

Home and Community-Based Services (HCBS) Rules Reference Information

The Home and Community-Based Services (HCBS) rules supports people with disabilities to have full access to, and enjoy the benefits of, community living through long-term services and supports in the most integrated settings of their choosing. **Completion of this concept form is for the sole purpose of applying for compliance funding and does not take the place of provider assessments or remediation that the Department has required to determine provider compliance with the HCBS settings rules.**

Prior HCBS funding focused primarily on barriers to compliance with the 10 federal requirements of the HCBS Final Rule. HCBS funding for fiscal year 2021-2022 will still take the 10 federal requirements into account and will also place increased emphasis on the outcome of a provider's concept. To simplify the process, the federal requirements were placed in three categories that target similar outcomes. Those categories are Community Integration, Individual Rights, and Choice. A fourth category, Collaboration, may be used for a concept between multiple providers to develop a community resource or collaborate on a project benefiting multiple settings. The bulleted questions listed under each category are for providers to consider when thinking about their current operations and plans for the future. These questions should be used when considering ways to build a concept that will achieve increased person-centered practices ongoing.

Service providers may request a copy of their completed self-assessment, by contacting their regional center HCBS Program Evaluator. A blank copy of the assessment can be found at <https://www.dds.ca.gov/wp-content/uploads/2020/09/CADDSHCBSProviderSelfAssessment.pdf>.

More information on the HCBS rules and this form can be found at <https://www.dds.ca.gov/initiatives/cms-hcbs-regulations/>.

Questions may be directed to HCBSregs@dds.ca.gov.

Community Integration

How will providers support the following through their services?

- Individuals receiving services in the community based on their needs, preferences and abilities.
- Individuals participating in activities in the community, which are routinely accessed by the general public, and are not solely for the purpose of supporting people with disabilities, as part of their plan for services.
- Individuals exercising control over their schedules and activities.
- Opportunities for activities in the community that include meaningful interaction with individuals not receiving regional center services, not including paid staff or volunteers (e.g. development of hobbies or interests, volunteering, job training, etc.).
- Access to competitive integrated employment opportunities. Note: information on California's Competitive Integrated Employment Initiative can be found at <http://www.chhs.ca.gov/home/cie/>

Home and Community-Based Services (HCBS) Rules Reference Information

Individual Rights

How will providers support the following through their services?

- Informing individuals, in a manner they can understand, of their rights to privacy, dignity, respect, and freedom from coercion and restraint.
- Communication with individuals based on their needs and preferences, including alternative methods of communication where needed (e.g., assistive technology, Braille, large font print, sign language, participants' language, etc.).
- Individuals have informed consent and regular review regarding residential agreements, admission agreements, or other forms of written residency agreements.
- Individuals taking active roles in program policies and shared house rules.
- Individuals understanding of the balance between the rights they have and respecting the rights of others, building skills of negotiation.
- Individuals' understanding of the different service options available to them, and working towards individualized goals with support.
- Choice regarding roommates or private accommodations.
- Visitors are welcome to visit the home at any time.
- Individuals going with visitors outside the home; such as for a meal or shopping, or for a longer visit outside the home, such as for holidays or weekends.
- Individuals having the freedom to move about inside and outside the home.
- For those requiring accessible supports, grab bars, seats in bathrooms, ramps for wheelchairs, etc., are available so that individuals can move about the setting as they choose.
- Appliances and furniture are accessible to every individual.

Choice

How will providers support the following through their services?

- Offering daily activities based on individual's needs and preferences.
- Structuring support so that individuals are able to interact with people they choose to interact with, both at home and in community settings.
- Structuring support so that individuals are able to participate in activities that interest them and correspond with their IPP goals.
- Supporting individuals in choosing which staff provide their care to the extent that alternative staff are available.
- Opportunities to modify services and/or voice concerns outside of the scheduled review of services (IPP review).
- Individuals having access to food at any time.
- Supporting individuals to set their own daily schedules.

Home and Community-Based Services (HCBS) Rules Reference Information

Collaboration

- Does your program excel in a particular facet of your service type that can be beneficial to other programs in coming into compliance and strengthening person-centered practices?
- Does your concept involve at least one additional agency who will share in the development and implementation of the concept?
- Are there increased benefits to people you serve by collaborating on this concept with other providers?
- Are you developing a community of practice? (i.e. a group of people who share a common interest and come together to learn from each other and achieve a common goal.)

Some previously funded concepts have successfully collaborated to assist other providers in enhancing their services through projects such as:

- Development of toolkits and resources regarding the Final Rule, or areas within the Final Rule (employment options, housing, person-centered planning, etc.), that can be broadly accessed.
- Training and knowledge-sharing with others in their catchment area.
- Creation of person-centered planning applications/software.

HCBS Final Rule: List of Federal Requirements

Federal Requirement #1: Access to the Community

The setting is integrated in, and supports full access of individuals receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.

Federal Requirement #2: Choice of Setting

The setting is selected by the individual from among setting options, including non-disability-specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.

Federal Requirement #3: Right to be Treated Well

Ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.

Home and Community-Based Services (HCBS) Rules Reference Information

Federal Requirement #4: Independence

Optimizes but does not regiment individual initiative, autonomy, and independence in making life choices, including, but not limited to, daily activities, physical environment, and with whom to interact.

Federal Requirement #5: Choice of Services and Supports

Facilitates individual choice regarding services and supports, and who provides them.

For providers who operate a residential setting:

Federal Requirement #6: Residential Agreement

The unit or dwelling is a specific physical place that can be owned, rented or occupied under a legally enforceable agreement by the individual receiving services, and the individual has, at a minimum, the same responsibilities and protections from eviction that tenants have under the landlord/tenant law of the State, county, city or other designated entity. For settings in which landlord/tenant laws do not apply, the State must ensure that a lease, residency agreement or other form of written agreement will be in place for each participant and that the document provides protections that address eviction processes and appeals comparable to those provided under the jurisdiction's landlord/tenant law.

Federal Requirement #7: Privacy

- 1. Each individual has privacy in his/her sleeping or living unit:*
- 2. Units have entrance doors lockable by the individual, with only appropriate staff having keys to doors as needed.*
- 3. Individuals sharing units have a choice of roommates in that setting.*
- 4. Individuals have the freedom to furnish and decorate their sleeping or living units within the lease or other agreement.*

Federal Requirement #8: Schedule and Access to Food

Individuals have the freedom and support to control their own schedules and activities, and have access to food at any time.

Federal Requirement #9: Right to Visitors

Individuals are able to have visitors of their choosing at any time.

Federal Requirement #10: Accessibility

The setting is physically accessible to the individual.

Home and Community-Based Services (HCBS) Rules Reference Information

Regional center vendors may receive funding to make changes to service settings and/or programs to enhance current services through individualized service delivery. To be considered for funding, vendors must complete and submit this form to the regional center with which it has primary vendorization.

Instructions:

- The concept form on the next page must be used, may not exceed four pages plus the budget worksheet and any cost backup, and must be kept in Arial 12-point font. Submit the form in Microsoft Word or PDF format. An extra half page is permitted to answer questions about prior funding.
- Using a form from previous years will negatively impact a concept score. Please use the current FY 21-22 form.
- For providers that operate programs with several vendor numbers involved in one concept, one blueprint and concept form should be submitted and should list all vendor numbers for related/included programs. If multiple programs owned by the same parent company have different blueprints or concepts, additional applications can be submitted but should be attached in the same document as the other owned programs so they can be reviewed together.
- The concept includes detailed information that describes the funding requests and supports how the requests will assist the provider in **enhancing person-centered service delivery**.
- Concepts should demonstrate how the requested change in service delivery will impact individuals in **offering more choices and opportunities**.

While concept development should be individualized for each provider, some common themes persist among those that have been previously selected for funding.

Strengths of previously funded concepts:

- Identified the need as well as proposed a plan to provide outreach and information regarding the HCBS rules to individuals served and members of their support teams.
- Discussed the need for additional funds to effectively support individuals served on a more individualized basis in overcoming barriers to community integration and employment, as appropriate.
- Prioritized the preferences of individuals served and utilized their feedback in the development of the concept.

Home and Community-Based Services (HCBS) Rules Reference Information

Vendor name	The Adult Skills Center (TASC)
Vendor number(s)	PL1498
Contact Name	Alona Yorkshire
Contact Email Address	ayorkshire@taschq.com
Primary regional center	NLACRC
Service type(s)	Community Integration Training
Service code(s)	055
Number of consumers typically and currently served	100
Typical and current staff-to-consumer ratio	1:1, 1:2; 1:3
<p>1. Please provide a brief description of the service/setting. Include what a typical day consists of during regular program as well as how services are currently being provided. This response must include the baseline/current levels for any aspects of the program for which the concept proposes funding. If you have previously identified your program as compliant with the HCBS Final Rule through the Self-Assessment, what changes have occurred that has changed your level of compliance?</p>	
<p>TASC's community integration training program is 100% community based and serves clients in groups of 1-3 people in various activities such as paid internships, volunteering, going to leisure activities and educational opportunities in our community. Over the last 2 years (in large part due to previous HCBS funding) TASC has made huge strides towards employment by hiring an employment specialist, benefits counselor, and job developers to help reorient the organization towards employment first policies. TASC has also invested in a director becoming an internal PCT trainer (going through the entire Learning Community mentorship program) and several PCT trainings for our supervisory staff with more scheduled this year. The current barrier in the organization remains rolling out PCT training and tools for daily use, and training families, direct staff, and the clients themselves. In order for PCT to have the intended effect, a one-time training is not at all adequate. It needs to be ongoing monitoring of programming, execution of training, plan development, and engagement of all stakeholders on an IPP team.</p>	
<p>Project Narrative Description: While filling out this section, reflect on how services are typically provided and how that might have changed in the past year. Think about what has been learned in the past year and how that might shape services going forward. Funding awarded through this concept can span the course of up to two years which would allow time to shape services to be more person-centered and align with the HCBS federal requirements.</p>	
<p>2. Please provide a brief summary narrative of the concept for which you are requesting funding, including justification for the funding.</p>	

Home and Community-Based Services (HCBS) Rules Reference Information

In order to effectively change the agency towards Person Centered Thinking practices, we cannot rely on an annual training and leave the rest to be carried out without ongoing engagement. TASC is proposing a PCT Coordinator for the agency in order to provide ongoing guidance, supervision, training, engagement and support for effective PCT use and plan development across all ISP decisions. The PCT coordinator will be responsible for new staff PCT training, ongoing training, represent and guide the PCT process on IPP teams, and change the agency-wide processes towards ones that are conducive to PCT outcomes.

3. Identify which category/ categories this concept addresses.

- Community Integration
- Individual Rights
- Choice
- Collaboration

4. Please list the proposed objectives and outcomes of the concept, as well as the methods of achieving and tracking them. How will this concept assist you in reaching goals within the category that you are requesting funds?

The main proposed outcome of this funding is PCT plans for all 100 individuals served in day services by March 2023. Secondly, PCT ongoing training and supervision to agency staff, clients, and families. We will track progress by monitoring completed PCT plans and trainings.

5. Please describe how and/or what was done to ensure that individuals served by the program led the development of this concept? Discuss not only the development of the concept, but also what steps were taken to identify the interests and desires of the individuals and who was involved in that process.

Client choices and needs are at the center of this concept as person centered practices are the polestar for our agency.

In our annual survey to regional center, families, and clients, all stakeholder identified the desire for more PCT activities and outcomes.

6. Please describe how the concept you propose will enable you to provide more person-centered services to the individuals you serve.

TASC has already spent a great deal of resources in establishing an internal PCT train-the-trainer model through the Learning Community. This commitment involved an 18-month mentorship and training with an official Learning Community mentor. This has facilitated PCT trainings for supervisors and staff but is not enough to make daily meaningful change. A dedicated position will be able to devote the time and resources to ensuring PCT planning.

Home and Community-Based Services (HCBS) Rules Reference Information

For providers who have received prior HCBS, Disparity, CPP or CRDP Funding from DDS

12. If your organization has received prior funding from any of the above sources, please provide an update on the prior funding project. You may copy and paste from progress update(s) previously provided to regional centers or DDS.

All Milestones for the previous projects were actualized and submitted on time to RC and DDS.

CPP funding was start up for CPP day service in 2018. Program is successful and serves 37 individuals from DCs.

Previous HCBS funding was used for 4 employment positions, all hired and currently filled. Over the last year, of the 100 individuals that TASC serves in our day services, 24 are currently employed in the community through the Paid Internship Program (24%) for 10-20 hours per week. Ten individuals have transitioned from PIP to DOR Supported Employment at TASC, with 15 current clients in SEP and 7 have reached 90-day retention. Five clients have transitioned from DOR services at 20% supports. We currently have 10 community employers. This was somewhat impacted by Covid-19 but we are still very proud of the progress towards employment milestones!

13. If your organization received prior funding, please explain how the current funding request is not redundant with any prior funding received and/or builds on the prior funding but was not part of the original funding.

The current funding proposal builds on the forementioned successes of the previously funded concept. The previous funding established the foundation on which we stand today and feel confident that with continued support from this proposal for PCT, we can achieve HCBS compliance for our clients prior to March 2023.
