

Home and Community-Based Services (HCBS) Rules CONCEPT FORM

The Home and Community-Based Services (HCBS) rules ensure that people with disabilities have full access to, and enjoy the benefits of, community living through long-term services and supports in the most integrated settings of their choosing. In order to assist in determining eligibility for compliance funding, providers must complete this evaluation. Both “Yes” and “No” answers require an explanation. A “No” response *could* mean a service setting is out of compliance with the HCBS rules and is potentially eligible for funding to make necessary adjustments. Once this evaluation is completed, it should act as a guide for filling out the provider compliance funding concept, which is required for any provider to be eligible for compliance funding. **Completion of this evaluation is for the sole purpose of applying for compliance funding and does not take the place of future provider assessments that the Department may require to determine provider compliance with the HCBS settings rules. Only providers requesting compliance funding need to complete this evaluation.**

Federal Requirements #1-5 apply to providers of all services, including residential and non-residential settings. Federal Requirements #6-10 are additional requirements that apply only to provider-owned or controlled residential settings.

The column labeled “Guidance” contains a series of questions intended to help identify compliance or non-compliance with each requirement as it relates to the HCBS rules. While responses to these questions can help in the determination of whether or not a particular requirement is met, these responses may not be the sole factor in this determination.

More information on the HCBS rules and this form can be found at www.dds.ca.gov/HCBS.

Questions may be directed to HCBSregs@dds.ca.gov.

ACKNOWLEDGEMENT

By checking the box below, I acknowledge that completion of this evaluation is for the sole purpose of applying for compliance funding and does not take the place of future provider assessments that the Department may require to determine provider compliance with the HCBS settings rules.

Home and Community-Based Services (HCBS) Rules CONCEPT FORM

Existing regional center vendors may receive funding to make changes to service settings and/or programs to help them come into compliance with the HCBS rules. To be considered for funding, vendors must complete and submit this form and the provider compliance evaluation form as one packet to the regional center with which it has primary vendorization.

Instructions:

- The concept form on the next page must be used, may not exceed four pages plus the budget worksheet and any cost back up, and must be kept in Arial 12-point font. Submit the form in Microsoft Word or PDF format. An extra half page is permitted to answer questions about prior funding, but the rest of the concept must be within the standard page requirements.
- There has been a significant change in the form and process compared to prior years. **In order to receive funding, this 2019-20 form must be used.**
- For providers that operate programs with several vendor numbers involved in one concept, one evaluation and concept form should be submitted and should list all vendor numbers for related/included programs. If multiple programs owned by the same parent company have different compliance evaluations or concepts, additional applications can be submitted but should be attached in the same document as the other owned programs so they can be reviewed together.
- The results of the evaluation should be clearly laid out in the section referring to identification of federal requirements that are currently out of compliance, which the concept will address.
- The concept form includes detailed information that describes the funding requests and supports how the requests will assist the provider to come into compliance.
- There should be a clear link between what is being requested and the federal requirement currently out of compliance.
- Concepts should demonstrate how the requested change in service delivery will impact individuals in offering more choices or opportunities in the community.

Strengths of previously funded concepts:

- Identified the need as well as proposed a plan to provide outreach and information regarding the HCBS rules to individuals served and members of their support teams.
- Discussed the need for additional funds in order to effectively support individuals served on a more individualized basis in overcoming barriers to community integration and employment, as appropriate.
- Prioritized the preferences of individuals served and utilized their feedback in the development of the concept.
- Implemented train-the-trainer certification for person-centered planning/thinking and training regarding the HCBS rules.
- Enabled residents to age in place and exercise more choice and independence.

More information on the HCBS rules and this form can be found at www.dds.ca.gov/HCBS.

4- The activities are not based on the needs or preferences of the individuals due to limited resources. Unable to provide a realistic environment for the people we serve.

4. For each HCBS out-of-compliance federal requirement that is being addressed by this concept, describe the barriers to compliance and why this concept is necessary. If this information is in the evaluation section, please copy it here.
