Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve individuals and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about Eastern Los Angeles Regional Center (ELARC).

Last year, ELARC served about 15,820 individuals. The charts on page two tell you about the individuals ELARC serves. You will also see how well ELARC is doing in meeting goals and in fulfilling our contract with DDS.

At ELARC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we are above the state's average when it comes to more children living with families, more adults living in home settings, fewer children living in large facilities, and fewer adults living in large facilities. We also met DDS standards in areas of passing independent audits. Our IFSP requirements improved from last reporting period. Our number of consumers with earned income has increased from the last reporting period. An area of focus for us will be on the number of adults who were placed in competitive, integrated employment following participation in a Paid Internship Program.

Our pledge is to institute operational measures that will make our partnership of greater value to you, our community of families, individuals we serve, and service providers. The Performance Contract involves those outcome areas that reflect our commitment to public policies regarding services to individuals with developmental disabilities. We encourage you to be involved in the Performance Contract process with us by participating in our annual public meeting or sending us your ideas and comments via mail, email, or telephone. Specific information regarding when these public meetings take place will be made available at our website at www.elarc.org.

We hope this report helps you learn more about ELARC. If you have any questions or comments, please contact us!

How well is ELARC performing?

This chart tells you five areas where DDS wants each regional center to keep improving.

The first column tells you how ELARC was doing last reporting period, and the second column shows how ELARC was doing at the end of fiscal year 2024-25.

To see how ELARC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).
