

The Seven Rights of Medication Administration

Use these questions to make sure that you are providing proper medication dosages to the individual you serve. They will help keep the individual you serve healthy and safe every day!

1 Right Person

Are you sure that you are giving the right person this medication?

2 Right Medication

Are you certain that this is the right medication for this individual?

3 Right Dose

Are you certain that this is the right amount of that medication for this individual?

4 Right Time

Are you certain that this is the right time to provide this medication to this individual?

5 Right Route

Are you certain that this is the right place or way to administer this medication for this individual?

6 Right Reason

Are you certain that this person has been diagnosed with the condition for which this medication is prescribed?

7 Right Documentation

Once the medication is taken, are you certain you have completed the individual's MAR?

Done!
