

Dr. Burke Harris: The first three years of every child's life are critical.

The California Department of Developmental Services and the Interagency Coordinating Council on Early Intervention have free information for parents and professionals so they can learn more about early intervention and learn how to get the BEST help for our babies and toddlers.

How your baby or toddler plays, learns, talks, acts, and moves give important clues as to how they are developing. If you have any questions or concerns about whether your baby or toddler's development is on track, call 1- 800-515-BABY to get connected with free resources near you.
