DEPARTMENT OF DEVELOPMENTAL SERVICES 2023 MAY REVISION HIGHLIGHTS

The Department of Developmental Services (Department) is responsible for administering the Lanterman Developmental Disabilities Services Act (Lanterman Act). The Lanterman Act provides for the coordination and provision of services and supports to enable people with intellectual and developmental disabilities to lead more independent, productive, and integrated lives. Additionally, the Early Start Program provides services to infants and toddlers at risk of having a developmental disability. The Department carries out its responsibilities through contracts with 21 community-based, non-profit corporations known as regional centers, as well as through state-operated homes and facilities.

The number of individuals served by regional centers (consumers) is expected to be 396,375 in the current year and increase to 420,927 in fiscal year (FY) 2023-24. The May Revision projects 312 individuals will receive state-operated services.

The May Revision Estimate continues to support the needs of consumers and proposes new policies to continue efforts to improve service access and to achieve better outcomes and consumer experiences.

2023 MAY REVISION SUMMARY

The 2023 May Revision includes \$14.1 billion total funds (TF) (\$8.5 billion General Fund [GF]) for FY 2023-24; a net increase of \$1.8 billion TF (\$1.5 billion GF) over the updated FY 2022-23 budget, or a 14.6 percent TF increase.

In addition to caseload and utilization updates, the proposed FY 2023-24 funding supports the following new and updated items:

- Coordinated Family Support Services (\$18.0 million TF, 10.8 million GF): The Budget includes funding to continue supporting the pilot through FY 2023-24.
- Rate Model Assumptions (\$15.0 million TF, \$8.5 million GF): The Budget includes ongoing funding to adjust service provider rates for Independent Living Services reflecting more equivalent occupations and duties performed by those occupations effective January 1, 2024.
- Regional Center Operations Policy Update (\$11.6 million TF, \$8.4 million GF): The Budget includes funding to update service coordinators' and supervisors' salaries to the state equivalent salary level in Enhanced Service Coordination, Performance Incentives, and Early Start Eligibility.
- START Training (\$330,000 TF, \$231,000 GF): The Budget includes funding for service provider network fees supporting the certified START teams.
- Community Placement Plan Reappropriation (\$10.8 million GF): The Budget includes resources reappropriated from FY 2020-21 to support multifamily housing projects.
- Lanterman Act Provisional Eligibility Ages 0 through 4 (-\$13 million GF, \$13 million Federal Financial Participation): This Budget reflects anticipated eligibility for federal financial participation beginning in January 2024 reducing the General

Fund costs of provisional eligibility by expanding eligibility to include children birth through two years of age. The resulting eligibility for this policy is birth through four years of age.

April 1, 2023 Finance Letters include:

- Compliance with Federal Home and Community Services-Based Requirements (\$5.4 million TF, \$3.8 million GF): This Budget includes funding to support 9.0 DDS positions and 50 positions for regional centers to address and sustain new and ongoing efforts to comply with federal requirements.
- Porterville Developmental Center (PDC) Facility Support (\$201,000 TF, 161,000 GF) and 1.0 position: This Budget includes funding to support project and facility maintenance activities at PDC.
- Information Security Office Support: Increase of \$174,000 TF (\$139,000 GF) and 1.0 permanent position to support regional center information security efforts, augmenting the original Budget Change Proposal submitted in the 2023 Governor's Budget.
- Headquarters Position Authority: Increase of 71.0 permanent positions to reflect staff previously funded through recent legislative augmentations or existing resources.

POS – Policy

There is a net decrease of \$43.7 million TF (\$3.1 million GF) in policy-related expenditures as compared to the Governor’s Budget. This is primarily driven by the following:

- Social Recreation and Camping Services: Decrease of \$40.8 million HCBS ARPA funding (including reimbursements) based on updated expenditure data.
- Lanterman Act Provisional Eligibility: Increase of \$1.1 million GF based upon projected caseload growth.
- SB 3, Minimum Wage Increase, Effective January 1, 2023: decrease of \$1.0 million (\$0.6 million GF) due to updated expenditures.

Staffing Expenditures

BACKGROUND:

Staffing includes personal services and operating expenses for Core Staffing, Rent, Community Placement Plan, and mover Continuation Cost.

To address increased needs created by the pandemic and to mitigate an anticipated backlog in new referrals, regional center operations were not adjusted for the lower caseload.

Federal Compliance

BACKGROUND:

There are both fiscal and program requirements placed on the regional centers that enable the State to receive federal funding. This includes ongoing tasks such as reviewing choice statements, handling complex notice of action issues related to the Home and Community-Based Services (HCBS) Waiver, completing annual HCBS Waiver certification/recertification forms, preparing for program audits, determining billable services, reconciling data, maintaining records in accordance with applicable federal requirements for accuracy and completeness, reviewing case records, participating in training on HCBS Waiver policies and procedures, resolving eligibility/compliance issues, etc. In addition, regional centers are required to complete ongoing tasks related to the Targeted Case Management (TCM) and Nursing Home Reform (NHR) programs such as complying with Medicaid State Plan requirements for case management activities and completing appropriate screenings for those admitted to the nursing facilities.

METHODOLOGY:

	<u>FY 2022-23</u>	<u>FY 2023-24</u>
<ul style="list-style-type: none"> <p>• HCBS Waiver:</p> <p>Operations costs for HCBS Waiver activities are based upon 6.5 percent of FY 1995-96 HCBS Waiver reimbursements of \$325,148,000. This amount is fixed and is not adjusted for growth.</p> 	\$21,135	\$21,135
<ul style="list-style-type: none"> <p>• Compliance with HCBS Waiver Requirements:</p> <p>Provides funding for regional center compliance with the HCBS Waiver. Functions include maintaining average service coordinator-to-consumer caseload ratios at not more than 1:62; performing quarterly face-to-face monitoring of consumers residing in out-of-home living arrangements; providing clinical consultations, monitoring and reviewing consumers' health status; and developing and annually reviewing Waiver consumers' individual program plans and Client Developmental Evaluation Reports.</p> 	\$8,700	\$8,700
<ul style="list-style-type: none"> <p>• Case Managers to Meet HCBS Waiver Requirements:</p> <p>In a letter dated April 21, 2006, the Centers for Medicare & Medicaid Services (CMS) indicated that the State must "review and revise, as needed, its policies to assure that the case manager to waiver participant ratio of 1:62 is consistently met." This augmentation by the California Legislature is intended to assist in this requirement.</p> 	\$13,850	\$14,131

Intermediate Care Facility – Developmentally Disabled Quality Assurance Fees Operations

BACKGROUND:

To obtain federal financial participation (FFP) associated with the Intermediate Care Facilities-Developmentally Disabled (ICF-DD), regional centers incur administrative costs for billing on behalf of the ICF-DD.

METHODOLOGY:

Billing costs are 1.5 percent of the purchase of services costs for Day Programs and Transportation. The Department estimates the total purchase of services costs to be \$111.8 million for Day Programs and Transportation, of which 1.5 percent equals \$1.7 million for regional center administration.

REASON FOR CHANGE:

There is no change in fiscal year (FY) 2022-23, from the Governor’s Budget. The change from FY 2022-23 to FY 2023-24 is due to updated actuals.

Community Care Facilities

BACKGROUND:

Community Care Facilities (CCF) are licensed by the Community Care Licensing Division of the Department of Social Services (DSS) to provide 24-hour non-medical residential care to children and adults, including individuals with developmental disabilities. Regional centers contract with vendored CCFs to provide consumers personal services, supervision, and/or assistance essential for self-protection or sustaining the activities of daily living.

METHODOLOGY:

Community Care Facilities expenditures are developed using the February 2023 State Claims Data file, with expenditures through November 30, 2022.

Supplemental Security Income/State Supplementary Program (SSI/SSP) payments are grants received from the federal Social Security Administration (the "SSI" portion), along with a supplemental payment from the state (the "SSP" portion). For individuals who receive SSI/SSP the Department funds only the portion of facility costs that are above the SSI/SSP level of payment (i.e., the "net" costs). Funds for the SSI/SSP grants are in the DSS budget.

The base amounts represent a combination of actual and estimated expenditures from the prior year. Utilization and growth amounts are calculated using historical expenditure trends.

Medical Facilities

BACKGROUND:

Pursuant to Health and Safety Code section 1250, Title 17 section 54342, and others, the regional centers vendor/contract with Intermediate Care Facilities - Developmentally Disabled (ICF-DD, ICF-DD-N, and ICF-DD-H) and Continuous Nursing Care, to provide services for consumers not eligible for Medi-Cal, or for services not covered by Medi-Cal. The types of non-ICFs providing medical residential services for individuals with developmental disabilities are: Specialized Residential Facilities (Health) and Nursing Facilities (NF).

METHODOLOGY:

Medical Facilities expenditures are developed using the February 2023 State Claims Data file, with expenditures through November 30, 2022.

The base amounts represent a combination of actual and estimated expenditures from the prior year. Utilization and growth amounts are calculated using historical expenditure trends.

Day Programs

BACKGROUND:

Day programs are community-based programs for individuals served by a regional center. Types of services available through a day program include:

- Developing and maintaining self-help and self-care skills.
- Developing the ability to interact with others, making one's needs known and responding to instructions.
- Developing self-advocacy and employment skills.
- Developing community integration skills such as accessing community services.
- Behavior management to help improve behaviors.
- Developing social and recreational skills.

Habilitation Work Activity Program

BACKGROUND:

Work Activity Program (WAP) services through the regional centers include paid work, work adjustment and supportive habilitation services typically in a sheltered workshop setting. WAPs provide paid work in accordance with Federal and State Fair Labor Standards. Work adjustment services may include developing good work safety practices, money management skills, and appropriate work habits. Supportive habilitation services may include social skill and community resource training as long as the services are necessary to achieve vocational objectives.

METHODOLOGY:

Work Activity Program expenditures are developed using the February 2023 State Claims Data file, with expenditures through November 30, 2022.

In-Home Respite

BACKGROUND:

In-Home Respite services are defined as intermittent or regularly scheduled temporary non-medical care and/or supervision provided in the person's home. In-Home Respite services are support services which typically include:

- Assisting the family members to enable a person with developmental disabilities to stay at home;
- Providing appropriate care and supervision to protect that person's safety in the absence of a family member(s);
- Relieving family members from the responsibility of providing care;
- Attending to basic self-help needs and other activities that would ordinarily be performed by the family member.

METHODOLOGY:

In-Home Respite expenditures are developed using the February 2023 State Claims Data file, with expenditures through November 30, 2022.

The base amounts represent a combination of actual and estimated expenditures from the prior year. Utilization and growth amounts are calculated using historical expenditure trends.

Intermediate Care Facility – Developmentally Disabled Quality Assurance Fees Purchase of Services

BACKGROUND:

To realize the federal financial participation (FFP) associated with the Intermediate Care Facility Developmentally Disabled (ICF-DD) State Plan Amendment, there are administrative costs for the ICF-DD and Quality Assurance Fees (QAF).

METHODOLOGY:

Billing costs are 1.5 percent of the purchase of services costs for Day Programs and Transportation and regional center administrative fees for ICF-DD. QAF are set by the Department of Health Care Services (DHCS).

The Department estimates the total purchase of services costs to be \$111.8 million for Day Programs and Transportation. ICF-DD administration costs are 1.5 percent of the total or \$1.7 million and the QAF are \$7.4 million. Total administration and QAF are \$9.1 million.

SECTION F: COMMUNITY PLACEMENT PLAN

Community Placement Plan	F-1
--------------------------------	-----

Community Placement Plan

BACKGROUND:

The purpose of Community Placement Plan (CPP) funding is to enhance the capacity of the community service delivery system and to reduce reliance on developmental centers, Institutions for Mental Disease (IMD) that are ineligible for federal financial participation (FFP), skilled nursing facilities (SNF), and out-of-state placements. In addition to CPP, the Community Resource Development Plan (CRDP) allows for development in the community to support the expansion of resources for those already residing in the community.

This estimate reflects Operations and Purchase of Service (POS) resources needed to:

- Facilitate transitions to the community from a developmental center, an IMD, a SNF, or out-of-state.
- Assess needs of the individuals through comprehensive assessments.
- Establish resources in the community for individuals transitioning from another environment.
- Collaborate with the regional centers, regional projects and other team members in transitional activities.
- Stabilize current community living arrangements.

CPP funding provides resources for both Operations and POS as follows:

Operations

- **Positions:** Positions and costs for employees at the regional centers who focus on CPP and CRDP, to pursue resource development, complete assessments, lead the transition of consumers into community settings, provide quality assurance, and provide clinical expertise.
- **Operating Expenses:** Costs for operating expenses and equipment.

Purchase of Services

- **Start-Up:** Start-Up funds support the development of residential and non-residential services in the community for individuals.
- **Assessment:** Assessment funds support comprehensive assessments, which are required by statute, for individuals who are living in developmental centers and IMDs to plan for services when individuals move into the community.
- **Placement:** Placement funds support costs of consumers moving into least restrictive community settings from a more restrictive setting.

Compliance with Federal Home and Community-Based Services Requirements

BACKGROUND:

This policy provides additional positions and regional center resources to address and sustain new and ongoing efforts that align California’s developmental disabilities system with federal requirements necessary for continued federal funding for Home and Community-Based Services programs.

METHODOLOGY:

This policy will fund 50 positions budgeted at one (1.0) RC position for approximately every 1,000 individuals accessing services through the 1915(i) State Plan Amendment to address federal monitoring and reporting requirements associated with the HCBS Final Rule.

REASON FOR CHANGE:

This is a new policy.

Disparities Within the Developmental Services System

BACKGROUND:

The Department requests annual funding of \$2,241,000 through fiscal year 2025-26 to update processes and address the requirements of Chapter 314, Statutes of 2022 (Assembly Bill 1957). The statutory changes require specified public reporting on Individual Program Plans (IPPs) and purchase-of-services (POS) for individuals with developmental disabilities.

METHODOLOGY:

The funding is to support the increased workload during the data collection process at the regional centers.

REASON FOR CHANGE:

There is no change in both years from the Governor’s Budget.

EXPENDITURES:

Early Start – Part C to B Transitions

BACKGROUND:

The Department proposes to transform the early childhood experience of young children and their families who receive early intervention services or are at risk for or have an intellectual/developmental disability. These strategies and initiatives support recommendations in the Senate Bill 75 Part C to B for CA Kids Workgroup Recommendations report on improving transitions from Early Start to Special Education Services (<https://www.partctobforcakids.org/#h.2h9izlqw9iqc>).

This initiative establishes Individuals with Disabilities Education Act (IDEA) Specialists at each regional center to train and support service coordinators guiding families through the transition from Part C (Early Start) to Part B (special education). Enhanced service coordination informed by the IDEA Specialist will increase families’ awareness of their rights as they prepare for their child’s education and support needs. IDEA Specialists will primarily provide administrative guidance and expertise on IDEA through technical support to regional centers and local education agencies providing infant and toddler services.

Further, the Budget delays for two fiscal years, from Fiscal Year 2022-23 to 2024-25, the implementation of an annual \$10 million General Fund grant program to support preschool inclusion efforts such as facility modifications or staff training. The Budget maintains the grant program on an ongoing basis beginning in 2024-25.

METHODOLOGY:

Preschool Support: Estimated cost: \$10 million General Fund (GF).

The annual costs to fund 21 IDEA Specialists is \$3.2 million.

Enhanced Service Coordination

BACKGROUND:

Enhanced Service Coordination prioritizes individuals and families who are from diverse communities, including non-English speaking and/or non-white, deaf or hard of hearing, and other populations preapproved by the Department of Developmental Services, with low or no purchase of service (POS), as they are more likely to need enhanced assistance in accessing services. Fiscal year (FY) 2021-22 established funding for Enhanced Service Coordinators with a 1 to 40 service coordinator-to-consumer ratio. With smaller caseloads, specially trained service coordinators will provide more extensive support and intensive case management. The knowledge obtained through Enhanced Service Coordination will enable individuals and families to continue advocating and accessing needed services once transitioned back to a non-specialized service coordinator-to-consumer ratio.

METHODOLOGY:

The estimate includes funding for 105 Enhanced Service Coordinators (ESC) to support 4,200 individuals. Additionally, to provide supervision for these positions, the estimate includes funding for 10.5 supervisors at a ratio of 1 supervisor for every 10 ESCs.

Enrolling Vendors as Medicaid Providers

BACKGROUND:

Payment Error Rate Measurement (PERM) is a federally contracted audit process that measures improper payments in Medicaid and other federal programs. During the fiscal year (FY) 2016-17 PERM review, the Centers for Medicare and Medicaid Services cited claims processed through the Department as payment errors because neither the Department, regional centers, nor vendors were enrolled as Medicaid providers. To date, the Department and regional centers have successfully enrolled as Medicaid providers. The Department is actively working on a process for vendors that will meet Medicaid enrollment requirements.

The proposed funding, targeted for provider screening activities, such as site visits and background checks/fingerprinting for certain vendor types, addresses a portion of the federal requirements applicable to vendors.

METHODOLOGY:

The cost for regional centers is estimated to be \$550,000 for the first year and \$400,000 annually thereafter.

REASON FOR CHANGE:

There is no change from the Governor’s Budget.

Language Access and Cultural Competency

BACKGROUND:

COVID-19 highlighted the continued need to assist consumers and families of children from underserved communities in navigating systems, improving service access and equity, and meeting basic needs. The Budget includes funding for language access and cultural competency to better support the language needs of individuals with developmental disabilities, their caregivers, and family members. The primary purpose of these funds will improve consumer and family experience and facilitate more consistent access to information and services for multilingual, monolingual, and diverse cultural groups.

Regional Centers submit an annual work plan and budget to DDS that includes survey assessments, listening sessions in diverse communities to identify language and culture needs, developing orientations, and providing culturally competent translations for regional center consumers and their families. These funds may be used for identification of vital documents for translation, regular and periodic language needs assessments to determine threshold languages, coordination and streamlining of interpretation and translation services, and implementation of quality control measures to ensure the availability, accuracy, readability, and cultural appropriateness of translation.

METHODOLOGY:

Funding for language access and cultural competency orientations and translations.

Performance Incentives

BACKGROUND:

The Department is working with stakeholders and regional centers to establish a performance improvement program with fiscal incentives for regional center operations to meet specified benchmarks and improvement measures.

Focus areas for performance indicators and benchmarks associated with out-year funding include the following: Early Start, consumer employment and associated metrics, equity and cultural competency, consumer and family experience and satisfaction, person-centered services planning, service coordination, and regional center operations.

METHODOLOGY:

The estimated costs support the implementation and ongoing costs of the performance improvement program that will lead to desired actions and improved outcomes for consumers and families and promote improved regional center operations. Funding supports fiscal incentives for regional centers to meet performance measures and infrastructure needs to implement the performance improvement plan, including, but not limited to, additional service coordinator staffing and new data collection systems/tools.

REASON FOR CHANGE:

There is no change in FY 2022-23 from the Governor’s Budget. FY 2023-24 service coordinator salaries are updated to align with current state equivalent salaries.

Promoting Workforce Stability

BACKGROUND:

To address current and emerging workforce challenges, the Enacted Budget included \$185.3 million General Fund (GF) in Fiscal Year (FY) 2022-23 to support a multi-pronged workforce development strategy. The strategy is designed to create career pathways for workers who provide direct services and consumer service coordinators (CSCs), and to explore technology-based supports to increase consumer independence. Specifically, this approach includes: 1) Training Stipends for Workers who Provide Direct Services; 2) Internships for Workers who Provide Direct Services; 3) a Tuition Reimbursement Program for regional center employees; and 4) an Initiative to Pilot Remote Supports using Technology Solutions.

METHODOLOGY:

- Training Stipends for Workers who Provide Direct Services: Provides up to two \$500 training stipends (plus \$150 for taxes and administrative fees) for approximately 80% of 120,000 direct services professionals who are projected to complete specified training and development courses. Funding includes \$3 million for a learning management system, course development, and marketing. (\$127.8 million GF)
- Internships for Workers who Provide Direct Services: Provides a \$500 retention stipend after six months of continuous employment and another \$500 stipend after one year of continuous employment for 2,500 participants. Funding also supports \$18 million for minimum wage costs to 2,500 participants to include wages, taxes, and fees and \$2 million for recruitment outreach contracts. (\$22.5 million GF)
- Tuition Reimbursement Program: Provides up to \$10,000 annually for three years to regional center employees pursuing degrees or certifications in health or human services-related fields. (\$30 million GF)
- Initiative to Pilot Remote Supports using Technology Solutions. (\$5 million GF)

Reduced Caseload Ratio for Children Through Age Five

BACKGROUND:

Improved service coordination and support to families will address the challenges families face in navigating multiple public systems that may limit the benefits and outcomes of the Early Start program. Reduced caseload ratios for children from birth through age five will enhance service coordination such as regional center participation in Individual Education Plan meetings, access to generic resources, increased family visits, and strengthened federal compliance with timely service delivery and transitions.

This policy reflects a caseload ratio of 1:40 for service coordinators supporting Early Start services, provisionally eligible children through age four, and Lanterman eligible children through age five.

The Budget Act of 2022 assumed a caseload of approximately 91,000 children and included \$51.1 million (\$31.9 million General Fund) in Fiscal Year (FY) 2022-23. This fiscal assumed nine months of funding to account for staffing ramp-up and implementation in FY 2022-23, with the full annualized cost of \$68.1 million (\$42.6 million General Fund) reflected in FY 2023-24 and ongoing.

METHODOLOGY:

The fiscal is revised for increased caseload projections and a reevaluation of the existing methodology. The revised caseload projection is approximately 106,000 children in FY 2023-24. The service coordinator and supervisor salary assumptions are the following:

<u>Service Coordinator Annual</u>		<u>Costs</u>
Salary		\$66,915
Fringe Benefits – 34%		\$22,751
Operating Expense & Equipment		\$5,193
Annual Cost Per Position		\$95,859
<u>Supervisor Annual Costs</u>		
Salary		\$86,142
Fringe Benefits – 34%		\$29,288
Operating Expense & Equipment		\$5,709
Annual Cost Per Position		\$121,139

Reduced Caseload Ratio for Children Through Age Five

The revised methodology determines the total costs of supporting a 1:40 caseload using the updated caseload projection and revised annual salary assumptions. From this cost, funding provided by existing policies such as the Core Staffing Formula, Performance Incentives, and Lanterman Act Provisional Eligibility are deducted to arrive at the remaining need.

REASON FOR CHANGE:

The change in FY 2022-23 from the Governor’s Budget reflects one-time savings due to estimated hiring in FY 2022-23. The increase in FY 2023-24 expenditures are revised for increased caseload projections and a reevaluation of the existing methodology.

Service Access and Equity Grant Program

BACKGROUND:

In 2016, Chapter 3, Statutes of 2016 (ABX2 1) allocated permanent funding of \$11 million General Fund (GF) to assist regional centers in the implementation of strategies to reduce disparities. The 2022 Budget Act included an additional \$11 million GF in one-time resources to increase award funding available through the current grant program. The Department has funded 398 grant projects focused on improving equity and reducing disparities. Applications for grant funding have increased steadily each grant year. In fiscal year (FY) 2022-23, the Department received \$44.4 million in funding requests, surpassing last year’s requests. With 136 proposals received; the applicant pool remains diverse ranging from small parent-led grassroots organizations to well established academic institutions. This grant program reaffirms the Department’s commitment to addressing the challenges consumers and families face in accessing services and using existing resources to make measurable progress in reducing disparities in Purchase of Services authorizations, utilization, and expenditures.

METHODOLOGY:

Trauma-Informed Services for Foster Youth

BACKGROUND:

Chapter 815, Statutes of 2018 (Assembly Bill 2083) requires that regional centers participate in the development of Memorandum(s) of Understanding (MOUs) in each county served and participate on interagency leadership teams and committees in each county, to ensure services are provided in recognition of trauma that may have occurred in the lives of the individuals in foster care. Funding provides for ongoing implementation of AB 2083 workload which includes multiple MOUs, participation on multiple interagency leadership teams and placement committees, data collection and analysis, resource development, identifying and coordinating available placement and service options, and providing expertise and guidance to regional center staff on service coordination for children and youths in foster care who have experienced severe trauma.

METHODOLOGY:

To support the coordination with state and local entities, the number of senior/supervising coordinators statewide is increased from 15 staff at an annual cost of \$1.6 million for fiscal year (FY) 2022-23 to 30 senior/supervising coordinators at an annual cost of \$3.2 million beginning in FY 2023-24.

Uniform Fiscal System Modernization & Consumer Electronic Records Management System Project Planning

BACKGROUND:

The Department requests one-time fund of \$9.8 million GF for continued project planning efforts supporting the Uniform Fiscal System Modernization (UFSM) and the Consumer Electronic Records Management System (CERMS) Project Planning.

The proposed funding is needed to support continued planning efforts for the PAL process including project management, business analysis, organizational change management and data management services, and necessary tools to ensure the traceability for project requirements. Furthermore, this includes funding to support the RCs with staff participation in the projects during planning, requirements development, testing, and training.

METHODOLOGY:

The requested resources will allow DDS to move through the state's required California Department of Technology (CDT) Project Approval Lifecycle (PAL) process. This will lead us to complete the alternatives analysis on each project and provide us with a market analysis for requesting further funding to complete our detailed requirements analysis, prepare formal requests for vendor solution proposals, assess those proposals, award and contract with a solution vendor, and implement that solution.

REASON FOR CHANGE:

The CERMS project is to replace the disparate consumer electronic records management systems used by the twenty-one non-profit regional centers, with a modern solution that meets the needs of regional centers, the State, service providers, and the people served. The UFSM project is to modernize the legacy Uniform Fiscal System (UFS) accounting application used by the twenty-one non-profit regional centers to bring efficiencies for the administration of each regional center.

Bilingual Differentials for Direct Service Professionals

BACKGROUND:

For consumers receiving services, the effectiveness of those services may be substantially compromised by language barriers. Communication between consumers and the staff who support them is instrumental in establishing trusting relationships and implementing interventions and strategies to further consumers' goals and/or diffuse crisis situations.

The Department estimates approximately 90,000 consumers speak a primary language other than English. A pay differential for bilingual direct service professionals who are bilingual, including those fluent in American Sign Language, increases the availability of staff who can support consumers when English is not their primary language, leading to improved choice, access to services, and greater independence for consumers.

METHODOLOGY:

The estimate assumes costs to establish a verification process for bilingual competency and the cost of a pay differential for bilingual direct service professionals.

REASON FOR CHANGE:

There is no change in both years from the Governor's Budget.

Coordinated Family Support Services

BACKGROUND:

Chapter 49, Statutes of 2022 (SB 188) added Welfare and Institutions Code section 4688.06, establishing the Coordinated Family Support (CFS) Services Pilot Program. The pilot recognizes the right of adults with disabilities to reside in the family home and that adults with developmental disabilities, and their families, may need CFS services that are tailored to the unique needs of the consumer and are respectful of the language, ethnicity, and culture of the family home.

CFS is a new service option specifically designed for adults served by regional centers who choose to live in their family homes. The CFS Services Pilot Program focuses on improving equitable access to services and supports and reducing ethnic and racial disparities in purchase of services.

This pilot has been funded by the Home and Community-Based Services (HCBS) ARPA Spending Plan. The additional resources are requested to continue the pilot through fiscal year (FY) 2023-24.

METHODOLOGY:

The estimate assumes costs for adult consumers who live with their families that will utilize this new type of service. The HCBS ARPA Spending Plan is estimated to cover costs in FY 2022-23 and half-year costs in FY 2023-24. These costs have been accrued in the past year and are not displayed here. See HCBS ARPA Spending Plan in Section H for total multi-year fiscal funded by ARPA for this policy initiative. The requested General Fund resources would support the pilot from January 1, 2024 through June 30, 2024.

REASON FOR CHANGE:

FY 2023-24 reflects continued implementation of the pilot through the end of the fiscal year.

Financial Management Services for Self-Determination Program Participants

BACKGROUND:

The Self-Determination Program (SDP) provides individuals served by regional centers and their families with more flexibility and choice in the services and supports they receive. Participants in the program are provided resources necessary to implement their individual program plans (IPPs) through the development of individual budgets, which are based on participants' total regional center purchase of service expenditures from the most recent 12 months. Payments for services in the traditional system are inclusive of administrative overhead. Management of a participant's SDP individual budget and payment of expenses are conducted by a Financial Management Service (FMS) provider. Current law prohibits increasing the individual budget for the costs of paying the FMS.

Based upon data collected from those who chose not to pursue SDP, after showing interest or taking initial steps to enter the program, some individuals expressed concerns that the amount of funds available in the participant's individual budget would not be adequate to meet their needs. Paying for the FMS from individual budgets exacerbates the concern. The SDP Ombudsperson, upon hearing concerns from self-advocates and families, made recommendations to address this issue.

For some SDP participants, FMS fees can take up a significant portion of an individual budget. Most participants with small individual budgets are from underrepresented/underserved communities. The 2022 Developmental Services budget trailer bill (Chapter 49, Statutes of 2022) repealed the statutory requirement that FMS fees be paid from the SDP individual budget. Regional centers will pay the FMS costs outside of the participants' individual budget, easing access to SDP.

METHODOLOGY:

Each participant is estimated to incur FMS fees averaging \$1,800 per year for a total of \$7.2 million.

REASON FOR CHANGE:

The change in fiscal year (FY) 2022-23 from the Governor's Budget reflects one-time savings. There is no change in FY 2023-24 from the Governor's Budget.

Increased Costs for COVID-19

BACKGROUND:

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California in response to the global COVID-19 pandemic. As a result of COVID-19, the Department experienced increased costs in supporting regional center consumers. These costs include providing additional support for consumers in their homes.

These include short-term impacts, as well as longer-term challenges that will continue into fiscal year (FY) 2023-24. The Department’s budget recognizes the need for additional resources in residential settings, including the family home, as well as the impacts of decreased access to other community services as a result of the COVID-19 pandemic.

All of the estimated expenditures due to COVID-19 are incorporated into the respective Purchase of Services budget categories.

METHODOLOGY:

The impact due to COVID-19 was calculated using the February 2023 State Claims Data file, with expenditures through November 30, 2022. Expenditure trends through November 2022 were compared to trends prior to the COVID-19 pandemic. The results of this comparison and actual data informed the estimated impact of COVID-19 on expenditures.

REASON FOR CHANGE:

The change in FY 2022-23 from the Governor’s Budget reflects a decrease as most service categories begin to return to historical utilization or develop new expenditure trends post COVID-19; however, a degree of variation continues to be seen in Miscellaneous services year-over-year.

EXPENDITURES:

The COVID-19 related costs are included in the Miscellaneous budget category for informational purposes.

Competitive, Integrated Employment Incentives/Paid Internship Program:	\$29,000	\$29,000
---	----------	----------

To encourage competitive integrated employment (CIE) opportunities for individuals with developmental disabilities, Welfare and Institutions Code (WIC) §4870 authorizes 1) paid internship opportunities with internship placement incentives to providers, and 2) incentive payments, paid at specified milestones, for providers who place and support consumers to maintain competitive, integrated employment.

In July 2021, WIC §4870 was amended to include the following provider incentive payments for internship placement:

1. A payment of seven hundred fifty dollars (\$750) shall be made to the service provider who, on or after July 1, 2021, places an individual in a paid internship opportunity, and the individual remains in the paid internship after 30 consecutive days.
2. An additional payment of one thousand dollars (\$1,000) shall be made to the regional center provider for an individual described above who remains in the paid internship for 60 consecutive days.

Additionally, WIC §4870 was amended to state, effective July 1, 2021, until June 30, 2025, the competitive integrated employment incentive payments for each milestone shall be as follows:

1. A payment of two thousand dollars (\$2,000) if the individual is still engaged in competitive employment after 30 consecutive days, as described in WIC Section 4851(o) and Section 4868(d).

3. An additional payment of three thousand dollars (\$3,000), if the individual remains in competitive integrated employment for 12 consecutive months.		
<p>Lastly, WIC §4870 was amended and language was deleted that capped payments for internships at ten thousand four hundred dollars (\$10,400) and added language that states internships may not exceed 1,040 hours per year for each individual.</p>

<p>In January 2014, the Center for Medicare & Medicaid Services (CMS) published final regulations defining what constitutes a home and community-based setting for Medicaid reimbursement purposes under §1915(c) Home and Community-Based (HCBS) Waivers, and §1915(i) HCBS State Plan programs. States were allowed up to a five-year transition period to make any modifications necessary to comply with the regulations. Subsequently, CMS requires compliance by March 17, 2023. To operate in full compliance with the CMS final regulations, HCBS settings must be integrated in and support full access to the greater community for individuals receiving Medicaid HCBS. To assist with compliance, funding is available for providers to make modifications to the way services are provided.</p>

Senate Bill 3, Minimum Wage Increase, Effective January 1, 2023

BACKGROUND:

Senate Bill 3 (Chapter 4, Statutes of 2016) requires the minimum wage to increase from \$14.00 to \$15.00 per hour for employers with 25 employees or less on January 1, 2023. This is the last increase to bring the State minimum wage up to \$15.00 per hour.

Additionally, upon implementation of minimum wage increases to \$15 per hour for all employers, the minimum wage will be adjusted annually and calculated based on the United States Consumer Price Index. Effective January 1, 2023, the minimum wage increased for all employers by an additional \$0.50 per hour, bringing the minimum wage for all employers to \$15.50 per hour.

Social Recreation and Camping Services

BACKGROUND:

Effective July 1, 2009, statute was enacted that suspended regional centers' authority to purchase social recreation services, camping services, educational services for children aged three to 17, and nonmedical therapies. Welfare and Institutions Code 4648.5 was suspended and subsequently repealed, effective June 30, 2021.

However, many entities that provide social recreation activities, including city or county recreation districts and others, have been hesitant to complete the process (referred to as vendorization) to become regional center service providers. This has the result of limiting access to consumers' preferred social recreation activities.

Currently, pursuant to section 58886 of Title 17 of the California Code of Regulations, regional centers may offer participant-directed services (PDS) to procure specific services including respite, day care, personal assistance, transportation, and others. Participant direction provides consumers the option to exercise more authority over how, and by whom, services are provided.

The Department of Developmental Services proposes statutory directive authority, in advance of developing regulations, to implement social recreation as a participant-directed service.

METHODOLOGY:

Funding is based on estimated costs to purchase of services based on caseload growth.

REASON FOR CHANGE:

The change in both years from the Governor's Budget is due to updated expenditure data.

Suspension of Annual Family Program Fee and Family Cost Participation Program

BACKGROUND:

The Annual Family Program Fee (AFPF) and the Family Cost Participation Program (FCPP) have been statutorily suspended through June 30, 2023 in response to the COVID-19 Pandemic.

Parents of children under the age of 18 who live at home and receive qualifying services from a regional center whose adjusted gross family income is at or above 400 percent of the federal poverty level are assessed an annual fee. AFPF revenue received is deposited into the Program Development Fund. Amounts received are then utilized to provide resources needed to initiate new programs which are consistent with the State Plan or offset General Fund costs (Welfare and Institution Code §4677, §4784, and §4785). The FCPP, administered by the regional centers, assesses a cost participation to parents of children who receive three specific regional center services: day care, respite, and/or camping.

The Department of Developmental Services proposes to extend the AFPF and FCPP suspensions through December 31, 2023 to allow time for additional guidance from the Department and for regional centers to restart the programs. The Department will report on stakeholder discussions regarding the programs as part of the May Revision process.

METHODOLOGY:

Work Activity Programs: New Service Model

BACKGROUND:

Existing Work Activity Programs (WAP) largely support sub-minimum wage employment in segregated settings. Funding supports a three-year pilot focused on career readiness for individuals exiting WAP or secondary education to explore inclusive options such as paid internships, competitive integrated employment and college to career programs.

The Department has seen a steady decline in consumer participation in WAP from approximately 3,800 individuals in FY 2020-21 to approximately 2,800 in FY 2021-22. Senate Bill 639 (Chapter 339, Statutes of 2021) also requires an implementation plan to phase out the use of subminimum wages. Given the federal Home and Community-Based Services (HCBS) Final Rule compliance deadline of March 2023, the service model's future is evolving.

The pilot program will be developed in consultation with stakeholders, through the Employment Workgroup, and shall provide person-centered and time-limited services focused on preparing individuals for career pathways. Service providers participating in the pilot program will also report on defined outcome measures determined by the Department.

METHODOLOGY:

Funding for the pilot program is based on an assumed caseload of approximately 1,400 individuals.

Direct Service Professional Workforce Training and Development

BACKGROUND:

Direct service professionals (DSPs) are critical to the provision of services and supports to individuals with intellectual and developmental disabilities (IDD). To stabilize the workforce, the funding is to establish a training and certification program for direct service professionals tied to wage differentials, providing advancement opportunities for the workforce.

The DSP Workforce Training and Development program’s purchase of service component will include expenditures for progressively higher wages for DSPs who complete additional training and certification. The program aims to enhance the services provided and foster a more sustainable and professional workforce. The DSP workforce will consist of three tiers that will have wage differentials with completion of each tier’s training and certification. This will promote improved consumer access to a more skilled workforce, which will foster improved consumer outcomes while having a positive effect on DSP turnover.

The program will provide opportunities for advanced training for DSPs through a standardized training curriculum. Partnering with employers (service providers) as well as individual employees in advancing their professional development will further enhance the skillset of DSPs supporting California’s developmental services system.

METHODOLOGY:

The estimate reflects costs estimated to support implementation of the tiered wages.

Early Start Eligibility

BACKGROUND:

The Enacted Budget amended the criteria to qualify for early intervention services through the Early Start Program from a 33 percent delay to a 25 percent delay in one or more developmental areas, separating communication delays into expressive and receptive categories, and identifying fetal alcohol syndrome as a risk factor for developmental disabilities. Developmental delay in infants and toddlers refers to the significant difference between the expected level of development for a child’s age and his/her current level of functioning, as determined by a multidisciplinary team of qualified personnel, including the parents.

The change in eligibility criteria addresses the changing needs of infants and toddlers, including those who could be at risk of experiencing a substantial developmental delay due to the impact of social isolation and other factors resulting from the pandemic.

METHODOLOGY:

The estimates assume approximately 1,400 children in the current year and approximately 2,800 children in the budget year will be eligible for early intervention services based on the new criteria.

Enhanced Federal Funding

BACKGROUND:

On March 18, 2020, the President signed the Families First Coronavirus Response Act (FFCRA) into law. The FFCRA provides a temporary 6.2 percentage point increase to California’s Federal Medical Assistance Percentage (FMAP) under section 1905(b) of the Social Security Act, effective January 1, 2020. The increase in FMAP applies to costs associated with the Home and Community-Based Services and Self-Determination Program Waivers, 1915(i) State Plan Amendment (SPA), Targeted Case Management, the Intermediate Care Facility-Developmentally Disabled SPA, and Early Periodic Screening Diagnosis and Treatment.

The increase in federal reimbursements is assumed to continue through December 30, 2023, with the percentage point increase being reduced quarterly beginning April 1, 2023.

METHODOLOGY:

The estimated fiscal year (FY) 2022-23 enhanced FMAP is based on an additional 6.2 percent federal financial participation for eligible costs for the first three quarters and 5 percent for the last quarter. FY 2023-24 assumes an additional 2.5 percent enhanced federal financial participation for the first quarter, declining to 1.5 percent for the second quarter. The increased federal funds will result in a corresponding General Fund savings and HCBS ARPA savings.

The change in FY 2022-23, from the Governor’s Budget, reflects a reduction in the enhanced percentage beginning April 1, 2023.

The change from FY 2022-23 to FY 2023-24 is due to an extension of the enhanced FMAP to continue through December 2023.

Lanterman Act Provisional Eligibility Ages 0 Through 4

BACKGROUND:

Assembly Bill 136 (Chapter 76, Statutes of 2021), amended Welfare and Institutions (W&I) Code §4512 to expand eligibility for Lanterman Developmental Disabilities Services Act (Lanterman Act) services by allowing children who are three or four years of age to be provisionally eligible for regional center services under specified conditions.

To be provisionally eligible, a child must be assessed for and determined not to be eligible for Lanterman Act services and demonstrate significant functional limitations in at least two major life activities outlined in W&I Code §4512(a)(2). A child who is determined to be provisionally eligible will receive Lanterman Act services determined appropriate through the Individual Program Planning process.

The Department of Developmental Services has sought federal approval for services provided to provisionally eligible children. As part of this process, the Centers for Medicare and Medicaid Services (CMS) indicated that the state should consider eligibility standards for children from birth through age four. To increase the likelihood of obtaining federal financial participation for provisionally eligible children, the Department proposes to expand provisional eligibility to include children from birth through four years of age.

METHODOLOGY:

The estimate assumes approximately 5,000 children will meet the provisional eligibility criteria in fiscal year (FY) 2022-23 and increase to approximately 9,600 children in FY 2023-24. The Department estimates regional centers will need 81 Service Coordinators and approximately eight supervisors statewide at an annual cost of \$9.6 million in FY 2022-23 and increase to 138 Service Coordinators and approximately 14 supervisors statewide at an annual cost of \$16.3 million in FY 2023-24. FY 2023-24 assumes federal financial participation for children ages birth through four under provisional eligibility beginning in January 2024.

Resources to Support Individuals Who Are Deaf

BACKGROUND:

Individuals who are deaf and hard of hearing represent a highly diverse population with a wide range of communication preferences and cultural and ethnic backgrounds that shape interactions with their environment. Building trusted relationships within the deaf community requires specialized experience. The Department recognizes the need to improve service access for individuals who are deaf and have intellectual and developmental disabilities (Deaf+). The 2021 Budget Act funded a Deaf Services Specialist at the Department and at each regional center to support the expansion of deaf service resources, develop and implement communications assessments, provide training and expertise to regional center staff, and collaborate with other regional centers on statewide efforts.

The 2022 Budget Act provided one-time funding to conduct a communications assessment for consumers who are deaf or hard of hearing. Due to the uniqueness of deaf culture and their communication needs, funding will provide regional centers the ability to contract for communications assessments that will be used in developing Individual Program Plans. The Department will also contract with an individual or entity with the experience and qualifications to advise the Department in the most appropriate assessment tools, qualifications of assessors, and/or the necessary services or service adaptations to meet the needs of individuals who are Deaf+.

METHODOLOGY:

The Department estimates approximately 14,300 consumers are deaf or hard of hearing and are eligible for a communications assessment.

The annual costs to fund 21 Deaf Services Specialists and interpretation supports.

Self-Determination Ongoing Implementation

BACKGROUND:

The Self-Determination Program (SDP) provides individuals served by regional centers and their families with more flexibility and choice in the services and supports they receive. The Center for Medicare and Medicaid Services approved the state’s request to renew federal funding for a five-year period effective July 1, 2021. As of July 2021, SDP is available to all consumers. To support the expansion and implementation of SDP, the estimate includes funding for:

- Enhanced transition support services for individuals and their families to assist with the transition into the SDP.
- Implementation of statewide orientation and training materials.
- Participant choice specialists at regional centers support individuals with timely transition to SDP participation as well as support other regional center staff.

METHODOLOGY:

The estimate includes funding on a three-year limited-term basis in the operations budget for participant choice specialists at regional centers and ongoing funding to contract with entities that will help provide orientation, training, and plain language informational materials.

The estimate also includes ongoing funding for enhanced transition support services for approximately 25 percent of individuals enrolling into SDP.

Service Provider Rate Reform

BACKGROUND:

Rate Study Implementation:

As required by Welfare and Institutions Code (WIC) Section §4519.8, the Department submitted a service provider rate study to the legislature in March 2019. Section 4519.10 was added by Assembly Bill 136 (Chapter 76, Statutes of 2021), specifying the timeline for implementation of rate increases over a multi-year period, and included a quality incentive program to create an enhanced person-centered outcomes-based system. Senate Bill 188 (Chapter 49, Statutes of 2022) accelerated full implementation to July 1, 2024.

Effective April 1, 2022, the Department implemented the initial rate adjustment for applicable service providers that is 25 percent of the difference between a provider's rate in effect March 31, 2022, and the fully funded rate model.

Effective January 1, 2023, the Department will implement the second-rate adjustment for applicable service providers that is an additional 25 percent of the difference between a provider's rate in effect March 31, 2022, and the fully funded rate model.

Effective July 1, 2024, the Department will implement the fully-funded rate models using two payment components, a base rate equaling 90 percent of the rate model, and a quality incentive payment, equaling up to 10 percent of the rate model.

Prior to the fully funded rate model, the Budget plan includes separate funding for a quality incentive program that moves California's developmental services system from a compliance-based system to an outcomes-based system. Additionally, regional center resources are provided to implement and administer the rate models.

The following table illustrates funding in the initial implementation plan:

Fiscal Year	Rates Increase (POS)	Quality Incentives (POS)	Operations	TOTAL
FY 2022-23	\$508,334	\$45,833	\$12,647	\$566,814
FY 2023-24	\$1,016,666	\$91,667	\$12,647	\$1,120,980
FY 2024-25	\$1,016,667	\$137,500	\$12,647	\$1,166,814
FY 2025-26 and ongoing	\$2,033,333	10 percent of the rate model	\$12,647	\$2,045,980

Service Provider Rate Reform

Rate Study Acceleration:

WIC Section 4519.10 was amended to accelerate the implementation plan outlined above. The following table illustrates the incremental increase to accelerate the implementation plan:

Fiscal Year	Rate Increase (POS)	Quality Incentives (POS)	Operations	TOTAL
FY 2022-23	\$254,167	-	\$8,500	\$262,667
FY 2023-24	-	\$45,833	\$8,500	\$54,333
FY 2024-25	\$879,167	10 percent of the rate model	\$8,500	\$887,167

2023-24 Governor’s Budget Augmentation:

The Department requests additional resources to adjust service provider rates for mileage based on updates to the Internal Revenue Service mileage rate. The incremental rate increase is:

Fiscal Year	Rate Increase (POS)
FY 2023-24	\$10,100
FY 2024-25 and ongoing	\$20,100

2023-24 May Revision Augmentation:

The Department requests additional resources to the rate model for Independent Living Services (ILS) to align services provided in ILS with more equivalent occupations and duties performed by those occupations. The incremental rate increase is:

Fiscal Year	Rate Increase (POS)
FY 2023-24	\$15,000
FY 2024-25 and ongoing	\$60,000

Service Provider Rate Reform

METHODOLOGY:

The cumulative purchase of service estimate is based on funds needed to adjust applicable service provider rates by April 2022 to reflect 25 percent of the difference between the rate in effect March 31, 2022, and the rate model, and by 50 percent of the difference by January 2023. With full implementation of the rate model by fiscal year (FY) 2024-25. The purchase of services estimate includes costs for funding to adjust service provider rates for mileage rates, and funding to align services provided in ILS with more equivalent occupations and duties performed by those occupations.

The estimate also includes regional center operations funding to support positions for implementation of rate adjustments and models.

Purchase of Services	\$808,334	\$1,179,266
TOTAL	\$829,481	\$1,200,413

REASON FOR CHANGE:

There is no change in FY 2022-23 from the Governor's Budget. The change from FY 2022-23 to FY 2023-24 is due to a full year cost of the second-rate adjustment effective January 1, 2023, costs for funding to adjust service provider rate for mileage rates and costs to align services provided in ILS.

START Training

BACKGROUND:

The Systemic, Therapeutic, Assessment, Resources and Treatment (START) training model is a comprehensive approach to crisis prevention and intervention for people with developmental disabilities and co-occurring mental health conditions. This model provides wraparound services that support individuals at-risk for acute crisis or loss of residential placement, and individuals who are currently experiencing crisis. The START model has demonstrated positive outcomes in other states with published scientific papers reporting reductions in psychiatric hospitalizations and emergency room visits, improved mental health symptoms, reductions in challenging behavior, and maintaining residential placements in the community. The University of New Hampshire Center for START Services provides training and certification in the START model to community providers who make up the local START teams.

START services will help maintain individuals in their current residential arrangement and prevent admissions into more restrictive settings, such as Community Crisis Homes (CCHs), Institutions for Mental Disease (IMDs), and out-of-state placements. START services provide 24-hour crisis services, and crisis planning and training to families, direct support staff, and local partners (e.g., police, hospital staff, teachers) on person-centered, trauma-informed, and evidence-based support services for individuals with co-occurring developmental disabilities and mental health needs.

In California, 15 regional centers implemented the START model as of fiscal year (FY) 2021-22. First, second, and third year training costs cover all aspects of the START model training provided by the University of New Hampshire Center for START services to the local START team. This includes personnel costs, travel, printed materials, online training platform, data management, and technical support, as well as quarterly evaluations of the local START teams using collected data, and an annual independent, comprehensive evaluation of California's system of care.

American Rescue Plan Act - IDEA Part C

BACKGROUND:

Part C of the Federal Individuals with Disabilities Education Act (IDEA) funds grants to assist states in providing early intervention services (also known as Early Start in California) for infants and toddlers. The federal American Rescue Plan Act (ARPA), signed into law on March 11, 2021, includes one-time supplemental grant funding under Part C of IDEA that was appropriated through the 2021 Budget Act. The Early Start ARPA (ES ARPA) funds may be used for any allowable purpose under Part C of the IDEA, including the direct provision of early intervention services to infants and toddlers with disabilities and their families, and implementing a statewide, comprehensive, coordinated, multidisciplinary, interagency system to provide early intervention services, to mitigate the impacts of the pandemic to the program. California initially received \$23.9 million ES ARPA funds, which are available for expenditure between July 1, 2021, and September 30, 2023, and must be liquidated by January 28, 2024.

On May 2, 2022, the United States Department of Education notified the Department that ES ARPA funds would be increased by \$2.9 million. The enacted budget (FY 2022-23) was augmented by AB 179, Chapter 249, Statutes of 2022 to reflect this increase to align with the revised grant award.

Of the \$2.9 million ES ARPA, \$2.4 million will support initiatives to further mitigate the impacts of the pandemic on Early Start and the balance is allocated to state operations to support implementation of initiatives.

METHODOLOGY:

The Department will utilize additional ES ARPA funds to increase funding to alleviate the impact of the pandemic in the accessibility of Early Start services to families. Specifically:

- **Develop culturally and linguistically sensitive services (\$2.4 million)**
Establish a recruitment program to increase the availability of a provider network that reflects the cultural and linguistic diversity of the community.

REASON FOR CHANGE:

There is no change in both years from Governor's Budget.

General Fund

BACKGROUND:

The General Fund (GF) is the main operating fund of the State. It accounts for transactions related to resources obtained and used for those services that do not need to be accounted for in another fund.

METHODOLOGY:

The Department’s appropriation for GF consists of two components:

Home and Community-Based Services Waiver

BACKGROUND:

The Home and Community-Based Services (HCBS) Waiver program enables the Department to provide a broad array of services to eligible individuals in their communities who would otherwise require a level of care provided in an intermediate care facility for individuals with developmental disabilities.

The expenditures for HCBS Waiver reimbursements are in all the Purchase of Services budget categories, except Medical Facilities.

METHODOLOGY:

Home and Community-Based Services Waiver Administration

BACKGROUND:

The Home and Community-Based Services (HCBS) Waiver enables the Department to provide a broad array of home and community-based services to eligible individuals who, without these services, would require the level of care provided in an intermediate care facility for individuals with developmental disabilities. These HCBS Waiver Administration funds are for the proper and efficient administration of the HCBS Waiver.

METHODOLOGY:

Direct Support Professional Training:

Welfare and Institutions Code §4695.2 mandates all Direct Support Professional's (DSP) working in licensed Community Care Facilities (CCFs) to either pass a competency test or satisfactory complete each of two consecutive, 35-hour training segments within two years of their hire. The testing and training program are conducted through an Interagency Agreement (IA) with the California Department of Education (CDE). Estimate of the Operations costs covers the challenge tests and training through the IA with CDE.

These costs are reflected under Operations, Projects. 		

Staffing for Collection of Federal Financial Participation (FFP) for Contracted Services:

Regional center staff contracts with vendors, liaison with Department experts on changes required to expand and enhance existing billing options and train vendors and regional center personnel involved in the billing processes. These billing processes include entering necessary attendance and other required billing data from paper invoices submitted by vendors, and reviewing, adjusting, and/or correcting attendance data after it is uploaded to the Uniform Fiscal System. These resources allow the State to collect HCBS Waiver Administration reimbursements.

Staffing for Collection of FFP for Contracted Services:

The Centers for Medicare & Medicaid Services (CMS) approved the rate-setting methodology for the Targeted Case Management (TCM) program which distributes administrative costs previously in TCM to other programs.

FY 2003-04 FFP Enhancement, Phase II:

\$9,318 \$9,318

- Total regional center administrative cost for FY 2022-23 and FY 2023-24 is \$9,318.
- 100% of costs are eligible for FFP.

These costs are reflected under Operations, Staffing.

Compliance with Home and Community Based Services (HCBS) Settings Regulations:

In January 2014, CMS published final regulations defining what constitutes a home and community-based setting for Medicaid reimbursement purposes under Section 1915(c) HCBS waivers, and Section 1915(i) HCBS State Plan programs. The effective date of the regulations was March 17, 2014, and states are allowed up to a five-year transition period to make any modifications necessary to comply with the regulations. Subsequently, CMS notified states on May 9, 2017, that compliance is required by March 17, 2023. These expenditures fund additional staffing needed to perform the initial and ongoing efforts and activities necessary to ensure compliance with CMS final regulations.

Compliance with HCBS Settings Regulations:

\$1,422 \$1,422

- Total cost of Compliance with HCBS Settings Regulations is \$1,422 in FY 2022-23 and FY 2023-24.
- 100% of costs are eligible for FFP.
These costs are reflected under Operations, Staffing.

Federal Medicaid Requirements for Regional Center HCBS Services:

\$984 \$984

- Total cost: \$984.
- 100% of costs are eligible for FFP.
These costs are reflected in the Federal Medicaid Requirements for regional center HCBS Services estimate under Operations, Federal Compliance.

Medicaid Administration

BACKGROUND:

Clinical Support Teams and Senate Bill (SB) 1038 Health Reviews (Regional Center Operations)

Clinical Support Teams assist the regional centers to adequately monitor the health care of consumers with severe behavior and/or medical problems, by providing health-related consultation to consumers, their families, providers, and other community health professionals, completing mortality reviews following consumer deaths, and assuring health care access and advocacy for consumers.

In addition, clinical support teams complete yearly reviews of medications, health care plans, and behavior plans for all consumers in community care facilities and in supported and independent living arrangements. Clinical teams also review circumstances leading to all deaths of these consumers.

Pursuant to SB 1038 (Chapter 1043, Statute of 1998), regional center physicians and nurses (with clerical support) provide medical reviews for the remainder of the community consumers who are not receiving medical reviews from the clinical support teams.

These activities are eligible for federal Medicaid Administration (MA) reimbursement.

Compliance with Home and Community-Based Services (HCBS) Waiver Requirements (Regional Center Operations)

Regional center physicians and psychiatrists perform activities, including clinical consultation, monitoring, and review of consumers medications, to maintain regional center compliance with the HCBS Waiver.

Developmental Center Closure-Ongoing Workload

Funding includes salaries, benefits, and operating expenses and equipment for the regional center positions associated with the closure of the developmental centers and the transition of individuals to community living arrangements. Regional centers will continue to provide support and monitoring of individuals who have moved into the community. This includes, but is not limited to, coordination of clinical health and dental services, and quality assurance and management reviews. These positions include quality assurance management, healthcare community specialists, nurse and oral health consultants, service coordinators, clinical support teams and administrative assistants.

Targeted Case Management

BACKGROUND:

The Targeted Case Management (TCM) program provides matching federal Medicaid funds for case management services provided by a regional center for specific client groups. There are approximately 255,137 Medi-Cal eligible persons in the regional center (RC) system as of February 3, 2023. Federal legislation enacted in 1986 defined these case management services as services which "...will assist individuals...in gaining access to needed medical, social, educational, and other services". This program provides federal financial participation (FFP) for most of RC case managers time spent on Medi-Cal eligible activities.

METHODOLOGY:

Title XX Block Grant

BACKGROUND:

The State has received federal Title XX Block Grant funds for social services programs since 1981, and the funds are administered by the Department of Social Services (DSS). Although each state has wide discretion in determining the range of services to be provided and how the funds are to be distributed, federal statute establishes five service goals as follows:

- Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;
- Achieving or maintaining self-sufficiency, including the reduction or prevention of dependency;
- Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating, or reuniting families;
- Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care; and
- Securing referral or admission for institutional care when other forms of care are not appropriate.

Temporary Assistance for Needy Families (TANF): Title XX Block Grants funds are available for regional center expenditures for individuals under age 18 whose family income is less than 200 percent of the income poverty line (as defined by the federal Office of Management and Budget) applicable to a family of the size involved.

METHODOLOGY:

The Department's portion of the Title XX Block Grant is determined by DSS. There are no state matching requirements for these funds.

Intermediate Care Facility – Developmentally Disabled State Plan Amendment

BACKGROUND:

In 2007, the Department, in conjunction with the Department of Health Care Services, submitted a State Plan Amendment (SPA) seeking federal financial participation (FFP) for the Day Programs and Transportation Services. The services provided are for consumers residing in Intermediate Care Facility - Developmentally Disabled (ICF-DD) settings. The Centers for Medicare & Medicaid Services approved the SPA on April 14, 2011, retroactive to July 1, 2007.

METHODOLOGY:

The total expenditures for adult day treatment and non-medical transportation services received by regional center consumers residing in an ICF-DD are based on actual expenditures from calendar year 2022.

Intermediate Care Facility – Developmentally Disabled Quality Assurance Fees

BACKGROUND:

To realize the federal financial participation (FFP) associated with the Intermediate Care Facilities - Developmentally Disabled (ICF-DD) State Plan Amendment, there are administrative costs for regional centers (RC).

METHODOLOGY:

- The fiscal is developed using the State Claims Purchase of Services (POS) Claims data file, dated February 2023, based on calendar year 2022 actuals.
- ICF-DD Administrative Costs and Quality Assurance Fees (QAF) are set by the Department of Health Care Services (DHCS).
- RC administration costs are 1.5 percent of the costs of Day Programs and Transportation expenditures.
- ICF-DD administration costs are 1.5 percent of the costs of Day Programs and Transportation expenditures for both the RC and ICF-DD.
- POS costs for Day Programs and Transportation total \$111.8 million. QAF is \$10.7 million.
- FY 2022-23 and FY 2023-24: Total billing costs are \$1.7 million for regional center administration, \$1.7 million for ICF-DD administration, and \$7.4 million QAF.

1915(i) State Plan Amendment

BACKGROUND:

Section 6086 of the Deficit Reduction Act of 2005, (Public Law 109-171) established an optional Medicaid benefit giving states a new method for covering Home and Community-Based services for Medicaid beneficiaries beginning in January 2007. To date only a few other states have exercised this option for mental health benefits delivery. The Department in a joint effort with the Department of Health Care Services (DHCS), submitted a 1915(i) State Plan Amendment (SPA) to the Centers for Medicare & Medicaid Services (CMS) to be effective October 2009 to cover habilitation, respite, and other services allowable under a 1915(i) SPA. Subsequent changes to federal law have allowed the Department to seek further expansion of the services covered under the 1915(i) SPA.

Early Periodic Screening Diagnosis and Treatment

BACKGROUND:

Early Periodic Screening, Diagnosis, and Treatment (EPSDT) is a Medicaid (Medi-Cal) benefit for individuals under the age of 21 who have full-scope Medi-Cal eligibility. In addition to the regular Medi-Cal benefits, a beneficiary may receive EPSDT Supplemental Services. The Department submitted a State Plan Amendment (SPA 11-040) to the Centers for Medicare & Medicaid Services that will cover some regional center funded services for children under age three that are not eligible for federal reimbursement under other Medicaid funded programs. The SPA 11-040 was approved in October 2015 and is retroactive to October 2011.

METHODOLOGY:

The estimated budget is based on expenditures from fiscal year (FY) 2021-22. EPSDT funding is only in the Day Programs budget category.

Department of Health Care Services Behavioral Health Treatment Fee-for-Service

BACKGROUND:

Senate Bill 870 (Chapter 40, Statutes of 2014) added Welfare and Institutions Code §14132.56 to direct the Department of Health Care Services (DHCS) to implement Behavioral Health Treatment (BHT) services, to the extent it is required by the federal government, to be covered by Medi-Cal for individuals up to the age of 21.

DHCS obtained approval from the Centers for Medicare & Medicaid Services (CMS) to include BHT services as a Medi-Cal benefit in January 2016. Individuals who were receiving BHT services through the regional centers became eligible to receive these services under the Medi-Cal benefit.

The estimate reflects costs of BHT services for consumers enrolled in Fee-for-Service Medi-Cal. These children receive services through the regional centers, and DHCS reimburses the Department for the related expenditures.

METHODOLOGY:

Full year costs for these consumers were estimated based on actual fiscal year (FY) 2021-22 data.

Self-Determination Program Waiver

BACKGROUND:

On December 31, 2014, the Department submitted a Home and Community-Based Services (HCBS) Waiver application to Centers for Medicare and Medicaid Services (CMS) seeking federal funding for the Self-Determination Program (SDP). Under the authority of Senate Bill (SB) 468 (Chapter 683, Statutes of 2013) and upon CMS approval, the Department is implementing the SDP, allowing regional center consumers and their families more freedom, control and responsibility. The SDP waiver was approved by the CMS on June 7, 2018. Participants can only purchase services and supports that are approved by the federal government and listed in the SDP waiver.

METHODOLOGY:

Fiscal Year (FY) 2021-22 actual Self-Determination Program expenditures and client counts are used in forecasting SDP. Funding was distributed to each budget category based on the percent of HCBS waiver expenditures by budget category. See the HCBS Waiver methodology page in Fund Sources for actual percentages.

Program Development Fund/Parental Fees

BACKGROUND:

Parents of children under the age of 18 who receive 24-hour out-of-home services provided by the State, and purchased with state funds through a regional center, are required to pay a fee depending on their ability to do so (the Parental Fee Program). Similarly, parents of children under the age of 18 who live at home and receive qualifying services from a regional center whose adjusted gross family income is at or above 400 percent of the federal poverty level are required to pay an annual fee (the Annual Family Program Fee). The Department deposits fees received into the Program Development Fund. Amounts received are then utilized to provide resources needed to initiate new programs which are consistent with the State Plan or offset General Fund costs (Welfare and Institution Code §4677, §4784, and §4785).

METHODOLOGY:

The 2022 Budget Act statutorily suspended the Annual Family Program Fee through June 30, 2023.

The Department of Developmental Services proposes to extend the Annual Family Program Fee suspension through December 31, 2023 to allow time for additional guidance from the Department and for regional centers to restart the program.

The Parental Fee Program resumed collection activities at the conclusion of the Governor's COVID-19 State of Emergency starting on March 1, 2023. FY 2023-24 expenditures reflect reinstatement of assessments and collections of Parental Fees.

Developmental Disabilities Services Account

BACKGROUND:

The Developmental Disabilities Services Account is used as a depository for application fees collected by the Department for reviewing and approving housing proposals pursuant to Senate Bill (SB) 1175 (Chapter 617, Statutes of 2008).

These costs are reflected in the review of SB 1175 Housing Proposals, under Operations, Projects.

Mental Health Services Fund

BACKGROUND:

Proposition 63, also known as the Mental Health Services Act (MHSA), imposes an additional tax on taxable income over \$1.0 million to provide funds to expand services and develop innovative programs. Consistent with the requirements of the MHSA, the Department funds regional centers to implement projects with community partners that focus on prevention, early intervention, and treatment for children and adults who are dually diagnosed (i.e. have a developmental disability and a mental illness).

METHODOLOGY:

Expenditures are set amounts and consistent with prior years.

HCBS ARPA Spending Plan

BACKGROUND:

On March 11, 2021, President Biden signed the American Rescue Plan Act of 2021 (ARPA) (Pub. L. 117-2). Section 9817 of the ARPA provides qualifying states with a temporary 10 percentage point increase to the federal medical assistance percentage (FMAP) for certain Medicaid expenditures for Home and Community-Based Services (HCBS) programs from April 1, 2021, through March 31, 2022. In accordance with the Centers for Medicare & Medicaid Services (CMS) guidance related to ARPA Section 9817 issued on May 13, 2021, through the State Medicaid Director Letter numbered 21-003 (SMD #21-003), on July 12, 2021, California submitted its preliminary HCBS spending plan to CMS. This spending plan targets investment in a number of initiatives across a range of state HCBS programs to build a modern, inclusive HCBS system that provides robust health and human services to California's most vulnerable residents in their communities and in ways that ensure California's HCBS workforce has the training and support necessary to provide the highest level of service to those in their care. This spending plan reflects stakeholder feedback, incorporating a number of suggestions from advocates, providers, consumers, caregivers, community-based organizations, managed care plans, and foundations, provided from March through June 2021. The state's spending plan also reflects priorities from the state Legislature. Further, the initiatives included in this plan will be sustained through many ongoing investments, reflecting the collective vision of the state and its stakeholders.

METHODOLOGY:

The HCBS ARPA Spending plan will be funding five Local Assistance programs over a three-year timeframe in the amount of \$1.9 billion.

- Language Access and Cultural Competency, \$41.6 million (\$24.1 million HCBS ARPA, \$17.6 million Reimbursement).
- Coordinated Family Support Services, \$27.0 million (\$15.5 million HCBS ARPA, \$11.5 million Reimbursement).
- Social Recreation and Camping Services, \$60.6 million (\$38.3 million HCBS ARPA, \$22.2 million Reimbursement).
- Service Provider Rate Reform, \$1.7 billion (\$978.3 million HCBS ARPA, \$725.2 million Reimbursement).
- Enhanced Community Integration for Children and Adolescents, \$12.5 million (\$12.5 million HCBS ARPA).

Early Start Part C Grant Federal Funds/Early Start Family Resource Center

BACKGROUND:

Part C of the federal Individuals with Disabilities Education Act (IDEA) provides federal grant funding for states to develop and operate early intervention programs for families and their children from birth up to age 3 with developmental delays, disabilities, or conditions which place them at a high risk of disabilities. The program, known as Early Start in California, is administered according to Title 34 of the Code of Federal Regulations, §303.1 through §303.654. The program is also administered according to the California Early Intervention Services Act (CEISA) and Title 17 of the California Code of Regulations, §52000 through §52175.

California has designated the Department to act as its lead agency for preparing the annual grant application and for receiving and administering federal grant funds. The Department allocates a significant portion of the federal funding to regional centers (RC) for local program operation. In addition, the Department has an interagency agreement with the California Department of Education (CDE) to provide funding for local education agency programs and services in accordance with the CEISA, contained in Title 14 of the Government Code (GC), §95000 through 95029. Further, in accordance with the CEISA, the Department is the lead agency for the administration of the Early Start program, which provides services for infants and toddlers with developmental delays, disabilities, or conditions that place them at risk of disabilities. As noted in GC 95001, family-to-family support, provided through California's network of Family Resource Centers (FRCs), strengthens families' ability to fully participate in service planning and their capacity to care for their infants and toddlers.

METHODOLOGY:

Annual grant amounts are determined by the federal Offices of Special Education Programs (OSEP). The Department received a grant award letter dated July 1, 2022, for federal funding period July 1, 2022, through September 30, 2023.

The Part C IDEA Grant funds are used to pay costs for the additional federal requirements imposed by the Part C program. Funds are distributed in this order (1) other agencies and (2) RC Purchase of Services (POS). Services and costs for this age group are identified below. Costs for POS expenditures are already included in the forecasts for each of the POS budget categories, in the POS section of the Estimate.

Foster Grandparent Program

BACKGROUND:

The Foster Grandparent Program (FGP) is a federal grant which provides men and women aged 55 and older, the opportunity to serve their community as tutors and mentors to children and youth under the age of 22 who have developmental disabilities and exceptional needs and being served by a regional center. Foster grandparents volunteer in community schools, Head Start centers, and pre-schools.

SECTION I: FUTURE FISCAL ISSUES

Future Fiscal Issues	I-1
----------------------------	-----

FUTURE FISCAL ISSUES

Rate Reform and Quality Incentive Implementation

The Budget Act of 2021 provided multi-year funding for a phased-in implementation of rate models that support a person-centered, outcomes-based system including a quality incentive component. The Budget Act of 2022 accelerated the phased-in implementation of the rate models to July 1, 2024. As the Department works through these reviews, some changes to rate model assumptions or methodologies may be identified with a future fiscal impact.

Additionally, the fully-funded rate models are comprised of two payment components, a base rate equaling 90 percent of the rate model and a quality incentive payment equaling up to 10 percent of the rate model. The initial quality incentive payments supported measures for select services identified through the stakeholder process and are funded separately from the rate model adjustments. The Department will continue discussions with stakeholders to identify measures available to all providers as the quality incentive payments are folded into the rate models.

Regional Center Oversight

The Department is implementing initiatives to improve service equity for all individuals who are eligible for or receive regional center services; however, variation in access to and quality of services among ethnic groups, other populations and localities across the State remains. The Department continues to prioritize learning how to improve individual and family experiences for diverse populations with cultural and linguistic competency.

The Department is committed to enhanced oversight of regional centers by standardizing certain policies, practices, and procedures; providing statewide training to regional centers; and increasing audit capacity. The Department will evaluate this effort as well as feedback from stakeholders and oversight agencies for continued improvements.

Complex Needs Growth

The developmental services system continues to experience significant demographic changes. Over the last 10 years, the number of individuals served by regional centers with a diagnosis of autism spectrum disorder (ASD) has grown by 157 percent. While ASD represents 46 percent of the overall caseload, those with ASD make up the majority (67 percent) of individuals ages 0-21.

Individuals with ASD have had a disproportionate need for Safety Net services. For example, although ASD represents 46 percent of the DDS population, individuals with ASD represent approximately 60 percent of referrals made to the Stabilization Training Assistance Reintegration (STAR) homes and the Systemic, Therapeutic, Assessment, Resources and Treatment (START) preventative crisis programs statewide. Additionally, there is an increased number of individuals who previously transitioned out of STAR returning for further stabilization.

This Budget makes investments in the Safety Net aimed at strengthening the continuum of service and supports; however, as noted in the 2023 Safety Net Plan, the DS Task Force and Safety Net Workgroup will continue to discuss trends, needs, and potential strategies for individuals receiving regional center services.

Centers for Medicare & Medicaid Services (CMS) Final Regulations for Home and Community-Based Services (HCBS)

The Department administers two 1915(c) Waivers (the HCBS Waiver for Persons with Developmental Disabilities and the HCBS Waiver for the Self-Determination Program) and a 1915(i) State Plan program. These programs enable the State to receive federal funding for services provided to approximately 230,000 consumers.

In early 2014, CMS published final regulations affecting 1915(c) Waiver programs, 1915(i) State Plan programs, and 1915(k) Community First Choice State Plans for HCBS provided through Medicaid. The purpose of the regulations is to provide services to individuals in HCBS settings that are integrated and support full access to the community. States were required to comply with the majority of these regulations by March 17, 2023. In recognition of the COVID-19 Pandemic's adverse impact on the workforce, CMS encouraged states to request additional time to meet certain requirements. California has requested an extension, until June 30, 2024, to coincide with the multiple workforce initiatives currently in progress as well as implementation of service provider rate reform.

The Department's Spring Finance Letter proposes additional Department and regional center resources to support ongoing monitoring and other activities to facilitate compliance with these regulations. The Department will continue evaluating implementation strategies based on monitoring findings and/or guidance from CMS.

Conservatorship

The Department, in partnership with the National Association of State Directors of Developmental Disabilities Services, formed a panel of national experts to conduct a comprehensive review of the Department's conservatorship program for approximately 400 individuals.

The panel made recommendations to improve DDS's conservatorship process, identify alternatives to conservatorship to include supported decision making, and strengthen the Department's oversight when it is the conservator. The panel also provided a review and recommendations regarding conservatorships for individuals with intellectual and developmental disabilities when the DDS Director is not the conservator (approximately 57,000 individuals).

The proposed Budget includes resources for the Department to support changes to the various procedures in the conservatorship process pursuant to Chapter 894, Statutes of 2022. The Department will develop guidelines to mitigate conflicts that may arise when a regional center is acting as a designee of the Director of DDS and providing service coordination activities for a conservatee and will also monitor for improvements.

Fee Program Plan

Pursuant to Chapter 49, Statutes of 2022 (SB 188) the Family Cost Participation Program (FCPP) and the Annual Family Fee Program (AFPF) were statutorily suspended for Fiscal Year 2022-23 in response to the COVID-19 Pandemic. Additionally, statute required the Department to submit to the Legislature a plan to revise the FCPP and the AFPF considering changes that include, but are not limited to, those that promote administrative efficiency and program compliance and are developed with input from stakeholders.

The Department aims to streamline the process for collecting fees, so they are more administratively efficient.

Canyon Springs Community Facility

BACKGROUND:

Canyon Springs Community Facility (CSCF) opened in December 2000 and is designed to provide residential services, treatment, and training for up to 56 adults who have developmental and intellectual disabilities. There are three Immediate Care Facilities (ICF) units on campus that provide services to assist these individuals to lead more independent, productive, and dignified lives. The facility staff focus on the development of the individuals' ability to manage their lives through various treatment/training opportunities such as behavioral supports and replacement behavior teaching, coping skills, life skills, supportive counselling, vocational skills, adult education, recreational skills, interpersonal relationship development, community integration and encouragement of healthy life choices. CSCF operation expenditures are funded through General Funds, Reimbursements and Lottery Funds.

METHODOLOGY:

There are two types of staffing needed to operate the facility: Unit and Program Support Staff. Unit Staffing includes Clinical and Medical staff that are qualified health care professionals that provide direct patient care services. These staff include, but are not limited to, Physicians and Surgeons, Psychologists, Pharmacists and Nursing. There are 155 Clinical and Medical staff at the facility.

Program Support Staffing may provide direct and/or indirect support services to the individuals. There are many areas that have support staff and these areas include Administration, Personnel, Maintenance, and Food Service. There are 81 Program Support staff at the facility.

Fairview Developmental Center

BACKGROUND:

Fairview Developmental Center (FDC) officially opened on January 5, 1959, under the name of Fairview State Hospital, located in Costa Mesa, Orange County, California. FDC is now in warm-shutdown until a site assessment is completed to inform the disposition of the property. The site assessment has been delayed because of campus activities supporting the state’s COVID-19 response.

METHODOLOGY:

The warm shut-down expenditures include personal services and operating expenses and equipment (OE&E) for 52 staff.

Porterville Developmental Center

BACKGROUND:

Porterville Developmental Center (PDC) provides person-centered support and secure treatment programs to individuals with intellectual and developmental disabilities, embracing change and opportunities while continuing partnerships with stakeholders. Currently, through its Secure Treatment Program (STP), the facility provides 24-hour residential services and medical treatment for individuals 18 years or older with developmental disabilities who are incompetent to stand trial or have been civilly committed by a court order. The STP is 100 percent General Fund as these services are not eligible to receive federal assistance.

METHODOLOGY:

There are four types of staffing needed to effectively operate PDC:

- Unit Staffing: consists of 830.8 staff, included but not limited to, Physicians and Surgeons, Psychologists, Pharmacists, Nursing, and various support staff.
- Program Support: consists of 517.3 staff who provide direct and/or indirect support services to the individuals. Areas that support staff work, include but are not limited to, Administration, Personnel, Office of Protective Service, Maintenance and Food Services, etc.
- Intensive Behavioral Treatment Residence (IBTR): consists of 75.6 staff who serve individuals that require a highly structured treatment setting. Services are provided for individuals whose functional level of intellectual disability ranges from moderate to borderline.
- Forensic Team: consists of 4.0 Senior Psychologists who work with individuals that are in the mild to moderate range of intellectual disability, have come in contact with the legal system, and have been determined to be incompetent to stand trial. The Forensic Team assesses individuals' ability for trials. These resources were appropriated in the Budget Act of 2020 as part of a coordinated response to the *Stiavetti v. Ahlin* (2016) lawsuit, and to lower the number of individuals with Incompetent to Stand Trial referrals on the waiting list for admission to PDC's STP.
- *Stiavetti v. Ahlin*: In FY 2023-24, PDC will extend staffing for 10 Intermediate Care Facility beds to support Incompetent to Stand Trial referrals for an additional year, a reduction from 20 temporary beds currently authorized through fiscal year 2022-23.

Stabilization Training Assistance Reintegration (STAR)

BACKGROUND:

The state-operated Stabilization Training Assistance Reintegration (STAR) homes are committed to affording each consumer a safe and nurturing environment where opportunities for growth, realization, self-expression, and goal achievement is celebrated. The homes strive to empower individuals to be self-reliant as their skills, strengths, perseverance, and abilities allow so they can transition from crisis stabilization services to long-term community living. STAR services are provided based on an individualized Needs and Services Plan (NSP), which is developed through a team approach using a person-centered planning process that supports the consumer’s positive control and self-determination of their own lives. Depending on the supports identified in the NSP, services may include health care, education, work training, employment, self-help training, leisure activities, behavior management, and socialization skills development.

METHODOLOGY:

The staffing needed to operate STAR homes includes Psychologists, Behavior Specialists, and Nursing. There are 199.8 staff at the STAR homes in FY 2022-23. In FY 2023-24 the staff will increase to 226.8.

Crisis Assessment Stabilization Teams (CAST)

BACKGROUND:

State-operated mobile crisis services provided by the Crisis Assessment Stabilization Team (CAST) are designed to provide partnerships, assessments, training, and support to individuals continuing to experience crises after regional centers have exhausted all other available crisis services in their catchment areas. CAST also serves individuals who are at risk of having to move from their family homes or other residences and admitted to more restrictive settings.

METHODOLOGY:

The staffing needed to operate CAST includes Psychologists, Behavior Specialists, and Nursing. In FY 2022-23, there are 21.8 CAST staff in the program. In FY 2023-24, after revising classifications, there are 19.0 CAST staff in the program. CAST staffing may provide direct and/or indirect support services to the individuals who are not able to use other resources.

Ongoing Costs

BACKGROUND:

Regional Resource Development Project (RRDP)

The Regional Resource Development Project (RRDP) was initially piloted in 1987 and authorized by the [Lanterman Developmental Disabilities Services Act](#) in September 2002. The RRDPs are mainly designed to assist individuals in the transition process from the state operated facilities to community living. This includes:

- Assist consumers and their interdisciplinary planning teams with planning and transition from State Operated Facilities (SOF) to community living alternatives and provide post placement follow up.
- Assess consumers experiencing difficulty in their community environment and identify possible supports to preserve their community living arrangements.
- Arrange for and conduct an assessment of individuals in need of acute crisis services following an initial review and notification by the regional centers.
- Assist in the transition to, or preservation of, community living arrangements by providing focused training on specific needs to consumers, families, service providers and regional center staff.
- Communicate with the regional centers regarding the development of the annual Community Placement Plan.
- There is a total of 16 RRDP staff between the Northern and Southern regions. The North RRDP staff provides continued support to the individuals who transitioned from the Sonoma's Developmental Center into community living, and the individuals that will transition from North Stabilization, Training, Assistance and Reintegration (STAR) homes. The South RRDP provides continued support to the individuals who transitioned from Fairview's Developmental Center, and individuals who will transition from the South STAR homes, Desert STAR and Canyon Springs Community Facility.

Workers' Compensation

The Department continues to pay for Workers' Compensation claims from open and closed facilities. The closed facilities are: (1) Agnews, (2) Sierra Vista, (3) Stockton, (4) Camarillo, (5) Lanterman, (6) Sonoma, and (7) Fairview. The State Compensation Insurance Fund (SCIF) manages claims, bills the Department monthly for both Temporary and Permanent disability benefits, supplemental job displacement benefits, actual medical costs, any Compromise and Release settlement payments, and the SCIF service fee.

Post Closure

Lump sum funding provided in previous budgets was unused by SOF employees who joined the Community State Staff Program (CSSP) instead of separating or transferring.

Ongoing Costs

METHODOLOGY:

RRDP expenditures are developed using the California Department of Human Resources (CalHR) state classifications' salary, staff benefits, and average operating expenses.

Workers' Compensation expenditures are based on the analysis of several complete fiscal years to determine baseline expenditures related to Workers' Compensation costs throughout the SOF program.

Post Closure expenditures are based on an analysis of the lump sum for accrued leave balances for employees over the age of 50, combined with the average number of separations over several fiscal years.

Control Section Adjustments

BACKGROUND:

Departmental appropriations are adjusted annually to reflect the State’s costs through the executive order process. Control Section 3.60 adjusts the Department’s appropriation to reflect the State’s share of retirement costs.

Employee Compensation adjustments approved through the collective bargaining process, and for employees excluded from collective bargaining as approved by the California Department of Human Resources, are referred to as Item 9800 adjustments. Item 9800 contains general salary increases, shift differentials, retention incentives, and various changes to the employers’ share of staff benefits.

METHODOLOGY:

- Control Section 3.60 Retirement Adjustments
Based on an analysis of positions, employee retirement categories, and retirement contribution amounts, the Department is reflecting expenditures of \$4.5 million (\$4.1 million GF) for retirement adjustments.
- Item 9800 Employee Compensation Adjustments for the Department reflects an increase of \$6.8 million (\$6.2 million GF) in FY 2022-23 and \$6.2 million (\$5.5 million GF) in FY 2023-24.

Inter-Agency Agreement (IAA) with DGS

BACKGROUND:

In April 2019, the Department of General Services (DGS) proposed a three-year inter-agency agreement (IAA) to reimburse the Department for the costs associated with operations, maintenance, and partial decommissioning at Sonoma Developmental Center beginning July 1, 2019. The staff needed are those who manage the water treatment plant, operations and maintenance. The contract started in FY 2019-20 and was to end in FY 2021-22. Due to the unforeseen pandemic, the group responsible for stakeholder engagement and development of proposed site usage had multiple delays. The ability to meet and collaborate ideas for the property use was hindered but currently is back on track.

METHODOLOGY:

In FY 2022-23, the total expenditures for the facility are \$6.4 million comprised of the following: \$4.4 million in personal services and \$2.0 million for OE&E.

In FY 2023-24, the Department will not extend the IAA with DGS.

Retention Stipend Reappropriation

BACKGROUND:

The 2016 Enacted Budget provided a retention stipend to developmental center employees at Sonoma, Fairview, and Porterville General Treatment Area during the developmental center closures to provide continuity of habilitation and treatment services and ensure the health and safety of the clients. This funding was provided to the Department with five-year appropriation authority to allow payment upon separation from the closed developmental center facility. Sonoma and Fairview Developmental Centers have closed but are still in warm shutdown, creating a delay in final separation for the remaining staff.

The 2022 Budget Act reappropriated \$500,000 General Fund for these purposes due to delays in final disposition of Fairview and Sonoma Developmental Center (DC) properties. These funds are available through the duration of warm shutdown of both sites.

METHODOLOGY:

The fiscal is determined based on the number of remaining staff, less staff attrition for retirement or transfer, as warm shutdown activities continue at both Sonoma and Fairview. The amount for carryover assumes a certain number of staff will not retire or transfer until the end of facility disposition.

REASON FOR CHANGE:

There is no change from Governor’s Budget in both years.

Foster Youth with Complex Needs

BACKGROUND:

Historically, when youth with complex behavioral, medical, and mental health needs in the foster care system could not be served by in-state placement, counties could place youth in out-of-state facilities. The Department of Social Services conducted a reassessment of these facilities and found violations of California licensure standards resulting in the decertification of facilities.

Youth have since returned to California from out-of-state placements, including 10 determined to be eligible for Lanterman Act services. The ongoing resources support foster youth remaining in state who may have under past practice been considered for out-of-state placement.

METHODOLOGY:

The expenditures were developed based on five youths receiving supports in Stabilization, Training, Assistance and Reintegration (STAR) residences. The Department anticipates the same expenditures for FY 2023-24.

REASON FOR CHANGE:

There is no change in both fiscal years.

Deferred Maintenance

BACKGROUND:

Deferred Maintenance funds are allocated to correct infrastructure deficiencies. State Operated Facilities require routine maintenance and repairs to ensure that facilities remain in acceptable condition to preserve the life of the facilities. When repairs are delayed due to various reasons, these repairs are considered Deferred Maintenance Projects. Departments are appropriated Deferred Maintenance funds to address their infrastructure needs. The funds are one-time, but usually available for expenditure or encumbrance for up to three years.

METHODOLOGY:

To qualify for the Deferred Maintenance funds, the Department is required to develop and submit a list of projects approved by the Department of Finance. The total expenditures for the projects must not exceed the total amount allocated for that fiscal year.

In FY 2021-22, the Department received a one-time \$5.0 million GF appropriation for Deferred Maintenance projects at the Porterville and Fairview Developmental Centers.

Of the one-time \$10 million GF in Deferred Maintenance appropriated in FY 2018-19, the Department has reappropriated \$750,000 GF to complete the construction phase of replacing the air handlers at the Porterville Developmental Center.

TOTAL EXPENDITURES	\$750	\$0

REASON FOR CHANGE:

This is no change from Governor’s Budget in both years.

Enhanced Federal Funding

BACKGROUND:

On March 18, 2020, the President signed the Families First Coronavirus Response Act (FFCRA) into law. The FFCRA provides a temporary 6.2 percentage point increase to California’s Federal Medical Assistance Percentage (FMAP) under section 1905(b) of the Social Security Act, effective January 1, 2020. The increase in FMAP applies to the Canyon Springs Community Facility, Stabilization Training Assistance Reintegration (STAR) homes, and Crisis Assessment Stabilization Teams (CAST).

The increase in federal reimbursements is assumed to continue through December 31, 2023.

METHODOLOGY:

The estimated enhanced FMAP is based on the additional 6.2 percent federal funds participation for eligible costs in the first three quarters fiscal year (FY) 2022-23 and 5.0 percent for the final quarter of FY 2022-23. FY 2023-24 reflects 2.5 percent for the first quarter and 1.5 percent for the second quarter. The increased federal funds result in corresponding General Fund savings.

REASON FOR CHANGE:

The change in FY 2022-23 from the Governor’s Budget is due to an anticipated six-month extension of enhanced FMAP and a reduction from 6.2 percent to 5.0 percent.

The change from FY 2022-23 to FY 2023-24 reflects the drawdown to 2.5 percent in the first quarter, 1.5 percent in the second quarter, and the sunset of enhanced FMAP as of January 1, 2024.

Complex Needs Residential Program

BACKGROUND:

The Department of Developmental Services requests start-up resources of \$10.5 million General Fund in 2023-24 to develop three 5-person residential homes for individuals with highly complex needs to prevent individuals from being served at locked psychiatric facilities, institutions for mental disease, medical facilities, or facilities out-of-state. DDS estimates annual service costs at \$16.9 million General Fund in 2024-25 and \$22.3 million (\$11.2 million General Fund) ongoing beginning in 2025-26.

Development of these homes would reduce reliance on 10 crisis beds activated at the Canyon Springs Community Facility through DDS's Stabilization Training Assistance Reintegration (STAR) program.

METHODOLOGY:

The costs for FY 2023-24 are based upon estimates to develop 3.0 homes and initial hiring of staff.

REASON FOR CHANGE:

There is no change from the Governor's Budget in both years.

General Fund

BACKGROUND:

The General Fund (GF) is used for two purposes: (1) as a match to Title XIX Reimbursement and (2) to pay for non-Medi-Cal eligible resources/services for residents in a state-operated facility (SOF).

METHODOLOGY:

The Department's appropriation for GF consists of two components: (1) GF Match and (2) GF Other. The detail of these two components are as follows:

	<u>FY 2022-23</u>	<u>FY 2023-24</u>
<ul style="list-style-type: none"> General Fund Match This funding is the matching GF to the Medi-Cal Reimbursements received from the Department of Health Care Services (DHCS). These Reimbursements are originally funded by the federal government and passed through DHCS (the federally recognized single state agency for Medicaid). 	\$25,106	\$33,351
Non-Proposition 98	\$25,106	\$33,351
<ul style="list-style-type: none"> General Fund Other This funding is to pay for services provided to SOF residents who are not eligible for federal or other reimbursement funding. 	\$263,955	\$272,600
Lease Revenue Debt Service Bond	\$8,264	\$8,281
Proposition 98	\$305	\$305
HIPAA	\$180	\$180
Other General Funds	\$255,206	\$263,834
TOTAL GENERAL FUND:	\$289,061	\$305,951

REASON FOR CHANGE:

The change in both years is due to the adjustment of the enhanced FMAP. See the Enhanced Federal Funding page for more details.

Reimbursements

BACKGROUND:

Title XIX Medi-Cal Reimbursements are funds received for services provided to eligible residents in the developmental centers and the state-operated community facility. These funds require a General Fund match at the FMAP rate.

METHODOLOGY:

The Department’s appropriation for reimbursements consists of three components: (1) Title XIX/Medi-Cal, (2) federal reimbursements, and (3) other reimbursements. The detail of these three components are as follows:

	<u>FY 2022-23</u>	<u>FY 2023-24</u>
<ul style="list-style-type: none"> • Title XIX/Medi-Cal 	\$19,237	\$17,535

Non-Proposition 98	\$19,237	\$17,535
<ul style="list-style-type: none"> • Federal Reimbursements 	\$11,804	\$17,178
The Department received approval for federal reimbursements for the STAR homes and services provided by CAST to individuals in a crisis.		
HCBS Waiver	\$9,443	\$13,743
1915(i) State Plan Amendment	\$2,361	\$3,435
<ul style="list-style-type: none"> • Other Reimbursements 	\$6,449	\$0
TOTAL Reimbursements:	\$37,490	\$34,713

REASON FOR CHANGE:

The change in both years is due to the adjustment of the enhanced FMAP. See the Enhanced Federal Funding page for more details.

Lottery

BACKGROUND:

Lottery Education Fund uses state General Fund revenues guaranteed for the support of school districts, community colleges districts, and state agencies that provide direct elementary and secondary level instructional services.

METHODOLOGY:

The Department's appropriation from the Lottery Education Fund is as follows:

	<u>FY 2022-23</u>	<u>FY 2023-24</u>
• Lottery Education Fund	\$114	\$114
The Lottery Education Fund is used for specified educational costs, such as training programs to establish curriculum as well as to support special needs and equipment costs in a state-operated facility. Funds received are based on average daily attendance.		
TOTAL Lottery:	\$114	\$114

REASON FOR CHANGE:

The change for both years is due to the adjustment in Lottery Education Fund based on the estimate of average daily attendance.
