

September 1, 2026

Important notice from the Department of Developmental Services about:

COMPETITIVE INTEGRATED EMPLOYMENT INCENTIVE PERFORMANCE MEASURE RESULTS, FISCAL YEAR 2024-25

C-2026-Regional Center Performance Measures-002

What to Know

State law says the Department of Developmental Services (Department) must check how regional centers are doing each year. These checks are called performance measures, and they help make sure people get good services.

The Department is giving an update about the Competitive Integrated Employment (CIE) incentive measure. This measure looks at how many people get jobs in the community.

In January 2026, the Department communicated with regional centers that the information needed for the CIE results would be ready in the summer. The Department has now received and reviewed that information. The CIE results for fiscal year 2024–25 year have been added to the 2024–25 Report Card.

Questions?

Ask your service coordinator if you have questions or email rcmeasures@dds.ca.gov
