With implementation of rate reform, most services transitioned to appropriate service codes but in some cases providers deliver services that do not align with services defined in statute, regulation, and/or the directives issued as part of rate reform. Often, these services use either one of the following service codes 048- Client/Parent Support/Behavior Intervention, 055- Community Integration Training Program, 063- Community Activity Support Services and 103- Specialized Health, Treatment and Training. If a regional center determines that a provider's service does not fit into any of the updated service descriptions, the regional center must request Department approval to utilize one of the service codes listed above.

DDS Department of Developmental Services

SERVICE CODE (SC) EXEMPTION TOTALS AS OF 11/16/26

	Total	SC 048	SC 055	SC 063	SC 103	Other
