

# Direct Support Professional University

## Quick Reference Guide

### Steps for Participating in the Direct Support Professional University (DSPU) Program

Direct Support Professionals (DSPs) who wish to participate must complete the online enrollment form. The steps to enrolling into the program are as follows:

- **Step 1:** DSP accesses the online enrollment form. DSPs can access the form directly from the [DSP University : CA Department of Developmental Services](#) webpage and selecting the drop down titled “Enroll in EDGE”.
- **Step 2:** DSP completes the form, providing their personal information and their employer information.
  - For a DSP to maintain access to their EDGE account, DSPs are asked to use their personal email address during enrollment rather than a work email address associated with the employer.
- **Step 3:** After submitting the enrollment form, the DSP will receive an email with their username and temporary password to login to EDGE and access DSPU courses.
- **Step 4:** DSP is given access to EDGE to begin taking courses.
