

**REPORTED POSITIVE COVID-19 TESTS AND DEATHS OF REGIONAL CENTER CONSUMERS**  
DATA PROVIDED BY REGIONAL CENTERS AS OF 12/23/21

These tables compile data provided to DDS by California's 21 regional centers. As of July 2021, DDS has shifted from collecting data daily to collecting and reporting on data weekly. Updates received from each regional center every week include information for individuals known to them to have tested positive for COVID-19. Data is provisional and may change as regional centers provide updates. Details regarding gender, age group, and self-reported ethnicity are retrieved from separate databases of information for all regional center consumers.

Note: The availability of testing for COVID-19 varies. Changes in the number of reported COVID-positive consumers may include cases resulting from record reconciliation. Modifications have been made to the methodology for calculating age group. Age is calculated to reflect the current age of the consumer as of the date being reported; ages of deceased consumers are calculated as of the date the death was reported to DDS.

<sup>1</sup> "Other" includes multiple ethnicities and individuals with no recorded ethnicity.
