Summer 2024

Performance Report for Inland Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve individuals and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, Inland Regional Center (IRC) served about 48,960 individuals. The charts on page two tell you about the individuals we serve. You'll also see how well we are meeting our goals and fulfilling our contract with DDS.

At IRC, we want to improve yearly, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we successfully met or exceeded several key goals this year. Notably, we improved the percentage of adults living in home settings, enhanced compliance with the CDER and ESR updates. We increased the number of individuals placed in competitive integrated employment following participation in our Paid Internship Program. Additionally, we maintained compliance with independent and DDS audits, ensuring fiscal responsibility and operational efficiency.

However, there are still areas for improvement. We must improve intake and assessment timelines for individuals aged 3 or older. Additionally, we need to increase awareness and participation in our employment programs, particularly in achieving higher placement rates and better participant wage outcomes.

We hope this report helps you learn more about IRC. If you have any questions or comments, please contact us!

Who uses IRC?

These charts tell you about who IRC individuals are and where they live.

How well is IRC performing?

This chart tells you five areas where DDS wants each regional center to keep improving.

The first column tells you how IRC was doing last reporting period, and the second column shows how IRC was doing at the end of fiscal year 2024.

To see how IRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	Last Reporting Period (December 2022)		Current Reporting Period (June 2024)	
	State Average	IRC	State Average	IRC
Fewer individuals live in developmental centers	0.06%	0.04%	0.05%	0.02%
More children live with families	99.61%	99.50%	99.69%	99.64%
More adults live in home settings	83.01%	83.25%	83.86%	84.25%
Fewer children live in large facilities (more than 6 people)	0.03%	0.12%	0.02%	0.08%
Fewer adults live in large facilities (more than 6 people)	1.67%	0.88%	1.46%	0.73%

Notes: 1) Individuals can be included in more than one diagnosis category. 2) Residence Types: CCF/ICF is Community Care Facility/Intermediate Care Facility; ILS/SLS is Independent Living Services/Supported Living Services. 3) Home settings include independent living, supported living, Adult Family Home Agency homes, and individuals' family homes. 4) Green text indicates the RC remained the same or improved from the previous year, red indicates the RC did not improve.

Did IRC meet DDS standards?

Read below to see how well IRC did in meeting DDS compliance standards:

Areas Measured	Last Reporting Period	Current Reporting Period
Passes independent audit	Yes	Yes
Passes DDS audit	Yes	Yes
Audits vendors as required	Yes	Yes
Didn't overspend operations budget	Yes	Yes
Participates in the federal waiver	Yes	Yes
CDERs and ESRs are updated as required (CDER is the Client Development Evaluation Report and ESR is the Early Start Report. Both contain information about individuals, including diagnosis.)	94.85%	99.31%
Intake/Assessment timelines for individuals age 3 or older met	61.27%	56.55%
IPP (<i>Individual Program Plan</i>) requirements met	98.11%	99.88%
IFSP (<i>Individualized Family Service Plan</i>) requirements met	83.9%	91.0%

Notes: 1)) The federal waiver refers to the Medicaid Home and Community-Based Services Waiver program that allows California to offer services not otherwise available through the Medi-Cal program to serve people (including individuals with developmental disabilities) in their own homes and communities. 3) The CDER and ESR currency percentages were weighted based on the RC's Status 1 and Status 2 June 2024 caseloads to arrive at a composite score. 4) N/A indicates that the regional center was not reviewed for the measure during the current period.

1. IRC acknowledges that we are outside the standard intakes and assessment timelines. Over the past month, new leadership has been appointed for the program and implemented a new eligibility/re-eligibility process, which began on September 1, 2024. We will be evaluating progress in the coming months and exploring how to integrate the pending DDS standardized intake process. We aim to reduce IRC's response times for intakes and assessments significantly. Additionally, we will assess the need for more staff and explore ways to leverage technology to streamline processes.

How well is IRC doing at getting individuals working?
