

ATTACHMENT D. Purchase of Service Data by RC

Purchase of Service (POS) Data by Regional Center

RCs are required to gather data related to purchase of service (POS) authorization, utilization, and expenditures. POS data is analyzed by demographic characteristics such as language, race/ethnicity, living arrangements, diagnoses, and age. RCs then conduct a series of public meetings to discuss their findings, including strategies to address existing disparities. The Department maintains links to the RCs' most recent POS reports [here](#). RCs are also required to publish their POS data on their website, and can be accessed through the following links:
