Informative Digest/Policy Statement Overview

The category of Behavior Analyst became effective on June 2, 2001. The category of Associate Behavior Analyst became effective on May 29, 2004, thereby permitting individuals certified by the national certification board as Associate Behavior Analysts to provide services to the developmentally disabled. At the time of the last amendment, Title 17, California Code of Regulations, section 54319 should also have been amended to indicate that behavioral analysis services may also be provided by group practices. This proposed amendment indicates those services may also be provided by group practices.

Section 54319 – Group Practices

This amendment adds the category of Associate Behavior Analyst to the listing of services that applies to both individuals and group practices.

Small Business Determination

DDS has determined that the proposed regulations will not affect small business. Associate Behavior Analysts will be employed by regional centers to provide services to the developmentally disabled, none of which are considered a small business.

Local Mandate Determination

DDS has determined that the proposed regulatory actions do not impose: 1) a mandate on local agencies or school districts; 2) significant costs or savings to any state agency; 3) costs to any local agency or school district that must be reimbursed in accordance with

Government Code section 17500 through 17630; 4) other nondiscretionary costs or savings imposed on local agencies; or 5) costs or savings in federal funding to the state.

Assessment Statement

DDS has determined that the proposed regulations will not affect the creation or elimination of jobs in California; the creation of new businesses or the elimination of existing businesses within California; or the expansion of businesses currently operating in California.

DDS has made an initial determination that the proposed regulations will not have: 1) a significant statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states; or 2) a significant effect on housing costs.

Cost Impacts on Representative Private Persons or Businesses

DDS is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Alternatives Considered

DDS must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of DDS would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

DDS invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period or at the public hearings.
