be made available to those who cannot come in person. Some families who have participated in NRCS have requested that this information be made more available to others by being also available in a webinar format.

9. How did your organization collect input from the community and/or target population to design the project?

This project request is the direct result of multiple families, including Board Members, requesting that the information available in person through the Critical Issues Forum series and the NRCS workshops be made available online, preferably through a webinar format.

DISPARITY FUNDING PROPOSAL - SCHEDULE OF DEVELOPMENT/ACTIVITIES WORKSHEET

Completed worksheets shall be submitted with the funding proposal. List all key staff and activities, and identify the quarter that each activity will occur. More than one copy of each worksheet may be submitted if additional space is required. *Please see Attachment C-1 for a sample worksheet.*

Note: Monthly intervals may also be used, rather than quarterly as shown in this sample. For projects shorter than 6 months, DDS may require monthly reporting. Please use as many copies of this worksheet as needed

DISPARITY FUNDING PROPOSAL - PROJECT MEASURES WORKSHEET

Completed worksheets shall be submitted with the funding proposal. Check the types of qualitative and quantitative outcome measures you will use. For each type, describe the activity to be measured and the data collection method. More than one copy of each worksheet may be submitted if additional space is required. *Please see Attachment D-1 for a sample worksheet*.

Measures of Outcomes	Type of Measure(s). Check all that apply.	Activity To Be Measured; Data Collection Method	
	⊠ Count	The SG/PRC LMS (Learning Module System) tracks the number of parents who have access a particular learning module and each webinar will be set up a a separate learning module in the LMS. At in-persor Critical Issues Forums and NRCS workshops, will advertise that these will be available as webinars in the near future and to count the number of parents who have already participated in existing webinars.	
	□ POS		
	□ Pre/post survey/assessment		
		Through the multiple annual community meetings, as a part of the regular Client Services and other Board meetings, and in response to a survey set to families through our e-link system (e-mail blasts) and Regiona Center Automated Phone System (RCAPS), advertise and collect feedback on the availability and utilization of the webinars. The RCAPS includes a polling option so that families can give specific feedback about their awareness of and utilization of the parent portal and specific learning options.
