

# Part C SSIP Revision -Theory of Change

## If Early Start...

Improves conditions and incentives for providing high quality Early Intervention (EI), and

Builds its infrastructure to support high quality implementation and data analysis to:

- Standardize the IFSP and goal expectations, and

- Provide Technical Assistance, Professional Development, and coaching to build the capacity of staff, families, and the community to understand and practice high quality EI, specifically to:

- Uniformly conduct family-directed assessments,

- Develop high quality IFSPs,

- Coach families to help their children,

- Monitor goal progress consistently

## Programs and staff will...

- 1) Uniformly conduct high quality family-directed assessments,

- 2) Develop high quality IFSPs,

- 3) Implement family coaching universally and consistent with recommended practice, and

- 4) Monitor progress validly and consistently

## Then...

More families receiving early intervention will help their children develop and learn.

Children will demonstrate better outcomes.
