Department of Developmental Services Legislative Report

Background

Consumers' rights complaints resolutions are monitored by the Department of Developmental Services (Department) and the associated data are displayed on the Department's website dashboard to promote transparency and accountability. Pursuant to Welfare and Institutions (W&I) Code Section 4519.2(c), the Department is required to update the Legislature annually, by January 10, with specified information regarding consumers' rights complaints as well as resolutions as described below. This update includes data for Fiscal Year (FY) 2021-22.

Consumers' Rights Complaints

Consumers' rights complaints, as indicated in W&I Code Section 4731, are a mechanism to be used when an individual three years of age or older, or any representative acting on behalf of a consumer, believes that any right has been wrongly or unfairly denied by a regional center, developmental center or service provider. This process is not to be used for resolving disputes about eligibility, nor for the nature, scope, or amount of services funded. Those issues may be addressed through the hearing process as per W&I Code Section 4701 through 4717.

W&I Code Section 4731(b) requires regional center directors to investigate complaints and send written proposed resolutions to the complainant within 20 working days of receiving a complaint. If the complainant is not satisfied with the proposed resolution, the complainant may refer the complaint, in writing, to the Director of the Department within 15 working days of receipt of the proposed resolution. Pursuant to W&I Code Section 4731(c), the director shall issue a written administrative decision within 45 calendar days of receiving the complaint and send a copy of the decision to the complainant, the director of the regional center and the service provider, if applicable.

Per W&I Code Section 4519.2(c), information reported annually to the Legislature must include the number of consumers' rights complaints filed at each regional center, as well as:

- the subject matter of complaints filed;
- how complaints were resolved;
- the timeframe within which resolutions to those complaints were provided by the regional center;
- the number of complaints that were appealed to the Department, their resolutions, and the timeframes within which written administrative decisions were issued; and
- demographic information, as identified by the Department, about consumers on whose behalf complaints were filed.

Strengthening Transparency and Accountability

The Department is committed to ensuring regional centers' and its own compliance with statutory requirements for complaints including timelines for providing proposed complaint resolutions, and issuing decisions in complaint appeals.

- In March 2021, the Department's contract with regional centers was amended to require that regional centers report information to the Department quarterly regarding complaints pursuant to W&I Code Section 4731. This has enabled a quarterly versus annual review of consumers' rights complaints, enhancing the Department's ability to identify and proactively address trends over time.
- In September 2022, the Department issued guidance to the regional centers clarifying statutory requirements of W&I Code Section 4731(b), which included:
 - complaint responses shall be sent within 20 working days;
 - statute does not allow for extensions of the 20-day timeline;
 - statute does not allow for delegation of the regional center director's responsibility to investigate the complaint and provide a written proposed resolution;
 - all written proposed resolutions shall include referral information if the complainant chooses to appeal the resolution to the Director of the Department;

The Department continues to provide technical assistance to regional centers and communicate with individuals and families served about the consumers' rights complaint. The Department's efforts to partner with regional centers to improve data quality around all aspects of complaints and appeals have provided a better statewide perspective on these important processes.

Interpreting the Data

The number of consumers' rights complaints submitted by individuals, or their authorized representatives, is a very broad measure of a regional center's performance. That number, however, is affected by a variety of factors, including:

- A larger regional center may receive more complaints than a smaller regional center.
- A regional center that rigorously informs individuals and their families of their complaint rights, or whose complaints process is easier to use, may receive more complaints.
- Some regional centers accept consumers' rights complaints that are outside the scope of the complaint process, as defined by statute; other regional centers do not. This report includes out-of-scope consumers' rights complaints reported by regional centers along with complaints that are within-scope.

In FY 2021-22, regional centers received 238 W&I Code Section 4731 complaints.

- 32 complaint resolutions were appealed to the Department (13%).
 - The three most appealed subjects were IPP development/implementation, service coordination and vendor requirements
 - 28 decisions were issued within the statutory timeline of 45 calendar days (88%).

This Legislative Report marks the fourth year in which the Department has reported information regarding consumers' rights complaints and resolutions. The table below provides a year-over-year comparison of the data presented in all four reports. The first report, submitted in January 2020, included consumers' rights complaint data from FY 2017-18 and FY 2018-19, as statutorily required.

Consumers' Rights Complaints Pursuant to W&I Code Section 4731

Sources and Organization of Data

Complaints filed with regional centers

Beginning April 15, 2021, and quarterly thereafter, regional centers report to the Department information regarding complaints pursuant to W&I Code Section 4731 for which the regional center sent a written proposed resolution to a complainant in the previous quarter. The information is submitted using a survey that includes the date the complaint was received by the regional center, the date the proposed resolution was sent to the consumer, the subject matter of each complaint, and how the complaint was resolved. This reporting process began in the third quarter of FY 2021-22, and regional centers subsequently completed and submitted the survey for the first two quarters of FY 2021-22 to ensure all data were gathered for this Legislative Report. After receiving completed surveys, the Department added consumers' demographic information (ethnicity/race, primary language, and age) from its administrative records.

Appeals filed with the Department

Appeals to consumers' rights complaints are filed with the Department. Data regarding appeals include information about the subject matter(s) of each appeal, the resolution of the appeal, and the timeframe within which a resolution (i.e., written administrative decision) for the appeal was issued by the Department.
