Spring 2022

Performance Report for Far Northern Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Far Northern Regional Center (FNRC) we served about 8,250 consumers. The charts on page two tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At FNRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard.

FNRC met or exceeded goals in the following areas: More children live with families, More adults live in home settings, fewer children live in large facilities (more than 6 people), and Fewer adults live in large facilities (more than 6 people). In addition, FNRC met or exceeded in seven of the eight compliance areas.

Areas that require attention are individuals living in developmental centers and living in larger facilities (more than 6 people). This is due to a slight increase of less than .06 %. The one area that was not met in compliance was ability to meet intake timelines.

In addition, we will continue to promote John O'Brien's and Beth Mount's **Five Valued Experiences**:

1. Each person has the daily experience of belonging in a variety of relationships and memberships.
2. Each person is respected as an interesting person, whose talents and fits are worthy of our attention and their gifts are not wasted but harvested.
3. Each Person shares the ordinary places of life with other ordinary people in ordinary neighborhoods.
4. Each person contributes. We support contribution in its many forms that of earning pay but also free exchange of talents and time. What is important is the giving, it is the belonging, it is the value of connection.
5. People choose what they want in their life. They voice their opinion, and are given the supports so that voice and their choices are heard fully and with total heart.

We hope this report helps you learn more about FNRC. If you have any questions or comments, please contact us!

Who uses FNRC?

These charts tell you about who FNRC consumers are and where they live.

How well is FNRC performing?

This chart tells you five areas where DDS wants each regional center to keep improving.

The first column tells you how FNRC was doing at the end of 2020, and the second column shows how FNRC was doing at the end of 2021.

To see how FNRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

*Count of consumers included in the EDD data is determined by how precisely consumer's names match between the EDD data and the Department's data. New methodology, implemented in 2021 and applied to 2019 and 2020 data, requires consumers names to match more precisely than in previous years in order to be counted in the dataset. **Regional centers receive an 'N/A' designation if fewer than 20 people respond to the survey item.
