## Performance Report for North Bay Regional Center

Every year the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. Every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at North Bay Regional Center (NBRC) we served about 9,570 consumers. The charts on page two tell you about the consumers we serve. You will also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At NBRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in the following:

- Fewer consumers live in developmental centers
- More children live with families
- More adults live in home settings
- Fewer children live in large facilities (more than 6 people)
- Fewer adults live in large facilities
- Percentage of adults reporting integrated employment as a goal in IPP
- Percentage of eligible consumers receiving case management only by ethnicity (Hispanic and White)

However, we still need to improve in the following:

- Individual Family Service Plans completed in a timely manner (for ages 0-2)
- Per capita purchase of service expenditures by individual's primary language (languages chosen by 30 or more consumers only)

We hope this report helps you learn more about NBRC. If you have any questions or comments, please contact us!

## Who uses NBRC?

These charts tell you about who NBRC consumers are and where they live.

## How well is NBRC performing?

This chart tells you about five areas where DDS wants each regional center to keep improving.

The first column tells you how NBRC was doing at the end of 2018, and the second column shows how NBRC was doing at the end of 2019.

To see how NBRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	December 2018		December 2019	
	State Average	NBRC	State Average	NBRC
Fewer consumers live in developmental centers	0.12%	0.13%	0.08%	0.10%
More children live with families	99.38%	99.38%	99.44%	99.45%
More adults live in home settings	80.20%	78.72%	80.84%	79.73%
Fewer children live in large facilities (more than 6 people)	0.04%	0.08%	0.04%	0.03%
Fewer adults live in large facilities (more than 6 people)	2.31%	1.14%	2.15%	1.03%

Notes: 1) Consumers can be included in more than one diagnosis category. 2) Residence Types: CCF/ICF is Community Care Facility/Intermediate Care Facility; ILS/SLS is Independent Living Services/Supported Living Services. 3) Home settings include independent living, supported living, Adult Family Home Agency homes, and consumers' family homes. 4) Green text indicates the RC remained the same or improved from the previous year, red indicates the RC did not improve.

**Did NBRC meet DDS standards?**

Read below to see how well NBRC did in meeting DDS compliance standards:

Area Measured	Last Period	Current Period
Passes independent audit	Partially Met*	Yes
Passes DDS audit	Yes	Yes
Audits vendors as required	Yes	Yes
Didn't overspend operations budget	Yes	Yes
Participates in the federal waiver	Yes	Yes
CDERs and ESRs are updated as required (CDER is the Client Development Evaluation Report and ESR is the Early Start Report. Both contain information about consumers, including diagnosis.)	97.11%	96.9%
Intake/Assessment timelines for consumers age 3 or older met	95.91%	98.73%
IPP ( <i>Individual Program Plan</i> ) requirements met	99.33%	99.34%
IFSP ( <i>Individualized Family Service Plan</i> ) requirements met	87.3%	87.1%

Notes: 1) The federal waiver refers to the Medicaid Home and Community-Based Services Waiver program that allows California to offer services not otherwise available through the Medi-Cal program to serve people (including individuals with developmental disabilities) in their own homes and communities. 2) The CDER and ESR currency percentages were weighted based on the RC's Status 1 and Status 2 caseloads to arrive at a composite score. 3) The IFSP calculation methodology was changed from composite to average in order to more accurately reflect the RC's performance by only including children reviewed during monitoring and not all Early Start consumers. 4) N/A indicates that the regional center was not reviewed for the measure during the current period.

\* For CPA Audit: NBRC received final FY 2016-17 audit at the end of 2018

## How well is NBRC doing at getting consumers working?

The chart below shows how well NBRC is performing on increasing consumer employment performance compared to their prior performance and statewide average:

Average hours worked for adults engaged in competitive, integrated employment, on behalf of whom incentive payments have been made	22	20	22	20	
Total number of Incentive payments made for the fiscal year for the following amounts:	\$1,500	13	15	27	36
	\$1,250	21	25	39	39
	\$1,000	29	35	43	52

To obtain these statistics, DDS provided the EDD with client data, and the EDD matched that information to their database and returned individual-specific wage data including employment locations, business name and type. DDS then analyzed the data for accuracy and only reported to regional centers the information deemed most accurate.
