Performance Report for Regional Center of Orange County

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve individuals and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Regional Center of Orange County (RCOC) we served about 26,340 individuals. The charts on page two tell you about the individuals we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At RCOC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in many areas, including supporting children living at home with their families; working to support individuals access many different community living options; working to reduce the number of children and adults who live in larger congregate settings within the community; and with developing options for those individuals who are moving from the last remaining developmental center.

RCOC continues to work with and develop partnerships with our community to provide the necessary services and supports to those individuals served.

We hope this report helps you learn more about RCOC. If you have any questions or comments, please contact us!

Who uses RCOC?

These charts tell you about who RCOC individuals are and where they live.

How well is RCOC performing?

This chart tells you five areas where DDS wants each regional center to keep improving.

The first column tells you how RCOC was doing last reporting period, and the second column shows how RCOC was doing at the end of fiscal year 2024.

To see how RCOC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	Last Reporting Period (December 2022)		Current Reporting Period (June 2024)
