Quality Assessment Project and National Core Indicators

This report contains regional center level results from California's second statewide National Core Indicators (NCI) Adult Consumer Survey conducted in Fiscal Year (FY) 2011-2012 (CS2), in accordance with Welfare and Institutions Code (WIC), Section 4571. WIC, Section 4571 directs the Department of Developmental Services (DDS) to collect accurate, reliable, and valid consumer and family satisfaction measures as well as consumer outcome data. In California, data from this project will be used to review and benchmark statewide and regional center developmental disability service system performance.¹ This report compares findings between CS2 to the Adult Consumer Survey conducted in FY 2010-2011(CS1) which is considered baseline data. Regional centers can use this report to help guide strategic planning and monitor systemic changes.

What is the NCI Adult Consumer Survey?

The NCI Adult Consumer Survey is an interview conducted with a person who is receiving services from a regional center. The NCI Survey is used to gather data on approximately 60 consumer outcomes and is regularly refined and tested to ensure it is valid and reliable. In California, interviewers hired by the area boards met with individuals and asked them questions about where they live and work, the kinds of choices they make, the activities they do in the community, their relationships with friends and family, and their health and well-being. Interviews were conducted between July 2011 and June 2012.

What topics are covered by the survey?

The National Core Indicators are organized by "domains" or topics. These domains are further broken down into sub-domains, each of which has a statement that indicates what concerns are being measured. Each sub-domain includes one or more "indicators" of how the state is performing in this area. The table on the following page lists the domains and sub-domains covered by the NCI Adult Consumer Survey indicators.

¹ Refer to the California Adult Consumer Survey Report FY 2011-2012 for detailed information about Quality Assessment Project implementation, the NCI, and California's Statewide results.

TABLE 1. NCI ADULT CONSUMER SURVEY INDICATORS – DOMAINS AND SUB-DOMAINS

Domain	Sub-Domain	Outcome Statement
Individual Outcomes	Work	People have support to find and maintain community integrated employment.
	Community Inclusion	People have support to participate in everyday community activities.
	Choice and Decision-Making	People make choices about their lives and are actively engaged in planning their services and supports.
	Self Determination	People have authority and are supported to direct and manage their own services.
	Relationships	People have friends and relationships.
Health, Welfare, and Rights	Satisfaction	People are satisfied with the services and supports they receive.
	Safety	People are safe from abuse, neglect, and injury.
	Health	People secure needed health services.
	Medications	Medications are managed effectively and appropriately.
	Wellness	People are supported to maintain healthy habits.
System Performance	Respect/Rights	People receive the same respect and protections as others in the community.
	Service Coordination	Service coordinators are accessible, responsive, and support the person's participation in service planning.
	Access	Publicly-funded services are readily available to individuals who need and qualify for them.

How were people selected to participate?

Based on the total number of adults (age 18 and over) who are receiving regional center services, it was determined that a target number of 400 surveys per regional center would provide a valid sample for this analysis.² People who were presently living in a developmental center were not part of the sample.

An additional group of people who had moved from developmental centers to the community in the past five years was selected so that their results could be looked at separately.³ Overall, the total number of surveys completed across the State of California was 8,691.

Proxy Respondents

Proxy responses are allowed only for the background information and Section II of the survey, which are based on objective measures: Community Inclusion, Choices, Rights, and Access to Needed Services. Proxy respondents are used only when the individual cannot complete the survey or chooses to have a proxy respondent. Only people who know the individual well (such as family, friends, or staff) are acceptable proxy respondents, and to avoid conflict, service coordinators are not allowed to respond for individuals on their caseloads.

Limitations of Data

The NCI Adult Consumer Survey tool is not intended to be used for monitoring individuals or providers, but rather for assessing system-wide performance. The NCI Statewide Average should not be interpreted to necessarily define “acceptable” levels of performance or satisfaction, nor does it provide benchmarks for acceptable or unacceptable levels of performance for each indicator. Instead, it describes average levels of performance or satisfaction across the State. It is up to public managers, policy-makers, and other stakeholders to decide whether the differences in results suggest that quality improvement efforts or further investigations are necessary.

² A randomly selected group of 400 people meets the accepted standard for a representative sample with a +/-5% margin of error and a 95% confidence level. For additional details on sampling and administration methods, please see the California Adult Consumer Survey Report FY 2011-2012.

³ A supplemental Movers report will be produced by UC Davis and made available on the DDS website.

What is contained in this report?

This report illustrates CS2 demographic and individual outcome results from South Central Los Angeles Regional Center (SCLARC) compared to the CS2 California Statewide NCI Average, and the South Central Los Angeles Regional Center average from CS1. All results are shown in chart form along with descriptive text to the right of each chart. Statewide results for the NCI Adult Consumer Survey can be found online at <http://www.dds.ca.gov/QA/index.cfm>.

Please Note: Items marked with an asterisk (*) were analyzed differently for the CS2 data collection cycle. Year-to-year comparisons should be made with caution.

Results: Demographics

ILLUSTRATES THE DEMOGRAPHIC PROFILE OF SURVEY PARTICIPANTS

GRAPH 1. GENDER

This graph illustrates of people surveyed in South Central Los Angeles Regional Center in CS2, 60% were males and 40% were females.

GRAPH 2. AGE

This graph illustrates that in South Central Los Angeles Regional Center the average age of people surveyed in CS2 was 39.1 years old.

GRAPH 3. RACE AND ETHNICITY*

This graph illustrates the race of people surveyed in South Central Los Angeles Regional Center in CS2 was: 0% American Indian or Alaska Native, 2% Asian, 43% Black or African American, 0% Pacific Islander, 14% White, 38% other, 1% two or more, and 1% don't know; 38% were identified as Hispanic.

GRAPH 4. PRIMARY LANGUAGE

This graph illustrates the primary language of people surveyed in South Central Los Angeles Regional Center in CS2 was: 73% English and 27% other.

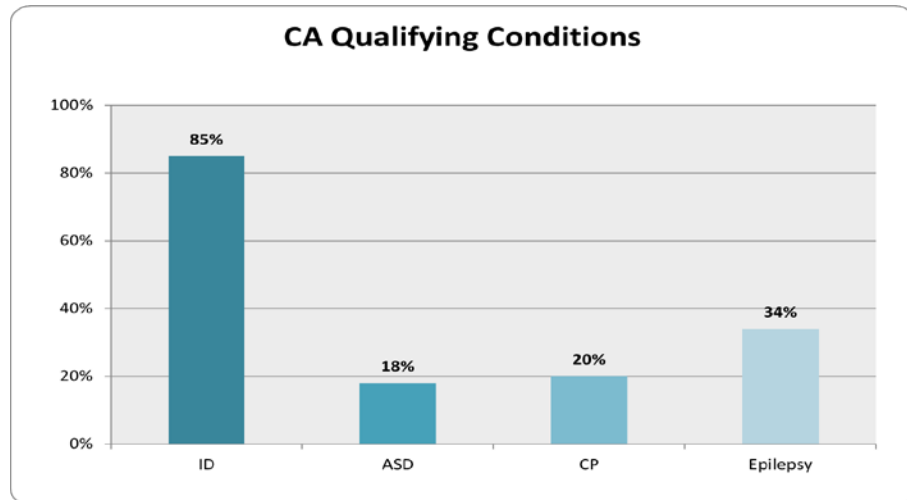

***In the California data, Hispanic is considered a race category. NCI uses the U.S. Census model, which defines ethnicity separately as Hispanic vs. Non-Hispanic.**

GRAPH 5. PRIMARY MEANS OF EXPRESSION

This graph illustrates the primary means of expression of people surveyed in South Central Los Angeles Regional Center in CS2 was: 67% spoken, 32% gestures or body language, 0% sign language, 0% communication aid or device, 1% other; 0% did not know.

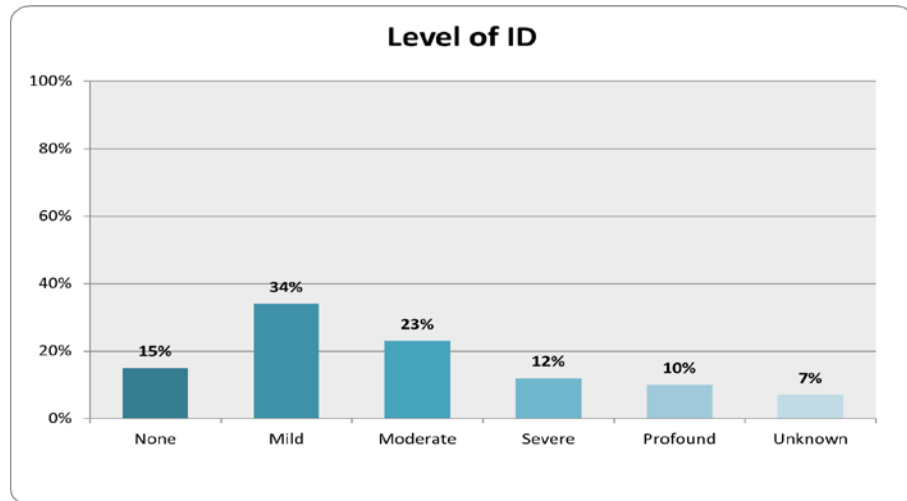

GRAPH 6. CA QUALIFYING CONDITIONS*

This graph illustrates of people surveyed in South Central Los Angeles Regional Center in CS2, who were diagnosed with conditions that qualify them for services – intellectual disability ID 85%, autism spectrum disorder ASD 18%, cerebral palsy CP 20%, and/or epilepsy 34%.

*CA Qualifying Conditions and Other Disabilities are not mutually exclusive.

GRAPH 7. LEVEL OF ID

This graph illustrates levels of intellectual disability (ID) of people surveyed in South Central Los Angeles Regional Center in CS2 was: 15% had no ID diagnosis, 34% mild, 23% moderate, 12% severe, 10% profound ID, 7% unspecified or unknown.

GRAPH 8. OTHER DISABILITIES*

This graph illustrates the types of disability of people surveyed in South Central Los Angeles Regional Center in CS2, other than ID were: mental illness 33%, brain injury 1%, chemical dependency 0%, limited or no vision 5%, hearing loss 2%, Alzheimer's or dementia 0%, Down Syndrome 5%, Prader-Willi Syndrome 0%, other 4%, and 13% had no other disability.

*Individuals with results reflected in the graph and table above may have been diagnosed with a Qualifying Condition as well (see proceeding Graph: 'Qualifying Conditions').

GRAPH 9. TYPE OF RESIDENCE

This graph illustrates the types of residences of people surveyed in South Central Los Angeles Regional Center in CS2 was: 6% intermediate care facility, 30% community care facility, 9% independent living skills (ILS)/supported living services (SLS), 51% parent or relative's home, 2% family home agency, 2% skilled nursing facility (SNF), 0% other.

Choice

PEOPLE MAKE CHOICES ABOUT THEIR LIVES AND ARE ACTIVELY ENGAGED IN PLANNING THEIR SERVICES AND SUPPORTS.

GRAPH 10. CHOSE HOME*

This graph illustrates 26% of respondents from CS1 compared to 34% of respondents from CS2 reported they chose or had some input in choosing their where they live. The CS2 statewide average was 52%.

GRAPH 11. CHOSE ROOMMATES*

This graph illustrates 25% of respondents from CS1 compared to 28% of respondents from CS2 reported they chose or had some input in choosing their roommates. The CS2 statewide average was 37%.

*CS2 survey did not ask this question to individuals living in the family home.

GRAPH 12. CHOSE HOME STAFF

This graph illustrates 48% of respondents from CS1 compared to 37% of respondents from CS2 reported they chose or were aware they could request to change their home staff. The CS2 statewide average was 56%.

GRAPH 13. CHOSE PAID COMMUNITY JOB*

This graph illustrates 60% of respondents from CS1 compared to 83% of respondents from CS2 reported they chose or had some input in choosing their paid community job. The CS2 statewide average was 86%.

***CS2 results based on those determined to have a job in the background information section.**

GRAPH 14. CHOSE JOB STAFF*

This graph illustrates 54% of respondents from CS1 compared to 41% of respondents from CS2 reported they chose or were aware they could request a change in job staff. The CS2 statewide average was 55%.

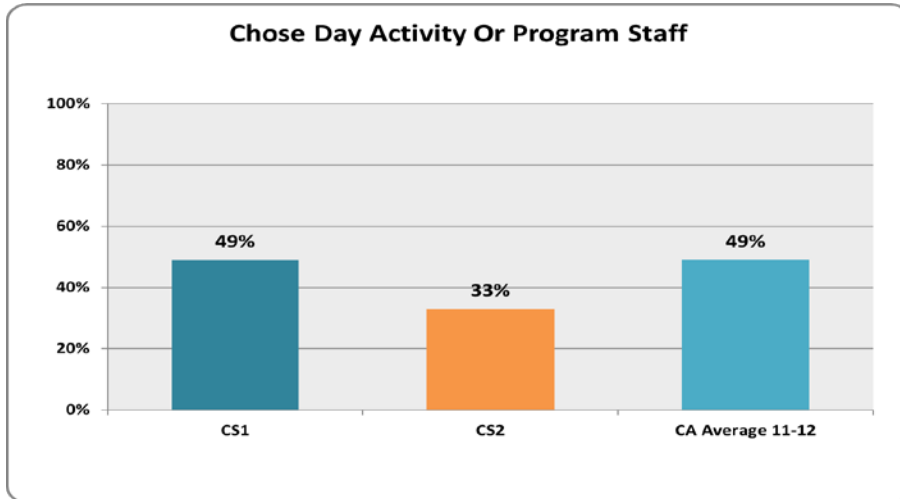

GRAPH 15. CHOSE DAY ACTIVITY OR PROGRAM

This graph illustrates 59% of respondents from CS1 compared to 51% of respondents from CS2 reported they chose or had some input in choosing their day activity or program. The CS2 statewide average was 54%.

***CS2 results based on those determined to have a job in the background information section.**

GRAPH 16. CHOSE DAY ACTIVITY OR PROGRAM STAFF

This graph illustrates 49% of respondents from CS1 compared to 33% of respondents from CS2 reported they chose or could request a change in day activity or program staff. The CS2 statewide average was 49%.

GRAPH 17. CHOOSES HOW TO SPEND FREE TIME

This graph illustrates 81% of respondents from CS1 compared to 84% of respondents from CS2 reported they choose or have input in choosing how to spend free time. The CS2 statewide average was 90%.

GRAPH 18. CHOOSES WHAT TO BUY

This graph illustrates 81% of respondents from CS1 compared to 83% of respondents from CS2 reported they choose or have input in choosing how to spend their money. The CS2 statewide average was 85%.

GRAPH 19. CHOOSES DAILY SCHEDULE

This graph illustrates 70% of respondents from CS1 compared to 78% of respondents from CS2 reported they choose or have input in choosing their daily schedule. The CS2 statewide average was 84%.

GRAPH 20. CHOSE SERVICE COORDINATOR

This graph illustrates 64% of respondents from CS1 compared to 29% of respondents from CS2 reported they chose or were aware they could request to change their service coordinator. The CS2 statewide average was 58%.

Work

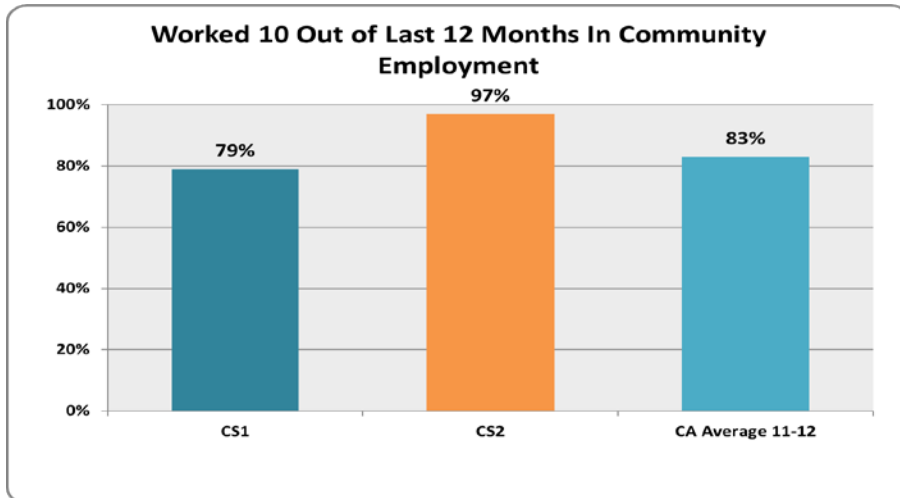

PEOPLE HAVE SUPPORT TO FIND AND MAINTAIN COMMUNITY INTEGRATED EMPLOYMENT.

GRAPH 21. HAS A PAID JOB IN THE COMMUNITY

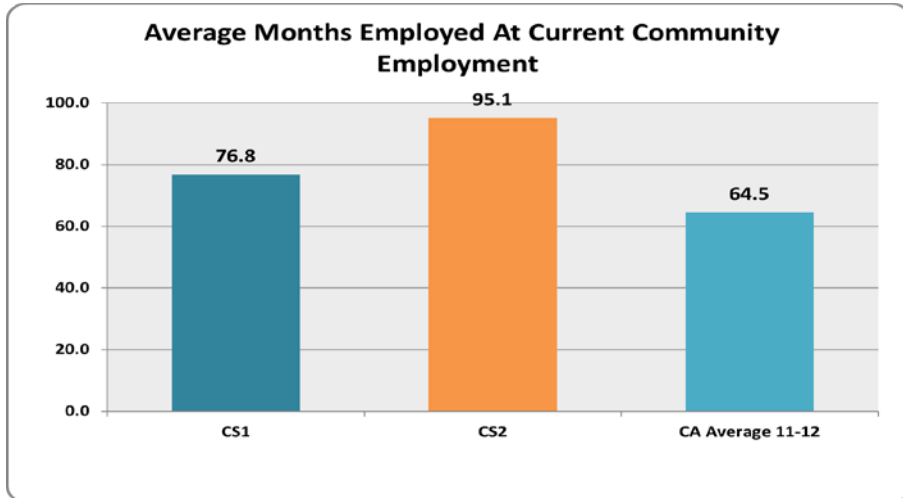

This graph illustrates 6% of respondents from CS1 compared to 8% of respondents from CS2 were reported to have a paid job in the community. The CS2 statewide average was 13%.

GRAPH 22. WORKED 10 OF THE LAST 12 MONTHS IN COMMUNITY EMPLOYMENT

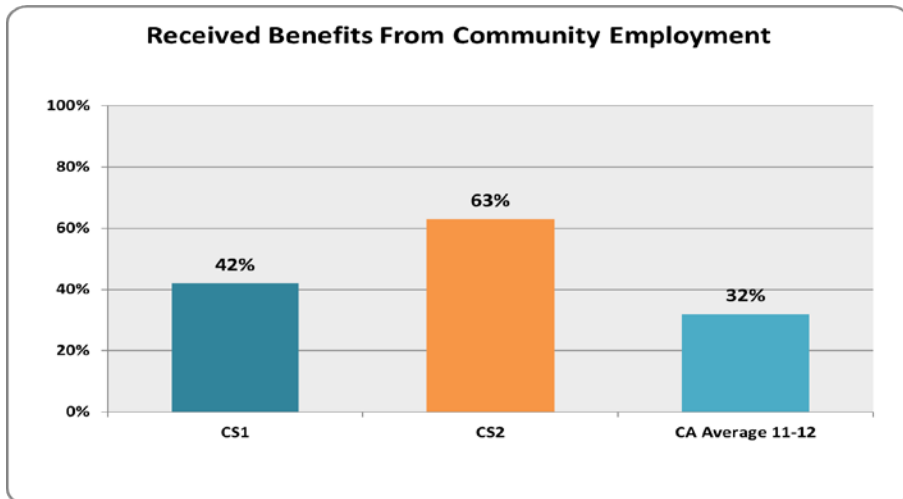

This graph illustrates of people employed in the community, 79% of respondents from CS1 compared to 97% of respondents from CS2 were reported to have a paid job in the community and worked 10 of the last 12 months at their current job. The CS2 statewide average was 83%.

GRAPH 23. AVERAGE MONTHS EMPLOYED AT CURRENT COMMUNITY EMPLOYMENT

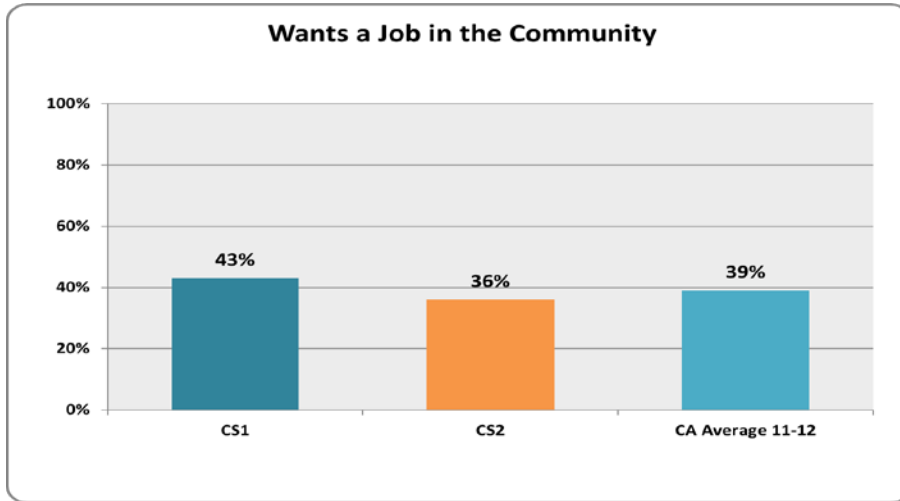

This graph illustrates of people employed in the community, people from CS1 worked in their current job for an average of 76.8 months compared to CS2 who worked for an average of 95.1 months. The CS2 statewide average was 64.5 months.

GRAPH 24. RECEIVED BENEFITS FROM COMMUNITY EMPLOYMENT

This graph illustrates of people employed in the community, 42% from CS1 compared to 63% CS2 were reported to receive benefits (sick or vacation time) from their job. The CS2 statewide average was 32%.

GRAPH 25. WANTS A JOB IN THE COMMUNITY*

This graph illustrates of those not in community employment, 43% of respondents from CS1 compared to 36% of respondents from CS2 reported they wanted a job in the community. The CS2 statewide average was 39%.

GRAPH 26. HAS INTEGRATED EMPLOYMENT AS A GOAL IN IPP

This graph illustrates 26% of respondents from CS1 compared to 20% of respondents from CS2 have integrated employment as a goal in their IPP. The CS2 statewide average was 27%.

*CS2 results based on those determined not to have job in the background information section.

GRAPH 27. DOES VOLUNTEER WORK

This graph illustrates 18% of respondents from CS1 compared to 11% of respondents from CS2 reported they do volunteer work. The CS2 statewide average was 24%.

Community Inclusion

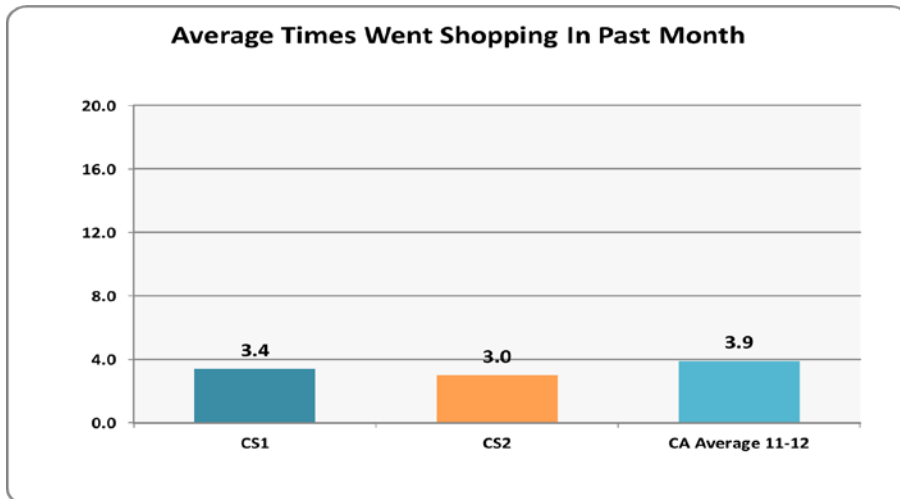

PEOPLE HAVE SUPPORT TO PARTICIPATE IN EVERYDAY COMMUNITY ACTIVITIES.

GRAPH 28. WENT OUT SHOPPING IN THE PAST MONTH

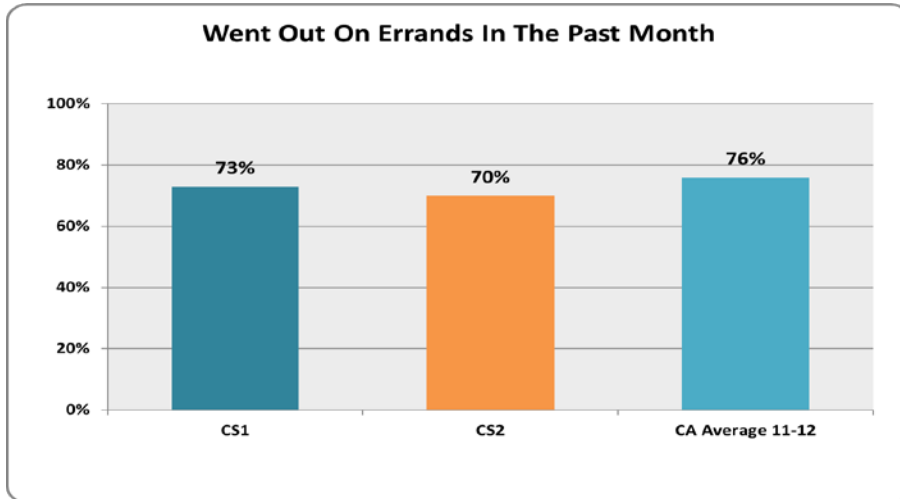

This graph illustrates 86% of respondents from CS1 compared to 83% of respondents from CS2 reported they went out shopping in the past month. The CS2 statewide average was 88%.

GRAPH 29. AVERAGE TIMES WENT SHOPPING IN THE PAST MONTH

This graph illustrates, on average, respondents from CS1 reported shopping 3.4 times in the past month, and respondents from CS2 reported they went shopping 3.0 times in the past month. The CS2 statewide average was reported as 3.9 times during the past month.

GRAPH 30. WENT OUT ON ERRANDS IN THE PAST MONTH

This graph illustrates 73% of respondents from CS1 compared to 70% of respondents from CS2 reported they went out on errands in the past month. The CS2 statewide average was 76%.

GRAPH 31. AVERAGE TIMES WENT OUT ON ERRANDS IN THE PAST MONTH

This graph illustrates on average, respondents from CS1 reported they went on errands 2.7 times in the past month, and respondents from CS2 reported they went 2.0 times in the past month. The CS2 statewide average was reported as 2.2 times during the last month.

GRAPH 32. WENT OUT FOR ENTERTAINMENT IN THE PAST MONTH

This graph illustrates 73% of respondents from CS1 compared to 68% of respondents from CS2 reported they went out for entertainment during the past month. The CS2 statewide average was 70%.

GRAPH 33. AVERAGE TIMES WENT OUT FOR ENTERTAINMENT IN THE PAST MONTH

This graph illustrates on average, respondents from CS1 reported they went out for entertainment 2.5 times in the past month, and respondents from CS2 reported they went an average of 2.2 times during the past month. The CS2 statewide average was reported as 2.3 times during the past month.

GRAPH 34. WENT OUT TO EAT IN THE PAST MONTH

This graph illustrates 81% of respondents from CS1 compared to 80% of respondents from CS2 reported they went out to eat in the past month. The CS2 statewide average was 83%.

GRAPH 35. AVERAGE TIMES WENT OUT TO EAT IN THE PAST MONTH

This graph illustrates on average, respondents from CS1 reported they went out to eat 3.5 times in the past month, and respondents from CS2 reported they went 3.1 times during the past month. The CS2 statewide average was reported as 3.6 times in the past month.

GRAPH 36. WENT OUT FOR EXERCISE IN THE PAST MONTH

This graph illustrates 55% of respondents from CS1 compared to 50% of respondents from CS2 reported they went out for exercise during the past month. The CS2 statewide average was 41%.

GRAPH 37. AVERAGE TIMES WENT OUT FOR EXERCISE IN THE PAST MONTH

This graph illustrates on average, respondents from CS1 reported they went out for exercise 4.8 times in the past month, and respondents from CS2 reported they went 4.7 times during the past month. The CS2 statewide average was reported as 5.2 times during the past month.

GRAPH 38. WENT OUT TO A RELIGIOUS OR SPIRITUAL SERVICE IN THE PAST MONTH

This graph illustrates 53% of respondents from CS1 compared to 42% of respondents from CS2 reported they went out to a religious or spiritual service during the past month. The CS2 statewide average was 38%.

GRAPH 39. AVERAGE TIMES WENT OUT TO A RELIGIOUS OR SPIRITUAL SERVICE IN THE PAST MONTH

This graph illustrates on average, respondents from CS1 reported they went out to a religious or spiritual service 1.9 times in the past month, and respondents from CS2 reported they went 1.5 times during the past month. The CS2 statewide average was reported as 1.4 times during the past month.

GRAPH 40. WENT ON VACATION IN THE PAST YEAR

This graph illustrates 32% of respondents from CS1 compared to 20% of respondents from CS2 reported they went on vacation during the past year. The CS2 statewide average was 40%.

GRAPH 41. AVERAGE TIMES WENT ON VACATION IN THE PAST YEAR

This graph illustrates on average, respondents from CS1 reported they went on vacation 0.5 times in the past year and respondents from CS2 reported they went an average of 0.3 times during the past year. The CS2 statewide average was reported as 0.7 times in the past month.

Relationships

PEOPLE HAVE FRIENDS AND RELATIONSHIPS.

GRAPH 42. HAS FRIENDS

This graph illustrates 75% of respondents from CS1 compared to 62% of respondents from CS2 reported they have friends other than staff and family. The CS2 statewide average was 74%.

GRAPH 43. HAS A BEST FRIEND

This graph illustrates 69% of respondents from CS1 compared to 59% of respondents from CS2 who reported they have a best friend (who may be staff or family). The CS2 statewide average was 75%.

GRAPH 44. ABLE TO SEE FRIENDS

This graph illustrates 87% of respondents from CS1 compared to 82% of respondents from CS2 reported they are able to see their friends when they wanted. The CS2 statewide average was 85%.

GRAPH 45. ABLE TO SEE FAMILY

This graph illustrates 94% of respondents from CS1 compared to 86% of respondents from CS2 reported they are able to see their family when they wanted. The CS2 statewide average was 81%.

GRAPH 46. ABLE TO GO ON A DATE

This graph illustrates 91% of respondents from CS1 compared to 95% of respondents from CS2 who reported they are able to go on a date, or date with some restrictions, if they choose. The CS2 statewide average was 90%.

GRAPH 47. FEELS LONELY*

This graph illustrates 30% of respondents from CS1 compared to 26% of respondents from CS2 who reported they feel lonely at least half of the time. The CS2 statewide average was 34%.

***Lower percentages indicate a positive outcome (fewer people reported feeling lonely).**

GRAPH 48. GETS TO HELP OTHERS

This graph illustrates 60% of respondents from CS1 compared to 87% of respondents from CS2 reported they get to help others. The CS2 statewide average was 87%.

Satisfaction

PEOPLE ARE SATISFIED WITH THE SERVICES AND SUPPORTS THEY RECEIVE.

GRAPH 49. LIKES HOME

This graph illustrates 83% of respondents from CS1 compared to 89% of respondents from CS2 reported they like where they live. The CS2 statewide average was 90%.

GRAPH 50. LIKES NEIGHBORHOOD

This graph illustrates 75% of respondents from CS1 compared to 81% of respondents from CS2 reported they like their neighborhood. The CS2 statewide average was 86%.

GRAPH 51. WANTS TO LIVE SOMEWHERE ELSE

This graph illustrates 27% of respondents from CS1 compared to 17% of respondents from CS2 reported they want to live somewhere else. The CS2 statewide average was 19%.

GRAPH 52. LIKES PAID COMMUNITY JOB*

This graph illustrates 87% of respondents from CS1 compared to 93% of respondents from CS2 reported they like their paid community job. The CS2 statewide average was 93%.

***CS2 results on those determined to have a job in the background information section.**

GRAPH 53. WANTS TO WORK SOMEWHERE ELSE

This graph illustrates 34% of respondents from CS1 who have a paid community job compared to 36% of respondents from CS2 who have a community job reported they want to work somewhere else. The CS2 statewide average was 20%.

GRAPH 54. LIKES DAY ACTIVITY OR PROGRAM

This graph illustrates 91% of respondents from CS1 compared to 95% of respondents from CS2 reported they like their day activity or program. The CS2 statewide average was 92%.

GRAPH 55. WANTS TO DO SOMETHING ELSE DURING THE DAY

This graph illustrates 28% of respondents from CS1 compared to 16% of respondents from CS2 reported they want to do something else during the day. The CS2 statewide average was 23%.

Service Coordination

SERVICE COORDINATORS ARE ACCESSIBLE, RESPONSIVE, AND SUPPORT THE PERSON'S PARTICIPATION IN SERVICE PLANNING.

GRAPH 56. HAS MET SERVICE COORDINATOR

This graph illustrates 97% of respondents from CS1 compared to 95% of respondents from CS2 reported they have met their service coordinator. The CS2 statewide average was 95%.

GRAPH 57. SERVICE COORDINATOR ASKS WHAT PERSON WANTS

This graph illustrates 85% of respondents from CS1 compared to 85% of respondents from CS2 reported their service coordinator asks what they want. The CS2 statewide average was 84%.

GRAPH 58. SERVICE COORDINATOR HELPS GET WHAT PERSON NEEDS

This graph illustrates 75% of respondents from CS1 compared to 71% of respondents from CS2 reported their service coordinator helps get what they need. The CS2 statewide average was 81%.

GRAPH 59. SERVICE COORDINATOR CALLS BACK RIGHT AWAY

This graph illustrates 63% of respondents from CS1 compared to 57% of respondents from CS2 reported their service coordinator calls back right away. The CS2 statewide average was 63%.

GRAPH 60. HELPED MAKE IPP

This graph illustrates 84% of respondents from CS1 compared to 79% of respondents from CS2 reported they helped make their individual program plan (IPP). The CS2 statewide average was 81%.

Health

PEOPLE SECURE NEEDED HEALTH SERVICES.

GRAPH 61. HAS A PRIMARY CARE DOCTOR

This graph illustrates 97% of respondents from CS1 compared to 93% of respondents from CS2 were reported to have a primary care doctor. The CS2 statewide average was 96%.

GRAPH 62. POOR HEALTH*

This graph illustrates 3% of respondents from CS1 compared to 3% of respondents from CS2 were reported as being in poor health. The CS2 statewide average was 4%.

***A lower percentage indicates a positive outcome (fewer people were reported to be in poor health).**

GRAPH 63. HAD AN ANNUAL PHYSICAL EXAM IN THE PAST YEAR

This graph illustrates 84% of respondents from CS1 compared to 81% of respondents from CS2 were reported as having an annual physical exam in the past year. The CS2 statewide average was 85%.

GRAPH 64. HAD A DENTAL EXAM IN THE PAST YEAR

This graph illustrates 75% of respondents from CS1 compared to 67% of respondents from CS2 were reported as having a dental exam in the past year. The CS2 statewide average was 70%.

GRAPH 65. HAD A VISION SCREENING IN THE PAST YEAR

This graph illustrates 66% of respondents from CS1 compared to 49% of respondents from CS2 were reported as having a vision screening in the past year. The CS2 statewide average was 47%.

GRAPH 66. HAD A HEARING TEST IN THE PAST 5 YEARS

This graph illustrates 70% of respondents from CS1 compared to 57% of respondents from CS2 were reported as having a hearing test in the past five years. The CS2 statewide average was 50%.

GRAPH 67. HAD A PAP TEST IN THE PAST 3 YEARS (WOMEN)

This graph illustrates of female respondents, 58% from CS1 compared to 48% from CS2 were reported as having a pap test in the past three years. The CS2 statewide average was 58%.

GRAPH 68. HAD A MAMMOGRAM IN THE PAST 2 YEARS (WOMEN 40 AND OVER)

This graph illustrates of female respondents 40 and over, 69% from CS1 compared to 64% from CS2 were reported as having a mammogram in the past two years. The CS2 statewide average was 73%.

GRAPH 69. HAD A PSA TEST IN THE PAST YEAR (MEN 50 AND OVER)

This graph illustrates of male respondents 50 and over, 48% from CS1 compared to 27% from CS2 were reported as having a PSA Test in the past year. The CS2 statewide average was 34%.

GRAPH 70. HAD A COLORECTAL CANCER SCREENING (PEOPLE 50 AND OVER)
