Spring 2023

Performance Report for Harbor Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Harbor Regional Center (HRC) we served about 16,880 consumers. The charts on page two tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At HRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in supporting children who reside in the family home, providing the needed services and supports for adults to live in a home setting, as well as ensuring that fewer clients reside in a developmental center. HRC is working on increasing living options for adults in order to reduce the number of individuals living in larger residential settings. HRC will continue our efforts to develop more supported employment programs to better support interested adult individuals to secure integrated, competitive employment and volunteering opportunities. We are looking forward to building upon our work in reducing barriers to service access and equity.

We hope this report helps you learn more about HRC. If you have any questions or comments, please contact us!
