Summer 2024

Performance Report for Central Valley Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve individuals and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Central Valley Regional Center (CVRC) we served about 28,280 individuals. The charts on page two tell you about the individuals we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At CVRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we:

- have consistently met all audit requirements
- have more children living with families
- have more adults living in home settings
- fewer adults living in large facilities

But, we still need to improve in:

- continue to ensure CIE (Competitive Integrated Employment) are met
- continue to ensure IPP requirements are up to date as required
- continue to ensure IFSP (Individualized Family Service Plan) are met

We hope this report helps you learn more about CVRC. If you have any questions or comments, please contact us!
