

San Diego Regional Center Targeted Case Management and Nursing Home Reform Monitoring Report

Conducted by: Department of
Developmental Services

Review Dates: April 7–24, 2025

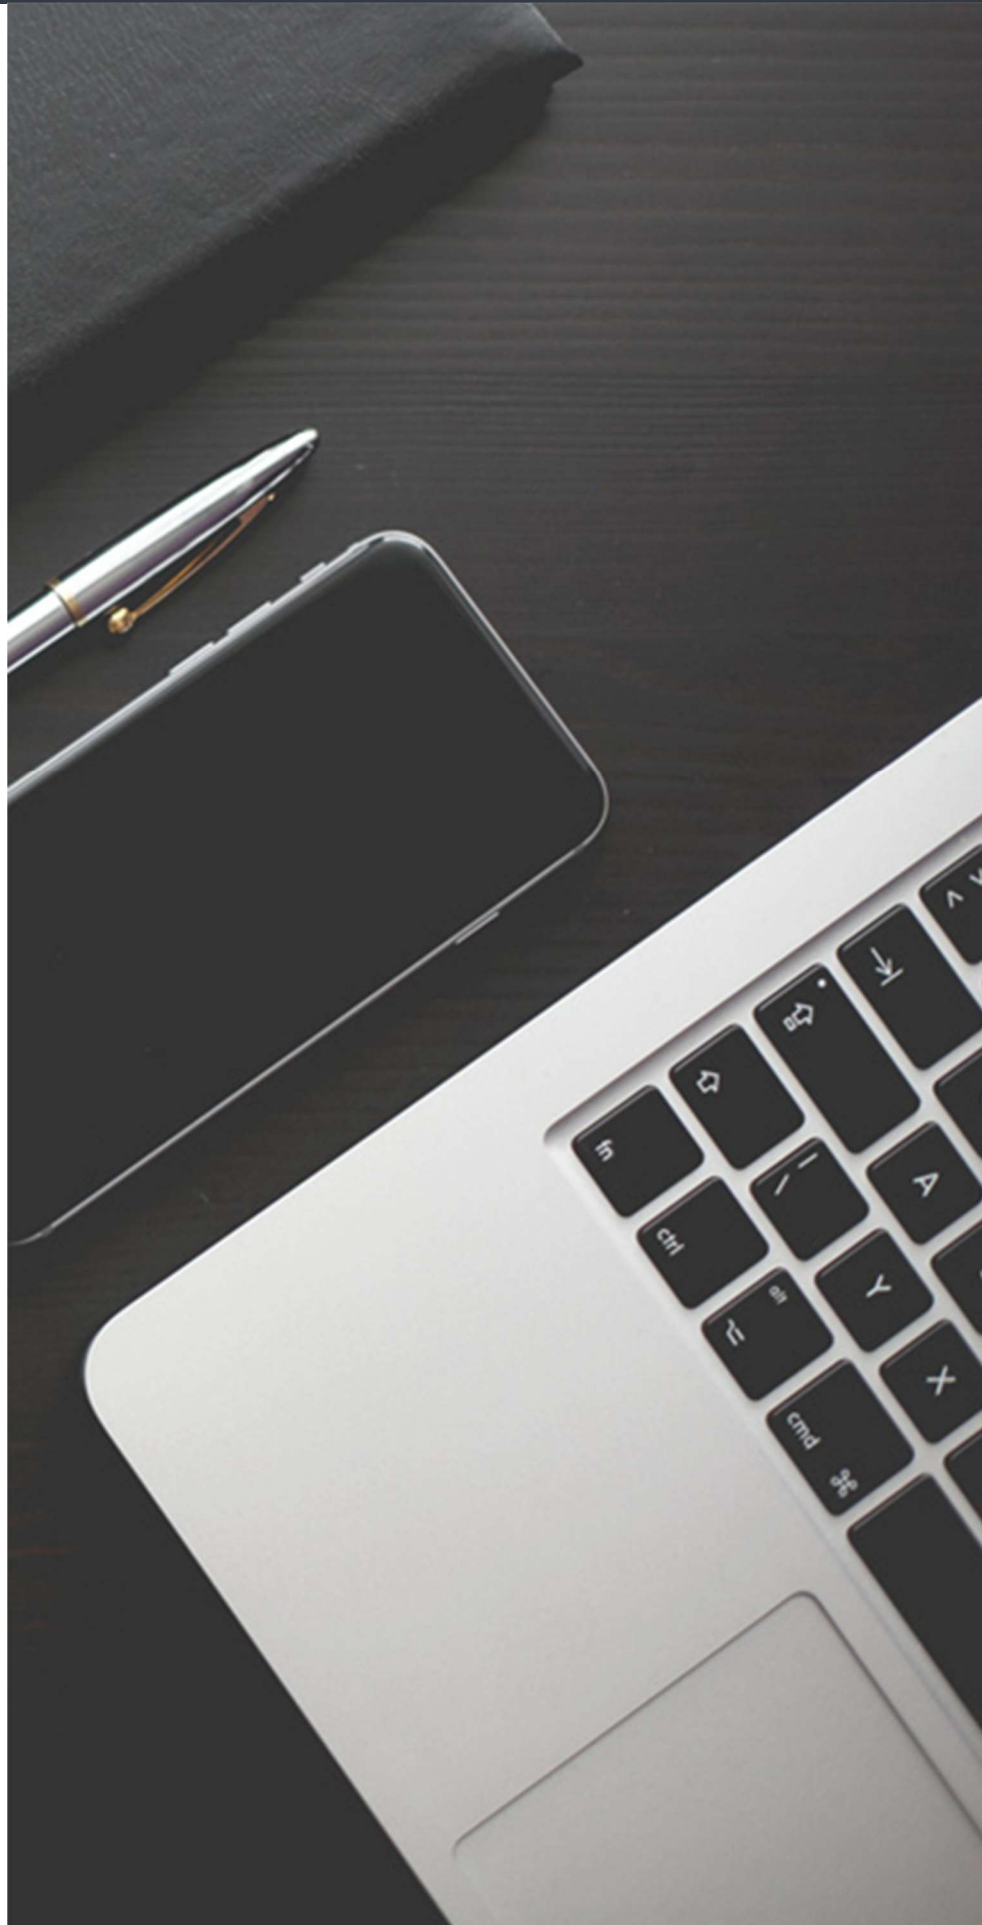

TABLE OF CONTENTS

SECTION I: TARGETED CASE MANAGEMENT 3

SECTION II: NURSING HOME REFORM 4

SECTION I: TARGETED CASE MANAGEMENT

Fifty records of individuals supported by San Diego Regional Center (SDRC), containing 2,892 billed units, were reviewed for the review period of January 1, 2024, through December 31, 2024, to ensure that SDRC is in compliance with the Federal and State laws and regulations and the Centers for Medicare & Medicaid Services’ guidelines relating to the provision of Targeted Case Management (TCM).

The sample records were 100 percent in compliance for criterion 1 (TCM service and unit documentation matches the information transmitted to the Department), 99 percent in compliance for criterion 2 (TCM service documentation is consistent with the definition of TCM service), and 100 percent in compliance for criterion 3 (TCM service documentation identifies the individual who wrote the note and the date the note was completed).

Findings

Criterion 2: The sample of 50 records contained 2,891 billed TCM units. Of this total, 2,858 (99 percent) of the units contained descriptions that were consistent with the definition of TCM services.

Recommendation	Regional Center Plan/Response
SDRC should ensure that the time spent on the identified activities that are inconsistent with TCM claimable services (sent separately) is reversed.	SDRC has reviewed all TCMs listed. Additional TCM training will be provided to all service coordinators with TCMs who authored notes found to be inconsistent with definition of TCM services. SDRC has updated the TCM manual as a training resource for Client Services.

SECTION II: NURSING HOME REFORM

A sample of 10 records of individuals who were referred to the SDRC for the Pre-Admission Screening/Resident Review program were reviewed for the period of January 1, 2024, through December 31, 2024 to ensure that the regional center is in compliance with the Centers for Medicare & Medicaid Services' guidelines relating to Nursing Home Reform (NHR) to determine whether an individual in a nursing facility with suspected developmental disabilities, has a developmental disability and requires specialized services.

The 10 sample records were 100 percent in compliance for criterion 1 (records contained a copy of the Pre-Admission Screening/Resident Review (PAS/RR) Level I form, or NHR automated printout), criterion 2 (records of individuals served contained a PAS/RR Level II document or written documentation responding to the Level I referral), and for criterion 3 (the billing information for the 10 sample of individuals served had been entered into the AS 400 computer system and electronically transmitted to the Department).

Findings

None
