Summer 2025

Performance Report for Central Valley Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve individuals and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about Central Valley Regional Center (CVRC).

Last year, CVRC served about 31,480 individuals. The charts on page two tell you about the individuals CVRC serves. You will also see how well CVRC is doing in meeting goals and in fulfilling our contract with DDS.

At CVRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we:

- have more children live with families
- have more adults living in home settings
- have fewer children living in large facilities (more than 6 people)
- have fewer adults live in large facilities (more than 6 people)

But, we still need to improve in:

- Improve intake/assessment timelines
- Strive to improve CDERS and ESRs are updated as required (CDER is the client Development Evaluation Report and ESR is the Early Start Report.)
- Continue to meet audit vendors as required

We hope this report helps you learn more about CVRC. If you have any questions or comments, please contact us!

Who uses CVRC?

These charts tell you about who CVRC individuals are and where they live.

How well is CVRC performing?

This chart tells you five areas where DDS wants each regional center to keep improving.

The first column tells you how CVRC was doing last reporting period, and the second column shows how CVRC was doing at the end of fiscal year 2024-25.

To see how CVRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	June 2024		June 2025	
	State Average	CVRC	State Average	CVRC
