

INITIAL STATEMENT OF REASONS

Description of the Public Problem, Administrative Requirement or Other Condition or Circumstance the Regulations are Intended to Address

The Department of Developmental Services (DDS) proposes to revise regulations pertinent to the definition of substantial disability that is used to determine eligibility of individuals with developmental disabilities for regional center services. The proposed changes conform to amendments to the Welfare and Institutions (W&I) Code section 4512, amended by Assembly Bill (AB) 1762, Chapter 230, Statutes of 2003.

The amendments to W&I Code 4512 provide equitable, uniform and definitive criteria for determining whether an individual's developmental disability meets the substantial disability requirement for eligibility, and conform to the definition of substantial developmental disability utilized by the federal government. The amended regulations are proposed to fulfill, in part, the DDS responsibility to implement the new mandatory standard.

In addition to changes required by statute, other technical, nonsubstantive revisions are proposed, in response to the amended standards, to clarify how eligibility will be determined.
