Performance Report for Valley Mountain Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve individuals and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Valley Mountain Regional Center (VMRC) we served about 20,470 individuals. The charts on page two tell you about the individuals we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At VMRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well by:

- Reduced the number of individuals residing in developmental centers to 0.03% which is lower than the state average.
- Completed onsite HCBS assessments of 321 residential, day program and group employment vendors. VMRC achieved 100% compliance with the HCBS Final Settings Rule requirements.
- VMRC increased service access and eligibility for African American and Hispanic individuals.
- Increasing purchase of service for social and recreation for 2,313 individuals;

VMRC still needs to improve in:

- Completing timely independent audits;
- Increasing access to services for more diverse communities; and
- Supporting individuals with achieving their employment goals.

We hope this report helps you learn more about VMRC. If you have any questions or comments, please contact us. This report is a summary. To see the complete report, go to: <https://www.vmrc.net/performance-contract-2/> or contact me at (209) 472-6510.
